Oklahoma Statewide Unemployment Initial Claims

As of 11/12/2020

Source: U.S. Department of Labor

Initial Claims

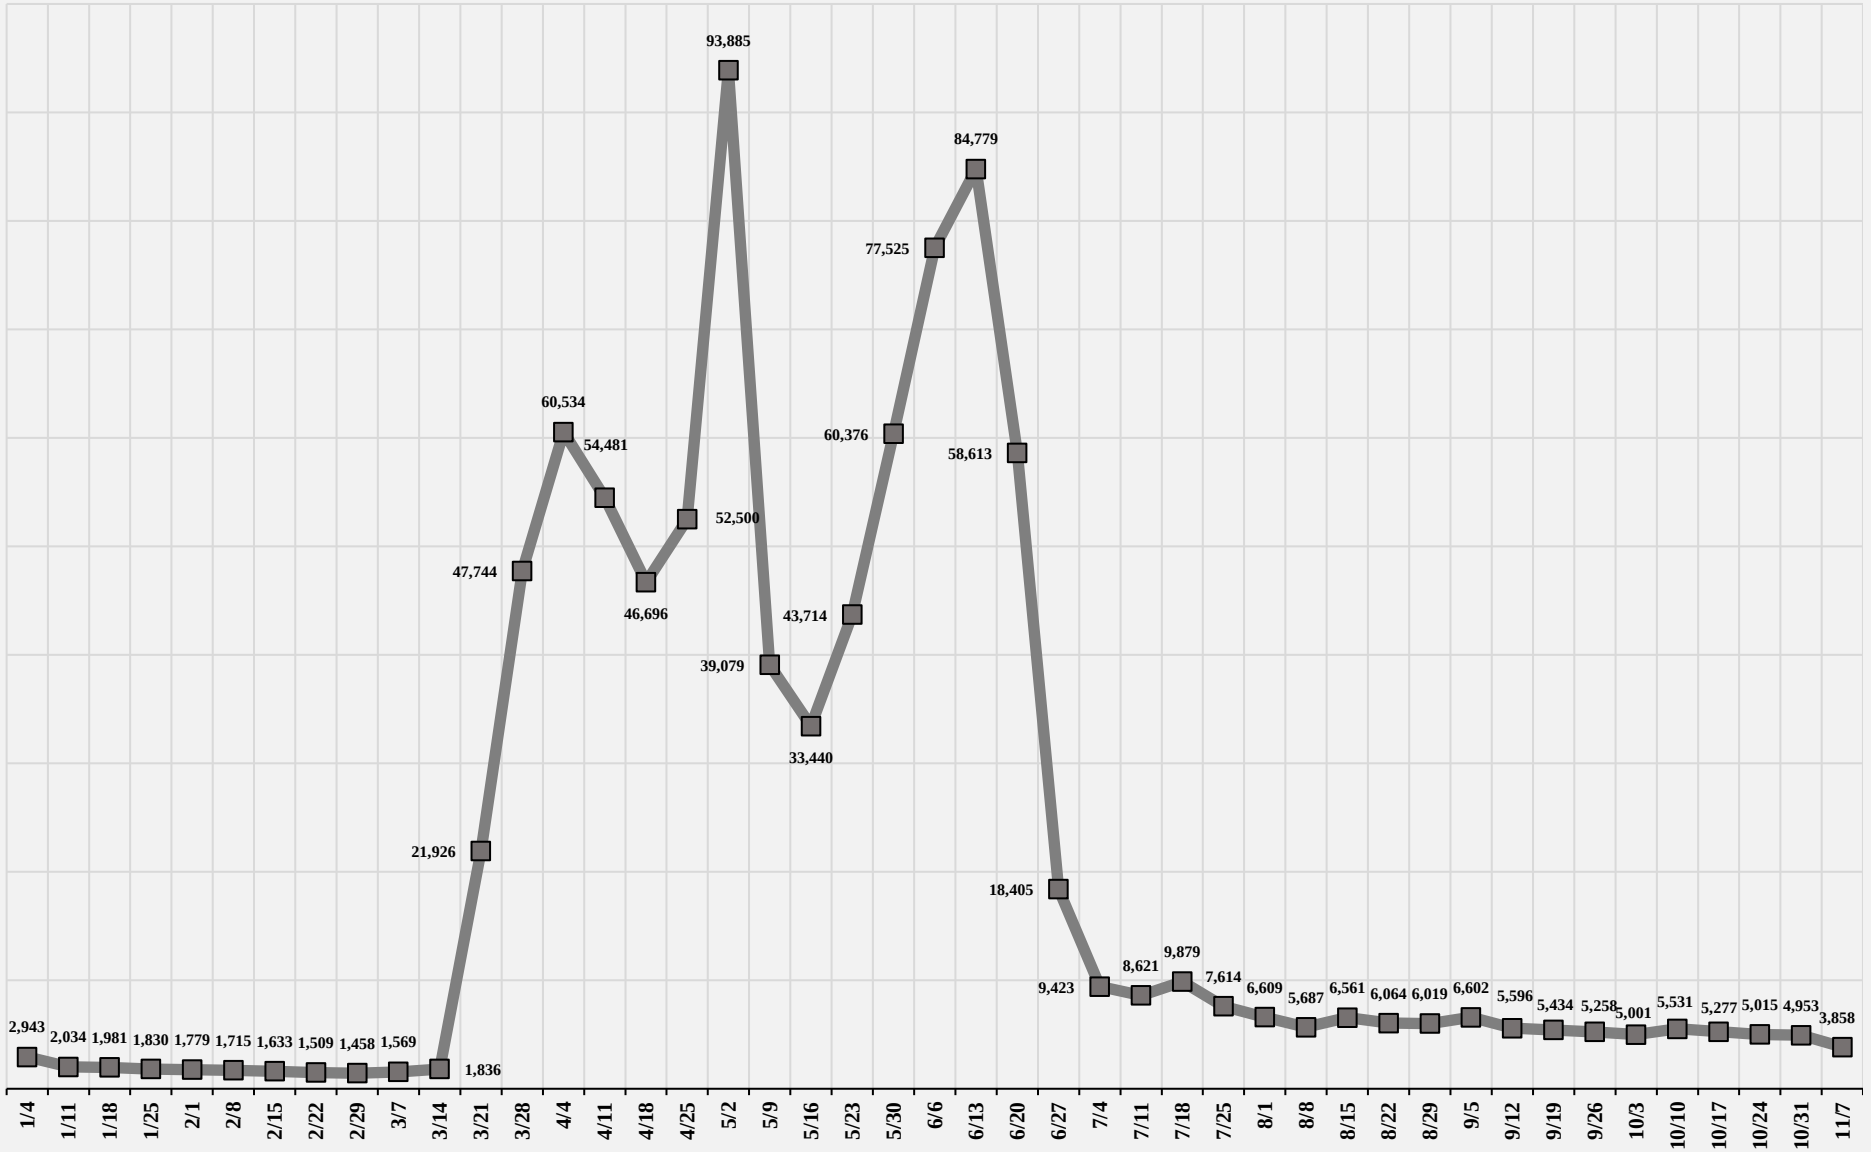
Unemployment claims are reported on a weekly basis every Thursday by the U.S. Department of Labor.

New data published 11/12/2020:

- *Reported 3,858 initial claims filed in Oklahoma during the week ending 11/7/2020*
- *Revised upwards by 698 claims filed during the week ending 10/31/2020*

*Each of these numbers represents the number of new unemployment claims filed in Oklahoma each week; they are **not** cumulative. When weekly data is released, prior week data is subject to revision by the U.S. Department of Labor.*

The data used here is not seasonally adjusted.



Note: Oklahoma's unemployment system has seen a large but still unclear quantity of fraudulent claims. The Oklahoma Employment Security Commission (OESC) and their benefits distribution contractor were reported to have "identified about 70,000 claims as being fraudulent." On Monday, June 22nd, the OESC interim director stated since March 1st, "about 64,000 claims," or about 10% of all claims statewide, were identified as potential fraud and stopped; prior stories reported "100,000 have been viewed as fraudulent" with "nearly 15,000 fictitious claims" linked to "a well-organized Nigerian fraud ring." The Oklahoma Employment Security Commission has set-up a website solely for the purpose of intaking reports of unemployment fraud.
