Report on the Financial Statements

We have audited the accompanying financial statements of the Oklahoma City Zoological Trust (Trust), a component unit of the City of Oklahoma City, Oklahoma, as of and for the year ended June 30, 2018 and 2017, and the related notes to the financial statements, which collectively comprise the Trust's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Trust as of June 30, 2018 and 2017, and the changes in its financial position and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 6, in 2018, the Trust adopted Government Accounting Standards Board Statement No. 75, *Accounting and Financial Reporting by Employers for Post-Employment Benefits Other Than Pensions*. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and the required supplementary information listed in the table of contents be presented to supplement the basic financial statements. Such information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audits of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Trust's basic financial statements. The combining statements of net position and revenues, expenses and changes in net position are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 16, 2018 on our consideration of the Trust's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Trust's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS
Years Ended June 30, 2018 and 2017

Introduction

Within this section of the Oklahoma City Zoological Trust's (Trust) annual financial report, the Trust's management provides narrative discussion and analysis of the Trust's financial activities for the years ended June 30, 2018 and 2017. This should be read in conjunction with the accompanying financial statements of the Trust. The Trust is a blended component unit of the City of Oklahoma City, Oklahoma (City).

Financial Highlights

Trust assets and deferred outflows of resources exceeded liabilities by \$81,767,175 (net position) as of June 30, 2018. This compares to the previous year when assets and deferred outflows of resources exceeded liabilities by \$89,585,466.

Trust liabilities and deferred inflows of resources increased by \$15,164,598 to \$33,065,012 for fiscal year 2018.

Total net position at June 30, 2018, is comprised of the following:

- Net investment in capital assets of \$70,356,614 includes capital assets, net of accumulated depreciation, reduced for outstanding debt related to the purchase or construction of capital assets.
- Restricted for debt service includes investments in trust accounts of \$2,782.
- Restricted for health claims of \$537,232 includes the cash in trust accounts, net of the related liability for claims incurred but not yet reported.
- Unrestricted of \$10,870,547 represents the portion available to maintain the Trust's continuing obligations to citizens and creditors.

Overview of the Financial Statements

Management's discussion and analysis introduced the Trust's basic financial statements. The basic financial statements include the: 1) statements of net position; 2) statements of revenues, expenses and changes in net position; 3) statement of cash flows; and 4) notes to the financial statements. Additional information to supplement the basic financial statements is also included in this report.

Basic Financial Statements

These statements provide both long and short-term financial information about the overall status of the Trust. The Trust's financial reporting uses a perspective similar to that found in the private sector with its basis in full accrual accounting.

The statements of net position presents information that includes all of the Trust's assets, deferred outflows of resources, liabilities and deferred inflows of resources with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial condition of the Trust as a whole is improving or deteriorating.

The statement of revenues, expenses and changes in net position reports how the Trust's net position changed during the current fiscal year. All current year revenues and expenses are included regardless of when cash is received or paid.

The statement of cash flows reports the inflows and outflows of the Trust's cash.

Financial Analysis

The Trust's net position at June 30, 2018, is \$81,767,175. This is a decrease of \$7,818,291 from the June 30, 2017, net position of \$89,585,466. The overall financial position of the Trust improved during the 2018 and 2017 fiscal years. The following table provides a summary of net position:

The decrease in current and other assets is primarily due to cash purchases of capital assets. The increase in capital assets during 2018 was substantial and, after the offset by depreciation, increased by approximately \$16.7 million. The increase in capital assets during 2018 was due to the continued construction of the Asia Phase II project of approximately \$15.9 million and the construction of the picnic grounds and renovation of \$3.0 million and other miscellaneous additions of approximately \$1.4 million, offset by depreciation of approximately \$3.2 million.

The decrease in current liabilities at year-end is due to a decrease in accounts payable from construction invoices in the prior year.

MANAGEMENT'S DISCUSSION AND ANALYSIS
Years Ended June 30, 2018 and 2017

The increase in long-term liabilities at year-end is primarily due to an increase in the Trust's other post-retirement benefits (OPEB) obligation offset by the scheduled principal payments on the bonds.

During 2018, operating revenues decreased 11.2% even though there was a \$3 increase in general admission prices. Attendance also dropped by over 100,000 visitors. Operating expenses decreased 10.6% due to the outsourcing of retail and gift shop concessions. Sales tax payments from the City increased 6.2% due to improved economic conditions. Investment income increased 34.6% due to an increase in investments.

In fiscal year 1991, voters passed a permanent 1/8 cent sales tax increase dedicated to the Trust. In accordance with state statutes, the state collects the monies and remits them to the City. Monies are paid by the City to the Trust on a monthly basis.

During 2018, donations from Oklahoma Zoological Society, Inc. decreased by 23.8% because of lower amounts due to the Zoo as per four year rolling average calculation of Zoo support by the MOU. In 2017, donations increased by 86.2% due to steady increase in membership and donations.

The Change in Accounting Principle recorded during fiscal year 2018 was to reconcile beginning net position as of July 1, 2017 for the adoption of GASB 75: *Accounting and Financial Reporting by Employers for Post-Employment Benefits Other Than Pensions*.

