2014 DirectionFinder® Survey

Executive Summary Report

Overview and Methodology

During the summer of 2014, ETC Institute administered its eighth *DirectionFinder*® survey on behalf of the City of Oklahoma City. The previous *DirectionFinder*® surveys were conducted in 2005, 2007, 2008, 2009, 2011, 2012 and 2013. The purpose of the survey was to assess citizen satisfaction with the delivery of major city services and to help determine priorities for the community as part of the City's ongoing planning process.

The six-page survey was mailed to a random sample of 3,000 households in the City of Oklahoma City. Approximately seven days after the surveys were mailed, residents who received the survey were contacted by phone. Those who indicated that they had not returned the survey were given the option of completing it by phone. A total of 1,201 households completed the survey. The results for the random sample of 1,201 households have a 95% level of confidence with a precision of at least +/- 2.8%. In order to better understand how well services are being delivered by the City, ETC Institute geocoded the home address of respondents to the survey. The map below shows the physical distribution of survey respondents based on the location of their home.

The percentage of “don’t know” responses has been excluded from many of the graphs shown in this report to facilitate valid comparisons of the results from Oklahoma City with the results from other communities in ETC Institute’s *DirectionFinder*® database. Since the number of “don’t know” responses often reflects the utilization and awareness of city services, the percentage of “don’t know” responses has been provided in the tabular data section of this report. When the “don’t know” responses have been excluded, the text of this report will indicate that the responses have been excluded with the phrase “who had an opinion.”

This summary report contains:

- a summary of the methodology for administering the survey and major findings
- charts showing the overall results for most questions on the survey
- benchmarking data that shows how the results for Oklahoma City compare to other cities
- importance-satisfaction analysis
- GIS maps that show the results of selected questions
- tabular data that show the results for each question on the survey
- a copy of the survey instrument

Trends

Satisfaction ratings improved or stayed the same in 45 of the 66 City services that were rated in 2013 and 2014 and decreased in 21 areas. The 15 areas that showed **significant increases** (increases of 3% or more) in satisfaction or positive ratings from 2013 to 2014 are listed below:

- Curbside recycling services (+5%)
- Bulky item pick up/removal services (+10%)
- Speed of service (utility) (+3%)
- Quality of customer service (utility) (+3%)
- Enforcing clean-up of debris on private property (+4%)
- Enforcing the mowing of grass/weeds on private property (+4%)
- Enforcing exterior upkeep of residential property (+5%)
- Enforcing sign regulations (+3%)
- Enforcing neighborhood yard parking regulations (+3%)
- City efforts to remove inoperable vehicles (+3%)
- Maintenance of City parks (+6%)
- Availability of City recreation centers (+4%)
- Availability of information about Parks and Recreation programs (+4%)
- Services and information provided by the City’s Action Center (+4%)
- Oklahoma City as a place to visit (+3%)

The 11 areas that showed **significant decreases** (decreases of 3% or more) in satisfaction or positive ratings from 2013 to 2014 are listed below:

- Condition of City streets (-5%)
- Quality of City water utilities (-3%)
- Effectiveness of City communication with the public (-3%)
- Appearance of the City (-3%)
- Image of the City (-4%)
- Feeling of safety in the City (-7%)
- Snow removal on major City streets (-8%)
- Oklahoma City as a place to live (-4%)
- Oklahoma City as a place to raise children (-4%)
- Oklahoma City as a place to work (-4%)
- Oklahoma City as a city that is moving in the right direction (-3%)

