

**MC-0676, On-Call Engineer to Serve the
Oklahoma City Riverfront Redevelopment Authority (OCRRA)**

**Questions and Answers
January 27, 2021**

Will this contract include civil engineering as well as architectural engineering projects?

- Yes, more work related to civil but there's a chance architectural could be necessary

Is it acceptable to submit qualifications based on our company's specific discipline experience?

- Yes

Is there bridge and/or roadway work involved in this contract?

- It's possible that a project could include these items

Do we anticipate public involvement since there is Riverfront Development?

- Maybe depending on the project

Are there 3D visualization needs?

- Don't typically ask for this type of service but there is a possibility depending on the project

Was there an agenda or meeting regarding this project? Can you give more details on the needs of the projects and what type of work will be involved?

- There is no meeting or agenda for this on-call contract. This is a professional engineering services contract. This contract employs an engineer and, whenever necessary, as the "on-call engineer" for the OCRRA and as determined by the City/Trust that design work is necessary, the firm is engaged for the purpose of preparing such preliminary and detailed studies and designs as may be required for the planning, development, operation, and maintenance related to the Oklahoma River Corridor. At the option of the OCRRA and it's the intent of the OCRRA to consider renewing this contract annually for a total period of three years from the date of the execution of the original contract. The City/Trust does not guarantee design services will be utilized during the term of the contract.

Not having any specific project to focus on, may we get some guidance please on how to respond to "provide your understanding of the project"? Please explain further what you are looking for in that part of our LOI.

- Explain your approach for on-call contracts, how you manage the contract, engineering experience, the staff assigned and their qualifications, include examples of projects of \$1M or less

To help prepare our Letter of Interest, do you know what specific projects will be included in this on-call contract? Or what types of projects?

- Projects are initiated as needed by the City/Trust. At the present time, there are no specific projects scheduled for design services.