Capital Assets and Debt Administration

The 2017 updated Master Plan envisions spending approximately \$71.4M over a 10-year period. Individual elements of the plan and their estimated costs are approximately: the Galapagos Tortoise - \$504,000, Adventure Islands - \$200,000, The Pachyderm - \$12,369,000, Condor/Raptor Aviary - \$1,008,000, Amphibian Plaza - \$504,000, African Savanna/Giraffe Barn - \$14,877,000, The Farm - \$6,093,000, Event Center - \$10,183,750, Event Gardens - \$2,235,000, the Preserve - \$10,479,000, Sea Lion Cove - \$12,978,000.

OKLAHOMA CITY ZOOLOGICAL TRUST
A Component Unit of the City of Oklahoma City, Oklahoma
NOTES TO THE FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Operations and Reporting Entity

The Oklahoma City Zoological Trust (Trust) was created by the City of Oklahoma City, Oklahoma (City) on January 7, 1975, under the laws of the State of Oklahoma (State) for the purpose of developing, maintaining, operating and managing the Oklahoma City Zoo (Zoo). Trustees include the Mayor, the City Manager, one member of the City Council and six other persons who are recommended by the Oklahoma Zoological Society, Inc. (Society), selected by the Mayor and approved by the City Council. The City Council also approves the Trust's sales tax budget. If the Trust terminates, the Trust agreement provides that the assets shall revert to the City. While the Trust is a legally separate entity whose beneficiary is the City, it is a component unit of the City reported as a proprietary fund, and the accompanying financial statements are blended in the City's comprehensive annual financial report, a copy of which may be obtained from the City's Accounting Services Division.

Organization and Reporting Entity

The financial reporting entity, as defined by the Governmental Accounting Standards Board (GASB), consists of the primary government, organizations for which the primary government is financially accountable and other organizations for which the nature and significance of their relationship with the primary government are such that exclusion could cause the financial statements to be misleading or incomplete.

The Society is an Oklahoma not-for-profit organization that was created in 1954 to support and promote the Zoo. The Society does this through membership drives, annual fundraising, capital campaigns, marketing special events and public relations. The economic resources received and held by the Society for the benefit of the Trust are not significant to the Trust's overall financial position. The Society is not included in the accompanying financial statements of the Trust as it does not meet the definition of a component unit.

Measurement Focus and Basis of Accounting

As a proprietary fund, the Trust is accounted for using the economic resources measurement focus and the accrual basis of accounting. Revenues are recognized when earned, and expenses are recognized when the related liability is incurred.

The Trust is organized into accounts in order to achieve sound and efficient financial administration and reporting. Each account is considered a separate accounting entity, while all accounts are combined in the basic financial statements. The accounts include the following:

- The **operating account** is used to account for the Trust's operations and all financial resources except those accounted for in other accounts.
- The **designated animal account** receives funds from the sale of zoo animals and was established by the Lease and Operating Agreement between the City and the Trust dated June 11, 1985. These funds may be expended for approved animal purchases or for approved minor zoo improvements.

OKLAHOMA CITY ZOOLOGICAL TRUST
A Component Unit of the City of Oklahoma City, Oklahoma
NOTES TO THE FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

- The **designated account**, established by the Board of Trustees, is used to account for the resources received in the settlement of the estate of a donor. The donor places no restrictions on the use of the funds.
- The **sales tax account** is used to account for that portion of the City's sales tax, which is earmarked specifically for use by the Trust. This account also includes bond funds, which are used for construction.

When both restricted and unrestricted resources are available for use, it is the Trust's policy to use restricted resources first and then unrestricted resources as needed. Restricted assets and liabilities payable from restricted assets that are current in nature are reported with current assets and liabilities in the accompanying financial statements.

Operating and Nonoperating Revenues and Expenses

Operating income or loss includes revenues and expenses related to the primary, continuing operations of the Trust. Principal operating revenues are charges to customers for sales or services. Principal operating expenses are the cost of providing goods or services and include administrative expenses and depreciation of capital assets. Other revenues and expenses are classified as nonoperating in the accompanying financial statements.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities, deferred inflows of resources, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Investments

The Board of Trustees formally adopted the City's deposit and investment policy for unrestricted accounts in addition to policies specified in the Zoo's bond indenture applicable to the Trust's sales tax fund as restricted by the indenture.

Cash includes only cash deposits in order to appropriately report investment activity. Investments are reported at fair value, and are comprised of funds deposited into trustee banks in accordance with the investment policy specified in the bond indenture for restricted deposits and investments.

Fair Value of Financial Instruments

Fair value is defined as the exchange price that would be received to sell an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction. There is a fair value hierarchy which requires an entity to maximize the use of observable inputs when measuring fair value. The guidance requires three levels of fair value measurement based on the respective inputs.

OKLAHOMA CITY ZOOLOGICAL TRUST
A Component Unit of the City of Oklahoma City, Oklahoma
NOTES TO THE FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The following describes three levels of inputs that may be used to measure fair value:

Level 1 - Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date;

Level 2 - Inputs to the valuation methodology are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies; and

Level 3 - Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The carrying value of the Trust's investments in money market funds are valued using quoted market prices, and therefore are classified as Level 1.

