

JULY IS SMART IRRIGATION MONTH

Take the guesswork out of watering by installing a smart irrigation controller, soil moisture sensor, or rain/freeze sensor.

- **Soil moisture sensors** suspend watering events when soil moisture is sufficient for plant growth.
- **Smart controllers** automatically adjust your irrigation schedule based on the weather.
- **Rain/freeze sensors** temporarily shut off your irrigation system when it's raining or during freezing temperatures.

Visit SqueezeEveryDrop.com for more info on how to make the smart switch.

DRIP IRRIGATION WORKSHOP

MYRIAD
BOTANICAL
GARDENS

Saturday, August 3
10:00AM-Noon

MYRIAD GARDENS
GARDEN CLASSROOM
301 W. RENO

Squeeze
Every
Drop.com

Registration required by August 1 at
www.myriadgardens.org.
\$9 Member cost; \$14 Nonmember cost

Learn the essentials of drip irrigation during this hands-on class. Whether you plan to install it yourself or hire a professional, this class will boost your knowledge about design, functions, and benefits of a drip irrigation system for water conservation. Outdoor demonstrations will accompany classroom presentations.