Major Findings

- **Overall Satisfaction with City Services.** Sixty-six percent (66%) of the residents surveyed, who had an opinion, were satisfied with the overall quality of services provided by the City. This was 18% higher than the national average for large cities in the U.S. (66% Oklahoma City versus 48% Large U.S. City Average).
- **Ratings of Oklahoma City as a Place to Live, Work and Raise Children.** Most of the residents surveyed, who had an opinion, rated the City of Oklahoma as an “excellent” or “good” place to live (84%), work (78%) and raise children (77%). Ratings for all of these items were significantly above the national average for large U.S. cities: ratings of the City as place to live was 10% above the national average for large U.S. cities (84% Oklahoma City versus 74% Large U.S. City Average), ratings of the City as a place to work was 5% above the national average for large U.S. cities (78% Oklahoma City versus 73% Large U.S. City Average), and ratings of the City as a place to raise children was 8% above the national average for large U.S. cities (77% Oklahoma City versus 69% Large U.S. City Average).
- **Satisfaction with the Image of Oklahoma City.** Sixty-seven percent (67%) of the residents surveyed, who had an opinion, were satisfied with the image of the City. This was 4% higher than the national average for large cities in the U.S. (67% Oklahoma City versus 63% Large U.S. City Average).
- **Satisfaction with How Well the City is Planning Growth.** Sixty-six percent (66%) of the residents surveyed, who had an opinion, were satisfied with how well the City is planning growth. This was 28% higher than the national average for large cities in the U.S. (66% Oklahoma City versus 38% Large U.S. City Average).

- **Satisfaction with Major Categories of City Services.** Most of the residents surveyed, who had an opinion, were satisfied with the quality of fire service (91%), quality of ambulance service (82%), and the quality of police services (69%). Residents were least satisfied with the condition of City streets (14%). The major City service that residents thought was most important for the City to emphasize over the next two years was the condition of City streets. Residents also felt the quality of police service and the flow of traffic/ease of getting around town were important for the City to emphasize over the next two years.
- **Utility Services.** The highest levels of satisfaction with City utility services, based on the combined percentage of “very satisfied” and “satisfied” responses among residents who had an opinion, were: residential trash collection services (89%), bulk item pick-up/removal services (86%), and water service (83%). Residents were least satisfied with the speed of services, such as repairs and starting of service (69%).
- **Codes and Ordinances.** The highest levels of satisfaction with the enforcement of City codes and ordinances, based on the combined percentage of “very satisfied” and “satisfied” responses among residents who had an opinion, were: the enforcement of yard parking regulations in neighborhoods (54%) and the enforcement of sign regulations (51%).
- **Maintenance.** The maintenance services with the highest levels of satisfaction, based on the combined percentage of “very satisfied” and “satisfied” responses among residents who had an opinion, were: condition of street signs (67%), snow removal on major City streets during the past 2 years (59%) and condition of landscaping/streetscaping in medians and along City streets (55%). Residents were least satisfied with the condition of major City streets (32%).
- **Parks and Recreation.** The parks and recreation services with the highest levels of satisfaction, based on the combined percentage of “very satisfied” and “satisfied” responses among residents who had an opinion, were: the maintenance of City parks (71%), location of City parks (66%), recreation opportunities along the Oklahoma River (65%) and City golf courses (61%).
- **Communication.** The City communication services with the highest levels of satisfaction, based on the combined percentage of “very satisfied” and “satisfied” responses among residents who had an opinion, were: the information in the water bill newsletter (75%) and the City’s website as a source of information (61%).

The sources of information residents used most to get information about the City were: the Water bill newsletter (65%), television news (62%), local newspapers (42%) and the City website (31%). Residents were also asked to indicate the areas they would like the City to provide more information; the top areas selected by residents were: festivals/events (54%), parks programs (48%) and street projects (47%).

- **Other Findings.** Some of the other major findings from the survey are provided below:
 - Thirty-one percent (31%) of the residents surveyed indicated they are either “very satisfied” or “satisfied” with the convenience of public transportation in Oklahoma City; this is an increase of 4% from 2013.
 - Twenty-six percent (26%) of the residents surveyed indicated that stray dogs are a problem in their neighborhood at least once a week; 29% responded that stray cats are a problem at least once a week.
 - More than one-third (36%) of the residents surveyed indicated they participate in physical activities or exercises such as running, golfing, gardening, etc. four times per week or more; 30% participate in physical activities or exercises one to three times per week.