Accounts Receivable

The Trust records accounts receivable for services provided to citizens, schools or corporate customers. The Trust also records receivables for long-term contracts. As of June 30, 2018 and 2017, management has estimated reserves for uncollectable receivables of \$1,683 and \$8,003, respectively.

Inventories

Inventories consist of animal food and certain operating supplies and are valued at the lower of cost or market on the first-in, first-out (FIFO) method.

Sales Tax Receivable from the City

During fiscal year 1991, voters passed a sales tax increase earmarked specifically for the purpose of funding certain zoo activities. In accordance with State statutes, the State collects the monies and remits them to the City, who accounts for the receipt of the sales taxes and interest earned on related deposits in a separate limited-purpose fund. The Trust records such amounts as a receivable from the City at the time the City earns the taxes. In accordance with the city ordinance authorizing the tax, the Trust records such activity in the sales tax account. Monies are paid by the State to the City on a monthly basis. The funds are invested in the City's investment pool and are reported in the City's comprehensive annual financial report. Funds are transferred from the City upon request from the Trust.

NOTES TO THE FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Capital Assets and Depreciation

Capital assets are stated at actual or estimated historical cost, net of accumulated depreciation. Donated capital assets are stated at estimated fair value at the date of donation. Costs incurred during construction of long-lived assets are recorded as construction in progress and are not depreciated until placed in service. Capital assets consist of only those items acquired since the formation of the Trust whose cost is greater than or equal to \$7,500. Depreciation is computed using the straight-line method based on the estimated useful lives of the assets as follows:

Buildings and grounds	5 - 50 years
Improvements	2 - 20 years
Equipment and other	3 - 10 years

Individual animals are expensed when purchased.

Maintenance and repairs to capital assets are charged to operations, while renewals and betterments are capitalized. When capital assets are disposed of or sold, the cost and applicable accumulated depreciation are removed from the respective accounts, and the resulting gain or loss is recorded in operations.

Interest Capitalization

Interest costs related to revenue bonds are capitalized as part of the historical cost of acquiring certain assets. To qualify for interest capitalization, assets must require a period of time to get them ready for their intended purpose. Interest earned on proceeds of tax-exempt borrowing arrangements restricted to the acquisition of qualifying assets is offset against interest costs in determining the amount to be capitalized. There was no interest capitalized for the years ended June 30, 2018 and 2017.

Compensated Absences

Employees are granted paid time off (PTO) benefits in varying amounts depending on tenure with the Trust. These benefits accumulate pro rata by two-week periods and must be taken within the calendar year. Employees can elect to carry over a maximum of 40 hours into the next calendar year. PTO benefits are accrued as earned.

Sick leave benefits accrue to employees at the rate of five hours per two-week pay period to a maximum accrual of 520 hours. Employees are not entitled to payment of their sick leave balance at termination; therefore, no liability related to sick leave is recorded in the accompanying basic financial statements.

Unearned Lease Revenue

Unearned lease revenue from the Remington Park Race Track facility owned by Global Gaming RP, LLC is being amortized over the initial lease term and the five renewal option periods for a term of 75 years (see Note 7).

NOTES TO THE FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Deferred Outflows of Resources/Deferred Inflows of Resources

The separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The Trust has deferred outflows for net loss on refunding, pension activity and, for 2018, OPEB activity that qualify for reporting in this category.

The separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The Trust has deferred inflows for pension activity, service concession arrangements and, for 2018, OPEB activity that qualify for reporting in this category.

See Note 5 for more information on the pension deferred resources, Note 10 for more information on the service concession arrangement deferred resources and Note 6 for more information on OPEB activity.

Defined Benefit Pension Plan

The Trust's full-time employees are eligible to participate in the City's Employee Retirement System (ERS). For purposes of measuring the net pension asset, deferred outflows of resources and deferred inflows of resources related to pensions and pension expense, information about the fiduciary net position of the ERS and additions to/deductions from the ERS's fiduciary net position have been determined on the same basis as they are reported by the ERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Postemployment Benefits Other Than Pensions (OPEB)

For the year ended June 30, 2018, the Trust implemented the provisions of GASB 75, *Accounting and Financial Reporting by Employers for Post-Employment Benefits Other Than Pensions*.

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the City of Oklahoma City Post-Retirement Medical Plan (OPEBT) and additions to/deductions from OPEBT's fiduciary net position have been determined on the same basis as they are reported by OPEBT. For this purpose, OPEBT recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value, except for money market investments and participating interest-earning investment contracts that have maturity at the time of purchase of one year or less, which are reported at cost.

OKLAHOMA CITY ZOOLOGICAL TRUST
A Component Unit of the City of Oklahoma City, Oklahoma
NOTES TO THE FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Net Position

Net position of the Trust is classified in three components. The net investment in capital assets consists of capital assets reduced by the outstanding balances of borrowings that are attributable to the acquisition, construction or improvement of those assets. Restricted expendable net position is non-capital assets, the use of which is limited by external constraints imposed by creditors (such as through debt covenants), grantor or donors, including amounts deposited with trustees as required by bond indentures, reduced by the outstanding balances of any related borrowings. Unrestricted net position is remaining assets less remaining liabilities that do not meet the definition of net investment in capital assets or restricted expendable net position.

