EXISTING CODE REFERENCE	NEW CODE REFERENCE	SUMMARY OF CHANGE
§ 3-99(4), Illumination-daytime	§ 59-16105.A.5.c., Daytime	Standard carried over as is. Added text to require applicant certification on light intensity.
§ 3-82 Definitions § 3-102 Accessory Signs regulated by zoning districts § 3-102(a)(6) Standards for agricultural, residential, and mobile home zoning districts § 3-102(b)(5) Standards for O-1, O-2, and C-1 zoning districts and Tract 4 of the NC district § 3-102(c)(7) Standards for commercial and industrial zoning districts (other than O-1, O-2, BC, and C-1) § 3-102(d)(4)f./§ 3-102(d)(6) Standards for BC Zoning District	§ 59-16105.B., Electronic Message Displays § 59-16105.B.1., Levels § 59-16105.B.2., Standards	EMD regulations have been collected from various sections in the existing Sign Code and assembled in one place. For the most part, the existing regulations appear to have been carried over as is. However, in some cases where EMD sign size had in the past been left to be determined by the respective design review authority, EMD sign size would now be regulated by the applicable Ground Sign, Attached Sign, or Billboard regulations.
§ 3-83(a)(11)	§ 59-16105.B.3., Controls	Carried over as is.
§ 3-83(a)(12)	§ 59-16105.B.4., Design Districts	Carried over as is.

§ 3-82 Definitions § 59-7150.1.C., Certificate of Approval Required (Bricktown) § 59-7200.1.C.5.(a)2., Projection Image Signs (Downtown) § 59-7350.5.A.(1)(b)5., Projection Image Signs (Stockyards City Development) § 59-13550.3.D.(8), Projection Image Signs (Stockyards Transitional) § 59-13700.5.F.(4), Projection Image Signs (Urban Design Overlay)	§ 59-16105.E., Projection Image Signs	Existing provisions from various districts all carried over as is.
	§ 59-16106 Sign Districts and Street Categories	
No reference to current Sign Code	§ 59-16106 Sign Districts and Street Typology	New standards devised and implemented with this update. This section introduces the concept of regulating signage through a combination (matrix) of zoning district groupings (Sign Districts) and Street Typology. This approach recognizes the intrinsic relationship between street function/speed/volume; land use districts; and maximum sign size, height, location, and spacing relative to other signs.
	§ 59-16107 Freestanding Signs	
§ 3-82 Definitions § 3-102 Accessory Signs regulated by zoning districts § 3-102(a)(2), (3), (4), and (5) Standards for agricultural, residential, and mobile	§ 59-16107 Freestanding Signs	In the current Sign Code, signage is regulated exclusively by zoning district. In each zoning district (or collection of zoning districts), standards for the size, number, height, and location of signs are listed by various sign types.

home zoning districts § 3-102(b)(3)a., b., and c. Standards for O-1, O-2, and C-1 zoning districts and Tract 4 of the NC district § 3-102(c)(2), (4), and (5) Standards for commercial and industrial zoning districts (other than O-1, O-2, BC, and C-1) § 3-102(d)(1)a. Standards for BC Zoning District		<p>In the proposed Sign Code, sign regulations are instead grouped by the type of sign (in this case freestanding signs) with the allowable number of signs, maximum sign area, height, location, and design characteristics for this sign type all listed together in one place. This will make the Sign Code easier to use and navigate.</p> <p>The most significant change relative to freestanding signs is that the proposed code would eliminate pole signs in favor of monument style ground signs. Another focus of the changes in this section is to reduce the size and number of signs and to mitigate sign clutter.</p>
	§ 59-16108., Attached Signs	
No reference to current Sign Code	§ 59-16108.A.1, Generally	New provisions generally stipulating the types of signs that can be attached to buildings.
§ 3-102.(a)(2)	§ 59-16108.A.2, Multiple-Family Residential	Carried over as is.
No reference to current Sign Code	§ 59-16108.A.3, Building Code	New provision addressing conflicts between the Sign Code and the Building Code

§ 3-82 Definitions § 3-101 Specific accessory sign standards	§ 59-16108.C. Canopy / Awning / Over or Under Canopy / Marquee Signs	Existing regulations for these types of signs are stated in a narrative paragraph form. The proposed Sign Code consolidates these regulations in a tabular format
No reference to current Sign Code	§ 59-16108.C.2 Detached Canopy Signs	These are new standards proposed to address a class of signage that had not been specifically regulated under the current Sign Code.
§ 3-82 Definitions § 3-102.(d)(8), Temporary Signs § 59-7200.1.F.(6)(c), Temporary Signs	§ 59-16108.D Supergraphics	The regulations pertaining to Supergraphic signs are located in several different areas in the current Sign Code. In the proposed Sign Code, these regulations are brought together into one location and largely carried over as is.
§ 3-82 Definitions	§ 59-16108.E. Murals	In a departure from past practice, the proposed code would address and process murals as signs. The proposed Sign Code establishes a new sign permit process for murals. In addition, other miscellaneous changes are being made to ensure that murals are processed administratively in the various design districts.
§ 3-82 Definitions § 3-101. Specific accessory sign standards § 3-102 Accessory Signs regulated by	§ 59-16108.F. Projecting Signs	In the current Sign Code, signage is regulated exclusively by zoning district. In each zoning district (or collection of zoning districts), standards for the size, number, height, and location of signs are listed by various sign types.