Section 2: Benchmarking Data

DirectionFinder® Survey

Year 2014 Benchmarking Summary Report

Overview

ETC Institute's *DirectionFinder*® program was originally developed in 1999 to help community leaders use statistically valid community survey data as a tool for making better decisions. Since November 1999, the survey has been administered in nearly 210 cities and counties in 43 states. Most participating communities conduct the survey on an annual or biennial basis.

This report contains benchmarking data from two sources: (1) a national survey that was administered by ETC Institute during July 2013 to a random sample of residents in the continental United States living in cities with a population of 250,000 or more and (2) survey results from 30 large communities (population of 250,000 or more) where the *DirectionFinder*® survey was administered between May 2010 and July 2014. The national survey results were used as the basis for the average performance ratings that are shown in this report. The results from individual cities were used as the basis for developing the range of performance and head-to-head comparisons. The communities included in the performance comparisons that are shown in this report are listed below:

- Arlington County, VA
- Arlington, TX
- Austin, TX
- Dallas, TX
- Denver, CO
- Des Moines, IA
- Detroit, MI
- Durham, NC
- Fort Lauderdale, FL
- Fort Worth, TX
- Henderson, NV
- Houston, TX
- Indianapolis, IN
- Johnson County, KS
- Kansas City, MO
- Miami-Dade County, FL
- Minneapolis, MN
- Oklahoma City, OK
- Plano, Texas
- Providence, RI
- San Antonio, TX
- San Bernardino County, CA
- San Diego, CA
- Seattle, WA
- St. Louis, MO
- Tempe, AZ
- Tulsa, OK
- Tucson, AZ
- Wichita, KS
- Yuma County, AZ

There are three sets of charts in this report:

- The **first set** shows the results for the City of Oklahoma City compare to the national average for residents who live in cities with more than 250,000 residents.
- The **second set** shows head-to-head comparisons to other large cities in the central United States.
- The **third set** shows how the City of Oklahoma City compares to a range of performance in several specific areas. The mean rating on the third type of charts is shown as a vertical line. The actual ratings for Oklahoma City are listed to the right of each chart. The dot on each bar shows how the results for Oklahoma City compare to the other communities where the *DirectionFinder*[®] survey has been administered.

Significantly Above Average. There were 11 areas in which Oklahoma City rated significantly above the national average (more than 5% above the national average). These areas are listed below:

- How well the City is planning growth (+28%)
- Customer service received from City employees (+25%)
- Overall quality of City services provided (+18%)
- Communication with the public (+14%)
- Oklahoma City as a place to live (+10%)
- Water service (+13%)
- As a place to raise children (+8%)
- As a place to retire (+13%)
- Bulky item pick up/removal services (+21%)
- Flow of traffic and ease of getting around town (+7%)
- Residential trash collection services (+7%)

Significantly Below Average. There were 6 areas in which Oklahoma City rated significantly below the national average (more than 5% below the national average). Those areas are listed below:

- Condition of City streets (-21%)
- Condition of major City streets (-15%)
- Outdoor athletic facilities (-14%)
- Parks and recreation programs and facilities (-8%)
- Cleanliness of City streets and other public areas (-7%)
- Aquatic facilities/programs: swimming pools, spraygrounds and aquatic programs (-8%)

National Benchmarks

Comparison to a Range of Performance

Section 3:
Importance-Satisfaction Analysis

Importance-Satisfaction Analysis Oklahoma City, Oklahoma

Overview

Today, city officials have limited resources which need to be targeted to activities that are of the most benefit to their citizens. Two of the most important criteria for decision making are (1) to target resources toward services of the highest importance to citizens; and (2) to target resources toward those services where citizens are the least satisfied.

The Importance-Satisfaction (IS) rating is a unique tool that allows public officials to better understand both of these highly important decision making criteria for each of the services they are providing. The Importance-Satisfaction rating is based on the concept that cities will maximize overall citizen satisfaction by emphasizing improvements in those service categories where the level of satisfaction is relatively low and the perceived importance of the service is relatively high.