Revenue Recognition

Operating revenues are recorded when goods and services are provided. Sales tax revenues are recorded when earned. Donation revenues, predominantly from the Society, are recorded when known and when receipt of revenue is reasonably assured.

Bond Discounts and Premiums

Bond discounts and premiums are capitalized and amortized over the term of the bonds using a method which approximates the effective interest method.

Income Tax

The Trust is exempt from federal income tax under Section 115 of the Internal Revenue Code.

2. DEPOSITS AND INVESTMENTS

Deposits

Custodial credit risk for deposits is the risk that in the event of a bank failure the Trust's deposits may not be returned or the Trust will not be able to recover collateral securities in the possession of an outside party. The City/Trust policy requires deposits to be 110% secured by collateral valued at market or par, whichever is lower, less the amount of the Federal Deposit Insurance Corporation (FDIC) insurance. Deposited funds may be invested in certificates of deposit in institutions with an established record of fiscal health and service, as determined by a rating of C- or above by independent rating agencies. Collateral agreements must be approved prior to deposit of funds as provided by law. The City Council approves and designates a list of authorized depository institutions based on evaluation of solicited responses and certifications provided by financial institutions and recommendations of an evaluation committee and/or the City Treasurer. At June 30, 2018 the Trust's bank balance was \$10,073,128. At June 30, 2017, all of the Trust's deposits held by a counterparty were fully insured or collateralized.

OKLAHOMA CITY ZOOLOGICAL TRUST
A Component Unit of the City of Oklahoma City, Oklahoma
NOTES TO THE FINANCIAL STATEMENTS

2. DEPOSITS AND INVESTMENTS (CONTINUED)

Investments

The general bond indenture for the Oklahoma City Zoological Trust Sales Tax and Revenue Bonds (Bond Indenture) requires the use of trust accounts. The bond account is used to segregate resources accumulated for debt service payments over the next 12 months. The bond reserve account is used for proceeds of revenue bond issuances set aside to make up potential future deficiencies in the bond account or to make the last bond principal and interest payments.

As of June 30, 2018 and 2017, the Trust had the following investments and maturities:

<u>Types of Investments</u>	<u>Fair Value / Carrying Amount</u>	<u>Cost</u>	<u>Ratings (1)</u>	<u>Weighted- Average Days to Maturity (2)</u>
Money market funds				
2018	\$ 1,118,799	\$ 1,118,799	AAAm/Aaa-mf	41
2017	\$ 738,120	\$ 738,120	AAAm/Aaa-mf	45

(1) Ratings are provided where applicable to indicate associated credit risk.

(2) Interest rate risk is estimated using weighted-average days to maturity.

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Investing is performed in accordance with investment policies adopted by the City Council complying with State statutes and the City charter. City/Trust funds may be invested in: 1) direct obligations of the United States government, its agencies or instrumentalities to the payment of which the full faith and credit of the government of the United States is pledged or obligations to the payment of which the full faith and credit of the State of Oklahoma is pledged; 2) obligations of the Government National Mortgage Association, Federal National Mortgage Association or Federal Home Loan Mortgage Corporation or any federal farm credit bank, federal land bank or federal home loan bank notes or bonds; 3) collateralized or insured certificates of deposit and other evidence of deposits at banks, savings banks, savings and loan associations and credit unions located in the City when secured by appropriate collateral; 4) repurchase agreements that have underlying collateral of direct obligations or obligations of the United States government, its agencies and instrumentalities; 5) money market funds regulated by the Securities and Exchange Commission and which investments consist of the authorized investments (domestic securities) with restrictions as specified in state law; 6) State and Local Government Series (SLGS); and 7) City direct debt obligations for which an ad valorem tax may be levied or bonds issued by a public trust of which the City is a beneficiary and judgments rendered against the City by a court of record, provided it is a prudent investment. Under the policy, the City/Trust may not invest in reverse repurchase agreements, derivative instruments created from, whose value depends on, or is derived from, the value of one or more underlying assets or indices of asset value and/or has no call options to the desired maturity or is a variable rate instrument. Collateralization is further restricted to permitted investments shown previously as items 1 and 2.

OKLAHOMA CITY ZOOLOGICAL TRUST
A Component Unit of the City of Oklahoma City, Oklahoma

NOTES TO THE FINANCIAL STATEMENTS

2. DEPOSITS AND INVESTMENTS (CONTINUED)

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Investments held for longer periods are subject to increased risk of adverse interest rate changes. The policy provides that, to the extent practicable, investments are matched with anticipated cash flows. Investments are diversified to minimize the risk of loss resulting from overconcentration of assets in a specific maturity period, a single issuer or an individual class of securities. Unless matched to a specific cash flow, investments are not made in securities matching more than five years from the date of purchase. Certificates of deposit may not be purchased with maturities greater than 365 days from date of purchase.

