### Long-Term Issue - State of Good Repair

The need to replace buses and modernize and upgrade business systems, equipment, and technology, coupled with the increasing cost of those improvements, if not addressed, will result in:

- Loss of revenue
- Difficulty attracting new customers
- Decreased customer satisfaction
- Decreased customer safety
- Lost efficiencies
- Increased operating and maintenance costs
- Non-compliance with local, state, and federal requirements

### Strategies to address the Long-Term Issue

- Seek funding alternatives to ensure buses are replaced by the end of their useful economic life.
- Expand skill set of supervisors to leverage new technology to monitor the schedule adherence of each bus so contingency drivers and equipment can be used to improve on-time performance.
- Complete equipment and facility preventative maintenance work on schedule.
- Continue updating technology and improve convenience in the parking program in order to improve customer service, reliability, security and safety.
- Continue annual capital improvement projects to parking, bus, bike share and ferry assets.
- Develop Transit Asset Management plan as mandated by the Federal Transportation Administration.

### Strategic Result(s) to measure annual progress on Long-Term Issue

By 2019, public transportation and parking customers will benefit from more reliable service, as evidenced by:

**\$** 

- At least 85% of fixed-route trips will provide on-time arrival.
- At least 95% of EMBARK Plus paratransit pick-ups will be on time.
- At least 99% of EMBARK Oklahoma River Cruises trips will provide on-time arrival.
- At least 99% uptime hours for metered parking hours available for residents and visitors parking in Downtown Oklahoma City.
- 95% of the EMBARK fleet will be within lifecycle.

#### Long-Term Issue - Workforce Development

Continual difficulty in recruiting, developing and retaining a skilled and well trained workforce, due to a competitive compensation environment, varying shifts, and governing regulations, if not addressed, will jeopardize the ability to provide safe and customer-friendly services.

#### Strategies to address the Long-Term Issue

- Continue required quarterly safety and security training classes for operations and maintenance staff.
- Conduct targeted safety and security campaigns.
- Monitor safety and security training of contract operators.
- Continue retention team meetings to evaluate new bus operators at 45, 65 and 80 day increments and expand retention team concept to other operational areas.
- Develop succession plan.
- Develop recruitment plan.
- Provide customer service training for employees.
- Develop and implement an employee recognition program.

### Strategic Result(s) to measure annual progress on Long-Term Issue

By 2019, public transportation and parking customers will benefit from a skilled workforce that provides safe service, as evidenced by:

- Accidents will be at or below 1.5 per 100,000 miles.
- <sup>1175</sup> # of accidents per 100,000 miles 3.78 3.18 2.85 2.40 3.02

### Strategic Result(s) to measure annual progress on Long-Term Issue

By 2019, the Public Transportation and Parking Department will retain a well trained workforce, as evidenced by:

- Annual turnover rate of employees will be less than 15%.
- At least 80% of full time employees will be employed by EMBARK for at least 24 months beyond the date of hire.

### Long-Term Issue - Sustainable Growth and Service Development

Increasing demand for various modes of transportation, inadequate coordination between public and private entities, and lack of dedicated funding sources, if not addressed, will result in:

- An increased gap between the modes of transportation services provided and those demanded by a diverse and growing public transportation customer base
- A reduction of public transportation services and diminished ability for residents to get to work, medical appointments, shopping, school, day care, recreational activities and access to other basic services
- Missed opportunities for effective partnerships and economic development

#### Strategies to address the Long-Term Issue

- Demonstrate use of available resources through reports to residents and riders that convey accomplishments using transit system metrics and goals.
- Maximize ridership through additional system enhancements for bus, ferry, van pool, bike share and park and ride.
- Seek funding alternatives for timely replacement of buses that have reached the end of their economic, useful life.
- Establish streetcar operations.
- Promote Transit Oriented Development (TOD) and land use strategies to developers, policy makers, and City departments.
- Serve on the Regional Transit Authority Task Force to develop a regional transit authority.

#### Strategic Result(s) to measure annual progress on Long-Term Issue

*By 2019, public transportation services will make the best use of available resources, as evidenced by:* 

- Passengers per weekday bus service hour will be at or above 20.
- Passengers per ferry service hour will be at or above 10.
- Average Spokies riders per month will be at or above 500.
- Operating expenses will be at or below \$7.50 per fixed route bus passenger.
- Average frequency for EMBARK weekday fixed-route bus service will be less than 30 minutes.
- The number of EMBARK Plus paratransit trips denied due to capacity constraints will be less than 2%.

#### **Long-Term Issue - Security**

Increasing emphasis on security in public transportation and limited enforcement resources, coupled with growing ridership, extended service hours and new transit modes if not addressed will result in:

- Less safe customer and employee environment
- Decrease in ridership and customer satisfaction
- Reduced ability to attract and retain employees
- Diminished value of services to the community
- Impaired ability to pass regional transit initiatives

#### Strategies to address the Long-Term Issue

- Continue to invest annual security grant funding for security enhancements.
- Determine the feasibility and research the impact of developing a transit police program.
- Identify security issues by type and track for developing new security programs.
- Continue to work with local Transportation Security Administration officials to adapt security best practices to EMBARK operations.

### Strategic Result(s) to measure annual progress on Long-Term Issue

By 2019, public transportation customers and employees will benefit from a more secure transit system, as evidenced by:

## Long-Term Issue - Oklahoma City Streetcar

The increasing need and growing expectation to establish and integrate the Oklahoma City Streetcar as an efficient and viable downtown transit option, coupled with the need to educate the public and coordinate with other entities in order to successfully launch the Oklahoma City Streetcar, if not addressed will result in:

- Reduced ability to attract and retain customers
- Inability to generate sponsorship funding and attract community partners
- Unsafe interactions with motorists, pedestrians, and cyclists
- Reduced public confidence for future streetcar expansion
- Minimal additional TOD and economic development along the route

#### Strategies to address the Long-Term Issue

- Continue to coordinate with MAPS 3 Office for all operational requirements during construction.
- Establish streetcar service by following and amending the Operations Plan.
- Develop and implement public awareness strategies to educate the community about streetcar service and how to safely interact with the streetcar as a pedestrian, driver, rider, and cyclist.
- Partner with State Safety Oversight Office (ODOT), Federal Transit Administration and various local agencies to secure all required safety certifications.
- Effectively negotiate and manage the contract for streetcar operations and maintenance for a success launch and continuation of service past opening day.
- Provide open lines of communicate with property and business owners throughout the construction process and after operations begin.
- Develop and maintain interest and support from property and business owners along and near the route.
- Work with public and private programs to encourage density and development along and near the route.

#### Strategic Result(s) to measure annual progress on Long-Term Issue

By 2019, Oklahoma City Streetcar will be operational as evidenced by:

- 100% of operational milestones will be achieved.
- 100% of safety milestones will be achieved.
- 100% of adjacent property owners and businesses will receive an initial contact.