Methodology

The rating is calculated by summing the percentage of responses for items selected as the first, second, and third most important services for the City to emphasize over the next two years. This sum is then multiplied by 1 minus the percentage of respondents that indicated they were positively satisfied with the City's performance in the related area (the sum of the ratings of 4 and 5 on a 5-point scale excluding "don't know" responses). "Don't know" responses are excluded from the calculation to ensure that the satisfaction ratings among service categories are comparable. $[IS=Importance \times (1-Satisfaction)]$.

Example of the Calculation. Respondents were asked to identify the major categories of city services they thought should receive the most emphasis from City leaders over the next two years. Approximately seventy-two percent (71.7%) ranked the "condition of City streets" as the most important service to emphasize over the next two years.

With regard to satisfaction, the “condition of City streets” was ranked eleventh overall, with 13.7% rating the “condition of City streets” as a “4” or a “5” on a 5-point scale excluding “don't know” responses. The I-S rating for the “Condition of City Streets” was calculated by multiplying the sum of the most important percentages by 1 minus the sum of the satisfaction percentages. In this example, 71.7% was multiplied by 86.3% (1-0.137). This calculation yielded an I-S rating of 0.6188, which was ranked first out of eleven major service categories.

The maximum rating is 1.00 and would be achieved when 100% of the respondents select an item as one of their top three choices to emphasize over the next two years and 0% indicate that they are positively satisfied with the delivery of the service.

The lowest rating is 0.00 and could be achieved under either one of the following two situations:

- if 100% of the respondents were positively satisfied with the delivery of the service
- if none (0%) of the respondents selected the service as one of the three most important areas for the City to emphasize over the next two years.

Interpreting the Ratings

Ratings that are greater than or equal to 0.20 identify areas that should receive significantly more emphasis over the next two years. Ratings from .10 to .20 identify service areas that should receive increased emphasis. Ratings less than .10 should continue to receive the current level of emphasis.

- Definitely Increase Emphasis ($IS \geq 0.20$)
- Increase Current Emphasis ($0.10 \leq IS < 0.20$)
- Maintain Current Emphasis ($IS < 0.10$)

The results for Oklahoma City are provided on the following pages.

Importance-Satisfaction Rating Oklahoma City - 2014 Overall

Category of Service	Most Important %	Most Important Rank	Satisfaction %	Satisfaction Rank	Importance-Satisfaction Rating	I-S Rating Rank
<u>Very High Priority (IS > .20)</u>						
Condition of City streets	72%	1	14%	11	0.6188	1
<u>High Priority (IS .10-.20)</u>						
Flow of traffic and the ease of getting around town	30%	3	46%	8	0.1642	2
Quality of the City's public transit system	23%	4	30%	10	0.1638	3
Quality of police service	32%	2	69%	3	0.1005	4
<u>Medium Priority (IS < .10)</u>						
Enforcement of City codes and ordinances	18%	6	46%	9	0.0956	5
Quality of parks/recreation programs/facilities	19%	5	59%	6	0.0797	6
Effectiveness of City communication with the public	10%	8	52%	7	0.0502	7
Quality of City water utilities	12%	7	66%	5	0.0398	8
Quality of customer service you receive from City employees	5%	10	66%	4	0.0183	9
Quality of ambulance service	5%	11	82%	2	0.0092	10
Quality of fire service	9%	9	90%	1	0.0084	11

Note: The I-S Rating is calculated by multiplying the "Most Important" % by (1-"Satisfaction" %)

Most Important %:

The "Most Important" percentage represents the sum of the first, second, and third most important responses for each item. Respondents were asked to identify the items they thought should receive the most emphasis over the next two years.

Satisfaction %:

The "Satisfaction" percentage represents the sum of the ratings "4" and "5" excluding 'don't knows.' Respondents ranked their level of satisfaction with the each of the items on a scale of 1 to 5 with "5" being very satisfied and "1" being very dissatisfied.