Concentration of credit risk is the risk of loss attributed to the magnitude of the investment in a single issuer. Cumulatively, portfolios may not be invested in any given financial institution in excess of 5% of such institution's total assets. Additionally, no more than 5% of the total portfolio may be placed with any single financial institution with the exception of repurchase agreements. U.S. government securities, SLGS and city judgments are excluded from these restrictions.

Maturity Limitations		Investment-Type Limitations	
Percentage of Total Principal		Percentage of Total Invested Principal	
Maximum % (1)		Maximum % (3)	
0 - 1 year	100%	Repurchase agreements	100%
1 - 3 years	90%	U.S. Treasury securities (2)	100%
3 - 5 years	90%	Certificates of deposit	50%
		Money market funds	100%
		Savings account	100%
		U.S. noncancellable agencies securities	100%
		U.S. callable agencies securities	20%
		Prime commercial paper	7.5%
		Judgments	5%

Except in instances of specifically matched cash flows, the portfolio is structured as follows:

- 1) For maturities limited to 0-1 year the minimum percentages allowed under the policy are 5-25%.
- 2) Includes SLGS.
- 3) For investments listed, there is no minimum percentage specified under the policy.

The City/Trust policy also allows surplus cash, certificates of deposit and repurchase agreements to be collateralized with securities with longer maturities if such maturity does not exceed 10 years.

OKLAHOMA CITY ZOOLOGICAL TRUST
A Component Unit of the City of Oklahoma City, Oklahoma
NOTES TO THE FINANCIAL STATEMENTS

2. DEPOSITS AND INVESTMENTS (CONTINUED)

Custodial credit risk is the risk that in the event of the failure of the counterparty the Trust will not be able to recover the value of its investments or collateral securities in the possession of an outside party. The City/Trust policy provides that investment collateral is held by a third-party custodian with whom the City has a current custodial agreement in the City's name or be held in the name of both parties by the Federal Reserve Bank servicing Oklahoma. City policy is more restrictive than the requirements of Oklahoma law found in Title 62 of the Oklahoma Statutes as follows: Statutes allow investment in any agencies or instrumentalities of the U.S. government; negotiable certificates of deposit are permitted investments without collateralization restrictions (limited to 10% of investable funds and not more than half of the 10% may be invested in any one financial institution); prime banker's acceptances are acceptable investment instruments (limited to 270 days maturity or less and may comprise no more than 10% of investable funds with no more than half of the 10% in any one commercial bank); prime commercial paper is also permitted (restricted to 180 days maturity or less and may not comprise more than 10% of the outstanding paper of an issuing corporation with no more than 7.5% of investable funds permitted to be in commercial paper); purchase of municipal direct debt is not limited to Oklahoma City direct debt and may include Oklahoma counties and school districts.

The Bond Indenture prescribes authorized investments for accounts restricted under the indenture as follows:

1. Direct obligations unconditionally guaranteed by the United States of America
2. Bonds or debentures payable in cash issued by the following federal agencies:
 - Export Import Bank of the United States
 - Federal Financing Bank
 - Farmers Home Administration
 - Federal Housing Administration
 - Maritime Administration
 - Public Housing Authorities
 - Government National Mortgage Association
3. Investments fully insured by the FDIC, including;
 - Certificates of deposit
 - Savings accounts
 - Deposit accounts
 - Depository receipts
4. Certificates of deposit in excess of FDIC insurance properly secured by collateral security consisting of obligations described in 1) and 2) above
5. Commercial paper
6. Money market funds
7. Investment agreements

OKLAHOMA CITY ZOOLOGICAL TRUST
A Component Unit of the City of Oklahoma City, Oklahoma
NOTES TO THE FINANCIAL STATEMENTS

2. DEPOSITS AND INVESTMENTS (CONTINUED)

The Bond Indenture provides that investments mature in no more than 6 to 60 months, depending on the purpose of the funds and the requirements of the account in which funds are deposited (bond, operating and maintenance, construction, etc.).

The Trust's investment policy is more restrictive than the requirements of Oklahoma law found in Title 60 of the Oklahoma Statutes and the standards of the *Uniform Prudent Management of Institutional Funds Act of 1972*. These statutes restrict public trust investing to the Prudent Investor Rule defined by Title 60 of the Oklahoma Statutes to consider the purposes, terms, distribution requirements and other circumstances of the Trust and to exercise reasonable care, skill and caution. Investment decisions must be evaluated not in isolation, but in the context of the Trust's portfolio as a whole and as a part of the overall investment strategy having risk and return objective reasonably suited to the Trust.

Trust investments were restricted for the following purposes at June 30, 2018 and 2017:

	2018	2017
Restricted cash - health claims	\$ 608,329	\$ 291,095

Revenue Bonds Payable

On June 30, 1999, the Trust issued \$8,500,000 of revenue bonds, which mature through 2019 (Series 1999 Bonds), for the purpose of financing the construction of certain facilities and the improvement of existing facilities. The bonds are collateralized by the sales tax revenues received from the City pursuant to the Bond Indenture.

