Long-Term Issue - Condition of Streets

Increasing difficulty to address resident expectations of the quality of city streets, if not addressed with additional maintenance and reconstruction, will result in further dissatisfaction and lack of resident confidence.

Strategies to address the Long-Term Issue

- Continue to provide efficient management that combines routine maintenance, street resurfacing, and new construction to improve overall condition of city streets.
- Continue unit price contracts for resurfacing and base repair for efficient delivery of projects.
- Identify and secure a dedicated funding source for the maintenance of street infrastructure.

Strategic Result(s) to measure annual progress on Long-Term Issue

Annually, the Public Works Department will improve the timeliness of infrastructure repairs, as follows:

- Complete 80% of pothole repairs within 3 business days.
- Complete 80% of permanent utility cut repairs within 10 business days of receipt from line maintenance.

1063	% of arterial pothole repairs completed within 3 calendar days of work order issued	N/A	N/A	N/A	50%	N/A
1064	% of residential pothole repairs completed within 5 calendar days of work order issued	N/A	N/A	N/A	1	0
1065	% of utility cut repairs completed within 14 calander days of receipt from line maintenance	54%	39%	36%	91%	91%

Strategic Result(s) to measure annual progress on Long-Term Issue

Annually, the Public Works Department will:

- Complete 77 miles of resurfacing and widening
- Expend \$46 million for resurfacing and widening projects
- 80% of arterial street resurfacing projects will be completed within 4 weeks

1066	# of miles resurfaced and widened annually	110.62	131.21	N/A	72.00	72.00

FY19 Actual FY20 Actual FY21 Projection

Long-Term Issue - Capital Project Delivery

The increasing number of projects and continuing priority to expedite project construction if not addressed will result in failure to deliver projects on time and on budget.

Strategies to address the Long-Term Issue

- Develop and maintain categorized budget worksheets, for sales tax and future bond projects to ensure delivery within available funds.
- Ensure consistent delivery and construction of projects using increased consulting services to supplement city project management staff.
- Utilize work order contracting on street resurfacing projects to reduce the number of total bids and expedite construction.
- Limit construction contract revisions through improved plan reviews, successful management of change orders and amendments, and expediting final acceptance of completed projects.

Strategic Result(s) to measure annual progress on Long-Term Issue

By April 2021, all listed 2007 bond issue projects will be completed or under construction.

Long-Term Issue - Condition of Drainage Infrastructure

Recent increases in the number of severe storm events coupled with limited resources to provide maintenance and new drainage construction, if not addressed, will result in a higher number of flooded structures, property damage, and citizen complaints.

Strategies to address the Long-Term Issue

- Continue to provide a drainage program that combines inlet maintenance, rural road drainage maintenance, unimproved channel maintenance, and improved channel maintenance to the overall condition of city drainage infrastructure.
- Develop new City basin drainage studies to better monitor the effects of urbanized development on the City's drainage systems to prioritize projects and address citizen complaints.
- Complete an improved and updated Drainage Criteria Manual, to guide drainage design consultants on City standards and procedures.
- Revise the Drainage Ordinance to increase requirements and standards for newly constructed drainage infrastructure.
- Provide necessary staff, crews, and project resources to expedite response to drainage concerns.
- Improve Community Rating System to further lower flood insurance rates to residents.

Strategic Result(s) to measure annual progress on Long-Term Issue

The Public Works Department will:

- By 2020, Complete 90% of drainage repairs within 30 calendar days
- Achieve a FEMA community rating system of 6 by 2020.
- 50% of the City's drainage basin studies will be completed by 2023.

1081	% of drainage repairs completed within 30 calendar days	85%	48%	62%	90%	90%
1082	FEMA Community Rating ¹	8	8	8	6	6
1083	% of the City's drainage basin studies completed	0%	0%	0%	8%	8%

The Community Rating System (CRS) is a voluntary system used by the Federal Emergency Management System (FEMA) that recognizes and encourages community floodplain management activities that exceed minimum National Flood Insurance Program (NFIP) standards. CRS participation allows for discounts on flood insurance premiums ranging from 5% to 45%. Depending upon the level of activity, communities are assigned to one of ten classes, with Class 1 offering to highest discount for policy holders.

Long-Term Issue - Inspection Services

An increasing number of projects in the right of way from both the development community and public investment, if not addressed, will result in increased traffic impact.

Strategies to address the Long-Term Issue

• Increase the timeliness of scheduled inspections to ensure contractor compliance and expedite construction. Establish a staffing level to allow for proactive work zone inspections to reduce the number of days roadways are closed.

Strategic Result(s) to measure annual progress on Long-Term Issue