Recreation opportunities along the Oklahoma River	11%	9	65%	3	0.0389	10
City golf courses	3%	11	60%	4	0.0128	11

Note: The I-S Rating is calculated by multiplying the "Most Important" % by (1-'Satisfaction' %)

Most Important %:

The "Most Important" percentage represents the sum of the first, second, and third most important responses for each item. Respondents were asked to identify the items they thought should receive the most emphasis over the next two years.

Satisfaction %:

The "Satisfaction" percentage represents the sum of the ratings "4" and "5" excluding 'don't knows.' Respondents ranked their level of satisfaction with the each of the items on a scale of 1 to 5 with "5" being very satisfied and "1" being very dissatisfied.

Importance-Satisfaction Matrix Analysis

The Importance-Satisfaction rating is based on the concept that public agencies will maximize overall customer satisfaction by emphasizing improvements in those areas where the level of satisfaction is relatively low and the perceived importance of the service is relatively high. ETC Institute developed an Importance-Satisfaction Matrix to display the perceived importance of major services that were assessed on the survey against the perceived quality of service delivery. The two axes on the matrix represent Satisfaction (vertical) and relative Importance (horizontal).

The I-S (Importance-Satisfaction) matrix should be interpreted as follows.

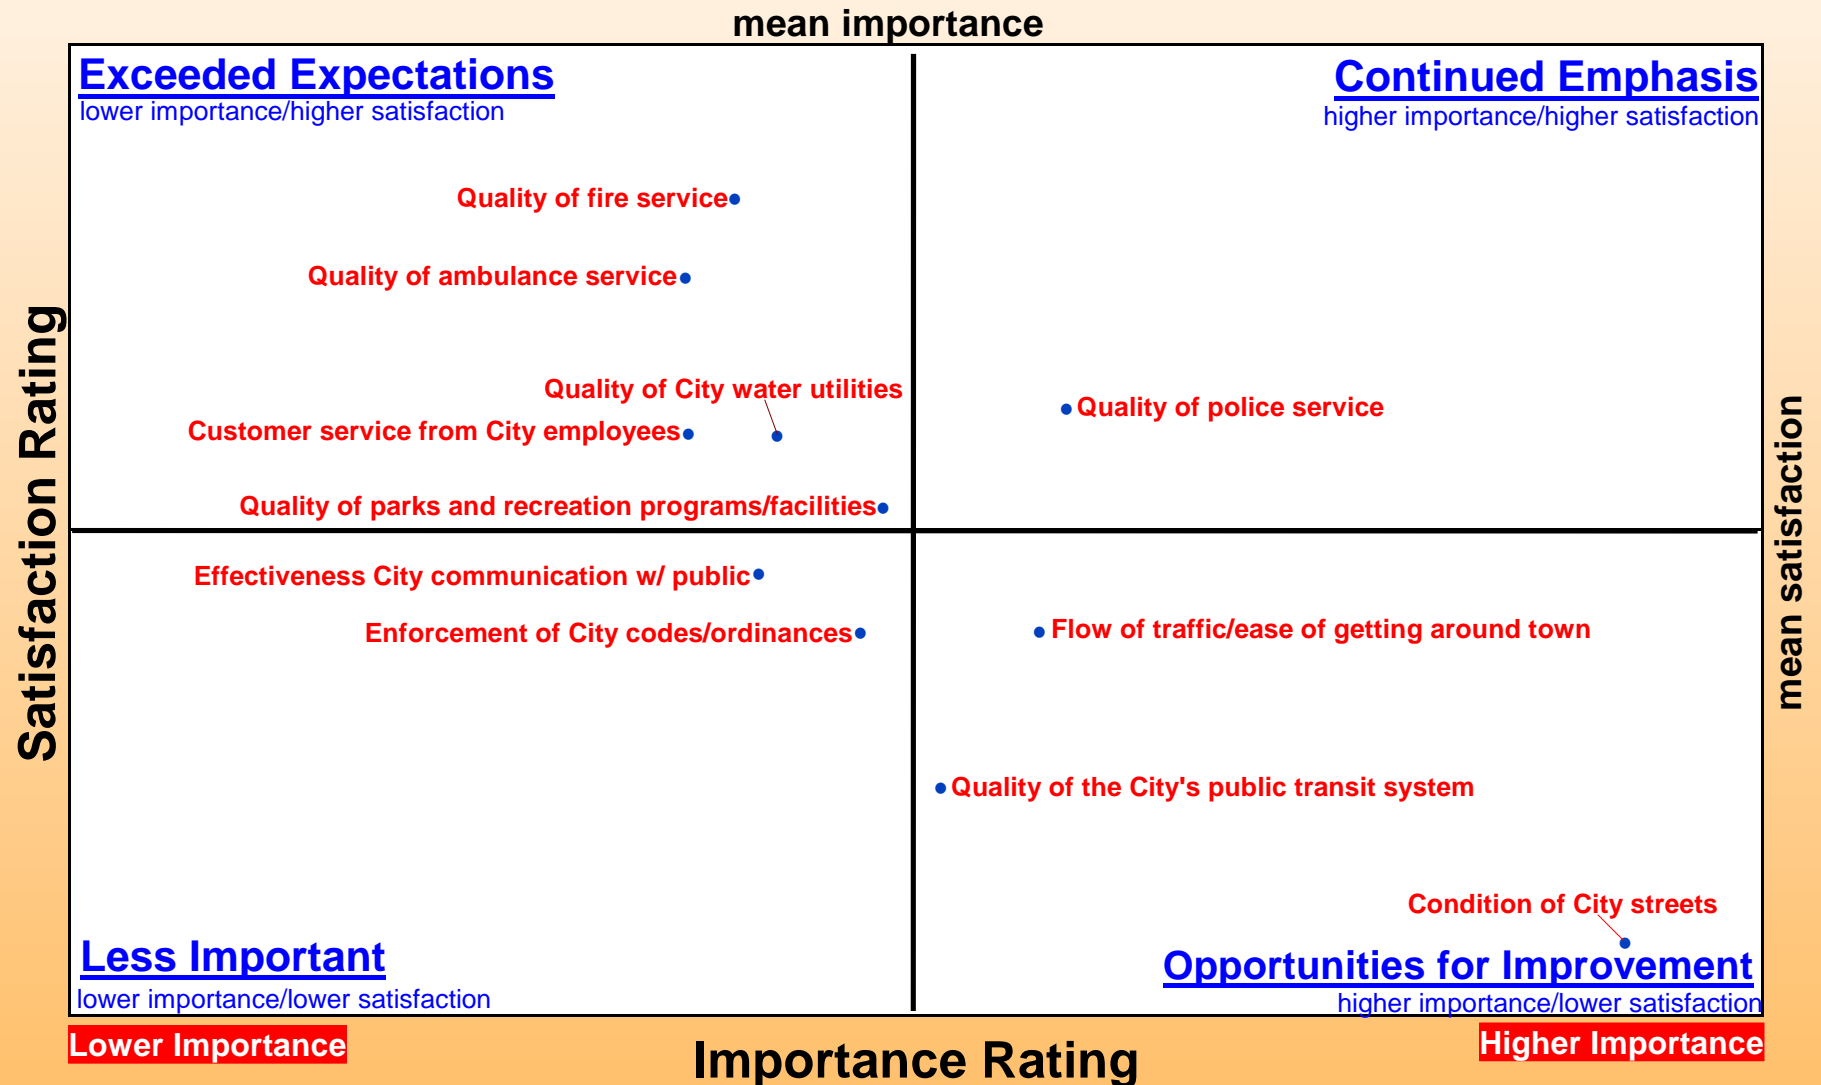

- **Continued Emphasis (above average importance and above average satisfaction).** This area shows where the City is meeting customer expectations. Items in this area have a significant impact on the customer's overall level of satisfaction. The City should maintain (or slightly increase) emphasis on items in this area.
- **Exceeding Expectations (below average importance and above average satisfaction).** This area shows where the City is performing significantly better than customers expect the City to perform. Items in this area do not significantly affect the overall level of satisfaction that residents have with City services. The City should maintain (or slightly decrease) emphasis on items in this area.
- **Opportunities for Improvement (above average importance and below average satisfaction).** This area shows where the City is not performing as well as residents expect the City to perform. This area has a significant impact on customer satisfaction, and the City should DEFINITELY increase emphasis on items in this area.
- **Less Important (below average importance and below average satisfaction).** This area shows where the City is not performing well relative to the City's performance in other areas; however, this area is generally considered to be less important to residents. This area does not significantly affect overall satisfaction with City services because the items are less important to residents. The agency should maintain current levels of emphasis on items in this area.

Matrices showing the results for the Oklahoma City are provided on the following pages.