During 2005, a portion of the Series 1999 Bonds were refunded by issuing \$5,660,000 in revenue bonds. As a result of this refunding, the Trust recognized a deferred amount on refunding which is being amortized over 14 years, the remaining life of the refunded debt. Revenue bonds payable are reflected net of unamortized premiums of \$6,399 and \$12,798 at June 30, 2018 and 2017.

The Bond Indenture requires the use of project account, an interest account, a principal account and a bond fund reserve account. These accounts are held by a trustee bank and managed pursuant to the terms of the Indenture. The Bond Indenture provides that sales tax revenue will be deposited into a revenue fund, and transfers will be made to the respective accounts for current requirements on a monthly basis.

Proceeds from tax-exempt bonds issued after September 1, 1996, are subject to the 1996 *Tax Reform Act*. The Trust complies with Internal Revenue Service regulations in order to maintain tax-exempt status on the bonds. The Trust had no arbitrage rebate liability at June 30, 2018 or 2017.

5. EMPLOYEE RETIREMENT PLAN

Plan Description

All full-time employees of the Trust are eligible to participate in the City's Employee Retirement System (ERS), a single-employer defined benefit public retirement system. The executive director and division directors can elect to participate in a 401(a) plan instead of the City's ERS. The ERS issues a separate stand-alone report that includes the financial statements and required supplementary information. The report can be obtained from the City's Accounting Services Division at 100 N. Walker, Oklahoma City, Oklahoma 73102.

The Trust's covered payroll approximated \$6,025,000 and \$6,187,000 for the years ended June 30, 2018 and 2017, respectively. The total payroll for all trust employees approximated \$7,935,000 and \$8,444,000 for the years ended June 30, 2018 and 2017, respectively.

Provisions for death benefits	Yes

Employer contribution rates are determined by the City Council based on an actuarially determined rate recommended by an independent actuary. Contributions to the ERS from the Trust were \$298,066 and \$308,353 for the years ended June 30, 2018 and 2017.

Pension Asset (Liability), Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

Net pension assets (liabilities) are reported when the Plan's fiduciary net position exceeds the employer's total pension liability, or the employer's proportionate share of the Plan's fiduciary net position exceeds the employer's proportionate share of the total liability for cost-sharing, multiple employer plans. Net pension asset (liability) information for the years ended June 30, 2018 and 2017 was as follows:

	June 30, 2018	June 30, 2017
Net pension assets (liabilities)	\$ 1,115,826	\$ (52,322)
Measurement date	June 30, 2017	June 30, 2016
Valuation date	December 31, 2016	December 31, 2015
Proportion	4.46%	4.46%

The net pension asset (liability) is measured by the ERS each June 30, and the total pension liability used to calculate the net pension asset (liability) is determined by an actuarial valuation as of each December 31. Update procedures are used to roll forward the total pension liability to each June 30. The Trust's proportion of the collective ERS net pension asset (liability) is based on the ratio of the Trust's contributions to ERS relative to the total employer contributions from all entities participating in the ERS.

For the years ended June 30, 2018 and 2017, the Trust recognized pension expense of \$9,041 and \$1,126,293, respectively. At June 30, 2018 and 2017, the Trust reported deferred outflows or resources and deferred inflows of resources related to the pension plan from the following sources:

5. EMPLOYEE RETIREMENT PLAN (CONTINUED)

At June 30, 2018, the Trust reported \$314,729 as deferred outflows of resources related to pensions resulting from trust contributions subsequent to the measurement date and prior to year-end that will be recognized as a reduction of the net pension liability at June 30, 2018. Other amounts reported as deferred outflows of resources at June 30, 2018, related to pensions will be recognized in pension expense as follows:

2018	\$ (105,296)

Thereafter	(18,615)
	<u>\$ 26,269</u>

Actuarial Assumptions

The total pension liability in the December 31, 2016 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Investment rate of return	7.4%
Discount rate	7.4%
Projected salary increases	3.75% - 7.25%, including inflation
Postretirement benefit increases (maximum)	2.00%
Inflation	2.75%
Mortality	RP-2000 Healthy Life mortality table, adjusted for mortality improvements to 2010

The actuarial assumptions used in the December 31, 2016 valuation were based on the results of an actuarial experience study for the period covering January 1, 2008 through December 31, 2012. A report dated December 4, 2013 presented the results of the experience study.

Long-Term Expected Rate of Return

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. These best estimates and the ERS's target asset allocation are summarized in the following table:

Discount Rate

A single discount rate of 7.4% was used to measure the total pension liability. The single discount rate was based on the expected rate of return on pension plan investments of 7.4%. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between the actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Trust's Proportionate Share of the Net Pension Asset (Liability) to Changes in the Discount Rate

The net pension asset (liability) of the Trust has been calculated using a discount rate of 7.40%. The following presents the net pension asset (liability) using a discount rate 1% higher and 1% lower than the current rate.