EXISTING CODE REFERENCE	NEW CODE REFERENCE	SUMMARY OF CHANGE
<p>§ 3-102(e) Standards for attached signs on buildings in excess of 250 feet in height regardless of zoning district</p>	<p>§ 59-16108.H. Skyline Signs</p>	<p>No definition for “Skyline Sign” appears in the current code but in the proposed draft code, there is a definition for “Skyline Sign”.</p> <p>Though not referred to specifically as “skyline signs” in the text of the current code, the current regulations that apply to this type of sign (an attached sign on buildings taller than 250 feet) in § 3-102(e) are carried over essentially as is.</p>
<p>§ 3-82 Definitions § 3-102(d)(4)a.3. Standards for BC Zoning (Regulation) § 59-7200.1.G.(3)(c) Ground Floor Façade (Guideline)</p>	<p>§ 59-16108.I. Window Signs</p>	<p>In the current Sign Code, one district (Bricktown) has a regulation that limit window signs to 25% of the glazed area at the first floor. Bricktown also prohibits window signage above the first floor. Another district (Downtown) has a guideline that limits window signs to 20% of the total transparent area at street level.</p> <p>In the proposed Sign Code, the window sign limitation becomes 25% across the board in all districts.</p>
	<p>§ 59-16109 Miscellaneous Signs</p>	
<p>§ 3-82 Definitions § 3-100(8) Temporary Balloon Signs § 3-102(c)(2)b. Standards for commercial and industrial zoning districts (other than O-1, O-2, BC, and C-1)</p>	<p>§ 59-16109.A. Balloon Signs</p>	<p>Section 59-16109.A.1.b. and Section 59-16109.A.2. are carried over as is from current Sign Code. The remainder of this section are all new regulations for balloon signs that are not contained in the current Sign Code.</p>
<p>§ 3-82 Definitions (“Flag” is referenced as a “Banner” in the definitions section of the current Sign Code) § 3-83(a)(9), General prohibitions</p>	<p>§ 59-16109.B. Flags</p>	<p>The current Sign Code limits the types of flags that can be flown to flags and emblems of the United States, the state, and municipal and other bodies of established government, or flags which display the recognized symbol of a nonprofit and/or noncommercial organization.</p>

From Chapter 3 Article V to Chapter 59 Article XVI
per 11-06-20 draft

EXISTING CODE REFERENCE	NEW CODE REFERENCE	SUMMARY OF CHANGE
§ 3-83(e)(2), Insignias and flags.		The proposed Sign Code establishes new regulations specific to the placement, pole height, flag size, and number of flags per lot. In the spirit of being content neutral, the restrictions on what type of flags that can be flown have been eliminated.
§ 3-83(b) Signs on Vehicles	§ 59-16109.C. Vehicle Signs	Carried over as is from § 3-83(b), excepting § 3-83(b)(2) since it does not reference signage.
	§ 59-16110 Incidental Signs	
No reference to current Sign Code	§ 59-16110 Incidental Signs	Incidental Signs is a classification of signs established in the proposed Sign Code as a collective term for a group of similar types of signs like temporary subdivision signs, real estate signs, and on-site directional or informational signs.
§ 3-100(3) Subdivision sign	§ 59-16110.B. Temporary Subdivision Signs	Between the text in Sections 59-16110.B.1. and B.2. and the information contained in Table 59-16110.2, these regulations were carried over as is.
	§ 59-16111 Billboards	
§ 3-119.(1), General standards	§ 59-16111.A.1., Where permitted	Carried over as is, except C-CBD, C-HC and C-3 are eliminated as allowable districts for Billboards. Also, the provision that allowed billboards as a landmark roof sign, local directional sign, or off-site directional sign for public or private parking lots in the BC District is eliminated in the proposed Sign Code.
§ 3-83(a)(3), General prohibitions	§ 59-16111.A.2., Street Prohibitions	Carried over as is.
No reference to current Sign Code	§ 59-16111.A.3., Freeway Location	This is a new provision of the proposed Sign Code restricting billboards

		to freeway adjacent locations.
No reference to current Sign Code	§ 59-16111.A.4., Conditional Use Standards	This establishes standards for minimum lot sizes in the C-3 and I-1 districts to allow billboards and restricting billboards in the DBD district to the freestanding sign standards of the C district, adapted from Section 9350.59 (59-8300.66) (Signs: Non-Accessory), Oklahoma City Municipal Code.
§ 3-119.(2), Sign Size	§ 59-16111.B., Sign Size	Carried over as is, except reference to nonaccessory signs in the C-3 District was eliminated.
§ 3-119.(3), Height	§ 59-16111.C., Height	Carried over as is.
§ 3-119.(4), Location	§ 59-16111.D., Location	Carried over as is.
§ 3-119.(5), Spacing	§ 59-16111.E., Spacing Between Billboards	<p>Spacing requirement has been increased from 750 feet, or 1,200-foot separation requirement for signs displayed to be read from a divided, limited access roadway with four or more traffic lanes, to 1,500 feet in the proposed Sign Code.</p> <p>The spacing requirement is no longer limited to nonaccessory signs facing in the same direction, and now apply to billboards in any direction.</p>
§ 3-119.(5)d., Spacing	No reference to the proposed Sign Code	The current Sign Code specifies a 300-foot separation requirement from the HL or HP districts. The proposed Sign Code deletes the separation requirements for the HL and HP districts.
§ 3-119.(6), Spacing from Residential Property	§ 59-16111.F., Spacing From Districts or Uses	Carried over as is, except that the requirement for a 150-foot separation from Single-Family or Two-Family residential buildings has been eliminated.