***Section 4:
GIS Maps***

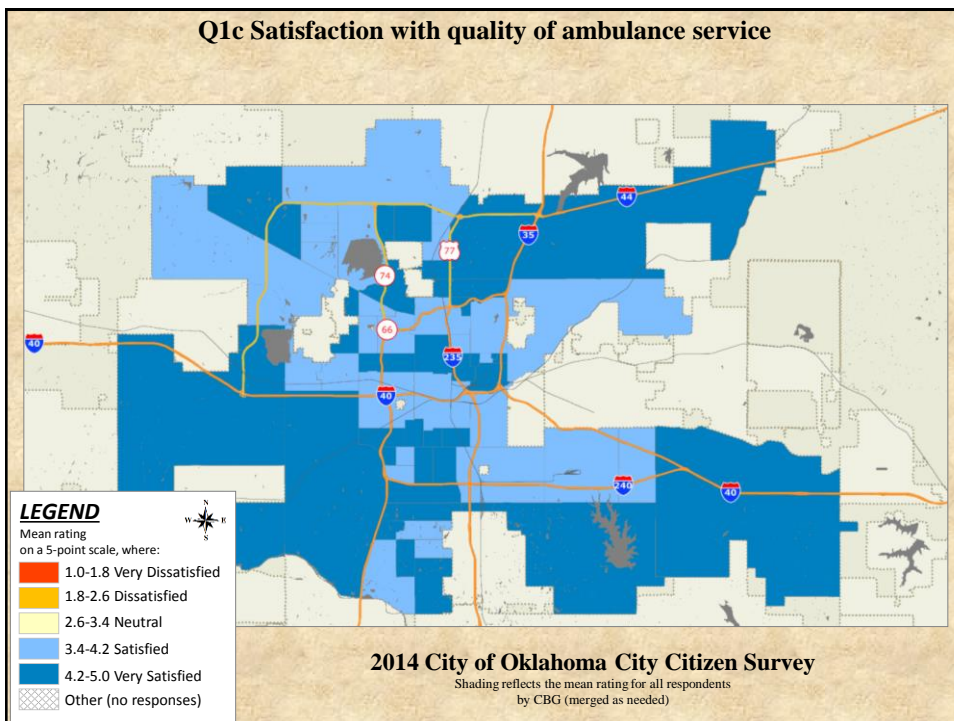