	<u>1% Decrease (6.4%)</u>	<u>Current Discount Rate (7.4%)</u>	<u>1% Increase (8.4%)</u>

6. OTHER POSTEMPLOYMENT BENEFITS (OPEB)

For the year ended June 30, 2018, the Trust implemented the provisions of GASB 75, *Accounting and Financial Reporting by Employers for Post-Employment Benefits Other Than Pensions*.

Plan Description

The City provides postemployment health care benefits for retired employees and their dependents through the City of Oklahoma City Post-Retirement Medical Plan (OPEBT), a single-employer defined benefit health care plan. The benefits, coverage levels, employee contributions and employer contributions are governed by the City and can be amended by the City through its personnel manual and union contracts. OPEBT issues a separate report that can be obtained from the City's Human Resource Department at 420 W. Main, Suite 110, Oklahoma City, Oklahoma 73102.

Benefits Provided

The City provides postretirement health care benefits to its retirees. OPEBT covers all current retirees who elected postretirement medical coverage and future retired general employees.

The City provides subsidized medical benefits either through a fully-insured health plan or through a self-insured Group Indemnity Plan. Benefits include general inpatient and outpatient medical services and prescription drug coverage. General employees are eligible for membership in OPEBT if they retire from the City on or after age 60 with 15 years of service or at any age with 25 years of service if hired before January 1, 2017. General employees that were hired after January 1, 2017 are not eligible to receive premium sharing upon retirement. Coverage for dependents can continue upon the death of the retiree. Spouses of employees who die in active service while eligible for benefits can receive coverage.

Contributions

The City contributes 52% of the premium as a subsidy toward medical coverage of retirees and their dependents effective January 1, 2018 (previous calendar year was 54%). The retirees and their dependents are responsible for paying the remaining 48% of the premium, effective January 1, 2018 (previous calendar year was 46%). The City also intends to make additional contributions to the irrevocable trust that has been established for the funding of OPEBT's net OPEB liability.

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

The Trust's net OPEB liability of \$18,841,596 was measured as of June 30, 2017, and was determined by an actuarial valuation as of that date. The Trust's proportion of the collective OPEBT net OPEB liability is based on the ratio of the Trust's total employees relative to the total employees for the City as a whole.

For the year ended June 30, 2018, the Trust recognized OPEB expense of \$886,586. At June 30, 2018, the Trust reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the Plan as understood by the City and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the City and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets consistent with the long-term perspective of the calculations.

Long-Term Expected Rate of Return

The discount rate used to measure the total OPEB liability was 3.75%. Assets were projected using expected benefit payments and expected asset returns. Expected benefit payments by year were discounted using the expected asset return assumption for years in which the assets were sufficient to pay all benefit payments. Any remaining benefit payments after the net position is exhausted are discounted at the 20-year municipal bond rate. Based on those assumptions, the OPEB Plan's fiduciary net position was projected to not be available to make all projected future benefit payments of current plan members after 2018. Therefore, the 20-year municipal bond rate based on a range of indices from 3.13%-3.56% was applied to projected benefit payments after 2018 to determine the total OPEB liability. The discount rate increased from 3.18% on June 30, 2016 to 3.75% on June 30, 2017. These best estimates and the OPEB's target asset allocation are summarized in the following table:

	<u>Long-Term Expected Real Rate of Return</u>	<u>Target Allocation</u>

Change in Accounting Principle

The implementation of GASB 75 resulted in a \$14,389,297 increase to the total OPEB liability, a \$571,000 increase to deferred outflows of resources and a \$13,818,297 decrease to net position as of July 1, 2017.

7. LEASES

The Trust has various agreements whereby land is leased by the Trust from the City, the Society and the City of Nichols Hills. The Nichols Hills lease is a 25-year renewable operating lease at an expense of \$21,480 per year. This leased property is subleased under an operating lease to Global Gaming RP, LLC through December 31, 2023, with four renewal options for 10 years each through calendar year 2063. The trust received an advance rental of \$4,000,000 and incurred initial costs of \$557,249. The net amount less income earned to date is recorded as unearned lease revenue and is being amortized to income over the term of the lease period, including the renewal options.

In addition, the Trust is entitled to receive one-half of 1% of Global Gaming RP, LLC's total annual handle, as defined in the agreement, that exceeds \$187 million and 1% of the gross gaming revenues in excess of \$60 million each year. Contingent rental revenue earned during the years ended June 30, 2018 and 2017, approximated \$450,000 and \$350,000, respectively.

The Trust entered into an amended and restated lease and operating agreement dated as of June 19, 1990, whereby the City leased to the Trust its presently existing and hereafter

acquired zoo facilities until December 31, 2063, or to such later date as all bonds or any indebtedness of the Trust, secured by revenues of the Zoo, is paid or provisions for payment made.

On February 5, 2013, the Trust entered into a sublease agreement with 3Horse Productions, LLC (3Horse) in which 3Horse will lease and operate the Zoo Amphitheater through November 27, 2017, with a five-year optional extension. On December 20, 2017, the Trust renewed the agreement for an addition five-year extension. The contract stipulated that 3Horse invest \$100,000 in improvements to the Zoo Amphitheater before April 1, 2013. In addition, 3Horse will pay \$258,000 a year in rent, adjusted by the greater of \$3,000 or the Consumer Price Index rate annually, and \$1 per ticket sold for concerts held at the amphitheater.

