ong-	Term Issue - System Security and Data Integrity					
he inc	reasing number and sophistication of security threats to the City's informati	on technology s	systems, if not ad	ldressed, could resul	lt in:	
Los	ss of system integrity					
Los	ss of data confidentiality					
Dec	creased ability for the organization to provide services					
Fin	ancial instability					
Exp	posure of employees and citizens to identity theft					
Ero	osion of citizen confidence					
Lia	bility caused by data breach or interruption of service					
Stra	ategies to address the Long-Term Issue					
	The IT Department will utilize the Center for Internet Security CIS Critical Sec prioritize City security projects and operational efforts,	urity Controls fo	or Effective Cybe	r Defense (CIS Contr	ols - www.cisecui	ity.org) to
	Cyber security threats will be closely monitored in collaboration through acti msisac.cisecurity.org)	ve membership	in the MS-ISAC (	'Multi State Informa	ition Sharing & Al	nalysis Center
	The IT Department will continue to conduct periodic vulnerability and peneti projects.	ation assessme	nts and the resu	lts will drive the imp	lementation of n	ew security
	The IT Department will pro-actively conduct user security awareness training	, based on indu	stry best practice	25.

	FY17 Actual FY18 Actual FY19 Projection FY19 Target FY20	Target
	ong-Term Issue - Growing Demand for Technology	ranget
	the increasing backlog of projects and service requests for new and expanded technology, if not addressed, could result in:	
•	Excessive delay in technology projects which will impact City department strategies	
	Inability to implement new technology services in a timely manner	
	Increased security vulnerability risk	
	Customer dissatisfaction with overall technology capabilities and support	
	Increased decentralization of new technology selection, implementation and support:	
	<ul> <li>Decreased standardization of technology</li> </ul>	
	<ul> <li>Increased inefficiency in the organization</li> </ul>	
	Failure to comply with Federal and legal mandates	
	Underutilization of technology investments	
	Strategies to address the Long-Term Issue	
	The IT Department will conduct technology Strategic Alignment (SA) meetings biannually with customer department directors and stakeholders to validate organizational priorities and align new project investments with final direction from the City Manager and Assistant City Managers.	te
	The IT Department will continue to balance staff resource allocations to most effectively meet new technology initiatives which provide an increased effici and improved quality of service from customer departments to citizens, while still meeting support expectations for existing systems.	iency
	The IT Department will continue to use project prioritization criteria to ensure that projects required for legal mandates, to mitigate a security risk, or neco for City operations, efficiency, and quality of service to citizens are executed first.	ressary