The future minimum lease receipts and payments at June 30, 2018 were:

NOTES TO THE FINANCIAL STATEMENTS

8. RELATED-PARTY TRANSACTIONS

During the years ended June 30, 2018 and 2017, the Trust recorded payments from the City derived from sales tax receipts of \$13,899,229 and \$13,092,043, respectively.

The City leases to the Trust real and personal property of the Zoo at no cost to the Trust. This agreement gives the Trust the right to operate and realize the revenues of the Zoo. The City also leases to the Trust the main portion of the Remington Park Race Track site at no cost to the Trust.

The City provides certain services to the Trust. Charges for those services for the years ended June 30, 2018 and 2017, approximated \$835,000 and \$871,000, respectively, and include administrative, insurance, printing, postage and workers' compensation expenses.

The Society leases a small portion of the Remington Park Race Track site to the Trust for \$74,821 per year expiring in 2064. Also, for fiscal years 2018 and 2017, the Society provided zoo support and donated approximately \$2,308,000 and \$2,995,000, respectively, in Society membership dues, purchase of admission tickets, catering and other payments used to support zoo operations and activities. Of the amounts provided, the Trust recognized approximately \$1,808,000 and \$2,416,000 for fiscal years 2018 and 2017, respectively, as donations in the Trust's financial statements. As of June 30, 2018 and 2017, the Trust had a receivable from the Society of approximately \$692,000 and \$384,000, respectively.

9. RISK MANAGEMENT

The Zoo is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Zoo pays an insurance premium to the City for property loss and workers' compensation insurance coverage. Significant losses are covered by commercial insurance policies for all other programs except employee health, dental and life insurance. For insured programs, there have been no significant reductions in insurance coverage. Settlement amounts have not exceeded insurance coverage for the current year or the three prior years.

Substantially all of the Zoo's employees and their dependents are eligible to participate in the Zoo's employee health insurance plan, which includes dental and life insurance. The Zoo is self-insured for health claims of participating employees and dependents up to an annual amount of \$65,000 per individual. Commercial stop-loss insurance coverage is purchased for claims in excess of the annual amount. For fiscal year 2018 and 2017 self-insured health claims were \$533,518 and \$950,282, respectively. A provision is accrued for self-insured employee health claims, including both claims reported and claims incurred but not yet reported. The accrual is estimated based on consideration of prior claims experience, recently settled claims, frequency of claims and other economic and social factors. It is reasonably possible that the Zoo's estimate will change by a material amount in the near term.

Activity in the Zoo's accrued employee health claims liability, included in accounts payable on the accompanying statements of net position, during 2018 and 2017 is summarized as follows:

	2018	2017
Balance, beginning of year	\$ 60,970	\$ 135,023
Current year claims incurred and changes in estimates for claims incurred in prior years	543,645	876,229
Claims and expenses paid	(533,518)	(950,282)
Balance, end of year	\$ 71,097	\$ 60,970

10. SERVICE CONCESSION ARRANGEMENTS

During 2017 the Trust entered into an agreement with Lancer Hospitality Oklahoma, LLC (Lancer), under which Lancer has the exclusive right to provide food services, catering services and room rentals through January 5, 2024. The Trust has reported \$639,588 and \$418,949 in concession commissions through June 30, 2018 and 2017, respectively. Lancer will pay various commission percentages based on adjusted gross receipts to the Trust. Lancer has guaranteed minimum payments, related to the above commission percentages, over the course of the arrangement; the present value of these guaranteed payments is estimated to be \$4,346,209. Lancer is required to operate and maintain the facilities in accordance with the agreement. The Trust reports the facilities and related equipment as capital assets with a carrying value of \$2,767,725 at June 30, 2017.

During 2018 the Trust entered into an agreement with Lancer, under which Lancer has the exclusive right to provide retail services through January 31, 2024. Lancer will pay various commission percentages based on adjusted gross receipts to the Trust. The Trust has reported \$242,503 in merchandise commissions through June 30, 2018. Lancer has guaranteed minimum payments, related to the above commission percentages, over the course of the arrangement; the present value of these guaranteed payments is estimated to be \$2,929,549. Lancer is required to operate and maintain the facilities in accordance with the agreement.

The Trust reports a receivable and deferred inflow of resources in the amount of \$6,365,168 at year end pursuant to the service concession arrangements.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Board of Trustees
Oklahoma City Zoological Trust
Oklahoma City, Oklahoma

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the Oklahoma City Zoological Trust (Trust), a component unit of the City of Oklahoma City, Oklahoma (City), which comprise the statement of net position as of June 30 2018 and 2017, and the related statements of revenues, expenses and changes in net position and cash flows for the years then ended, and the related notes to the financial statements, and have issued our report thereon dated November 16, 2018.

Internal Control over Financial Reporting

In planning and performing our audits of the financial statements, we considered the Trust's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control. Accordingly, we do not express an opinion on the effectiveness of the Trust's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Trust's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audits we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Trust's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audits and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Trust's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Trust's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