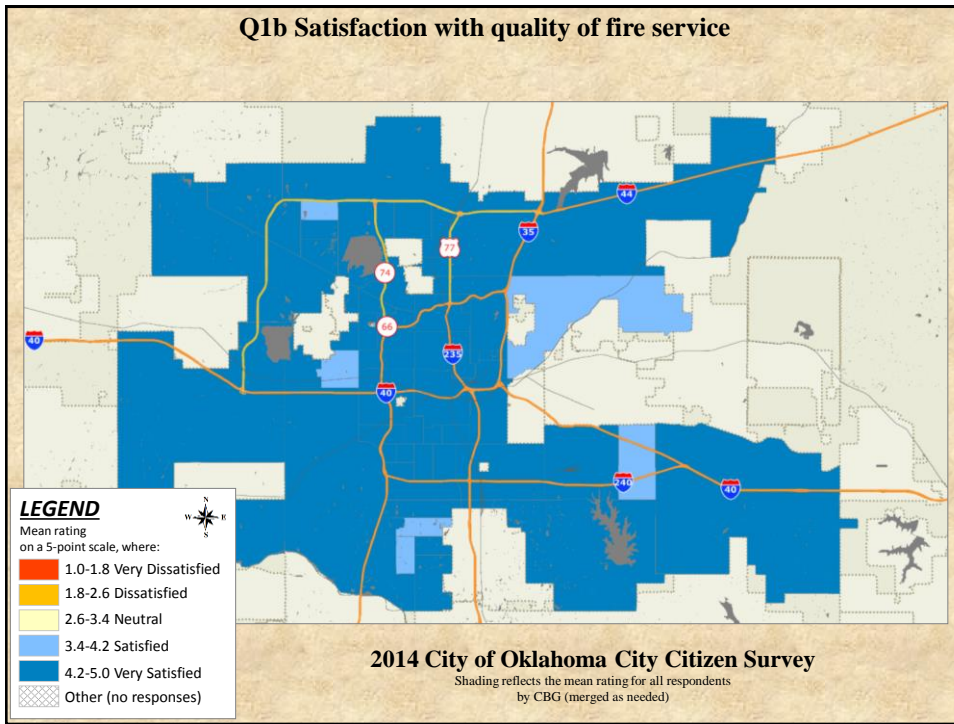

Interpreting the Maps

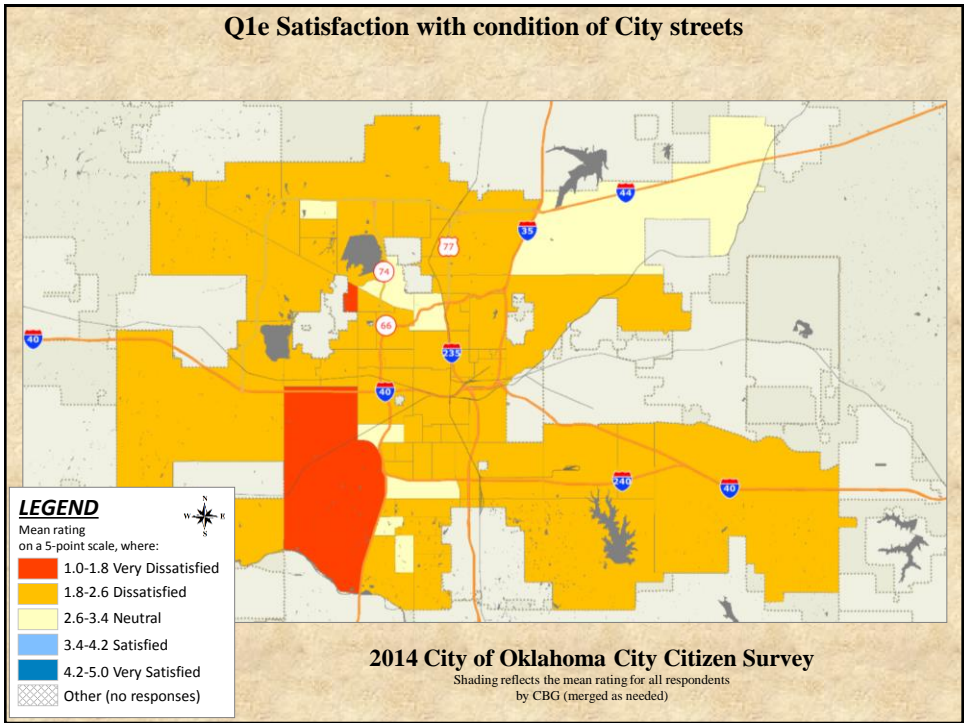

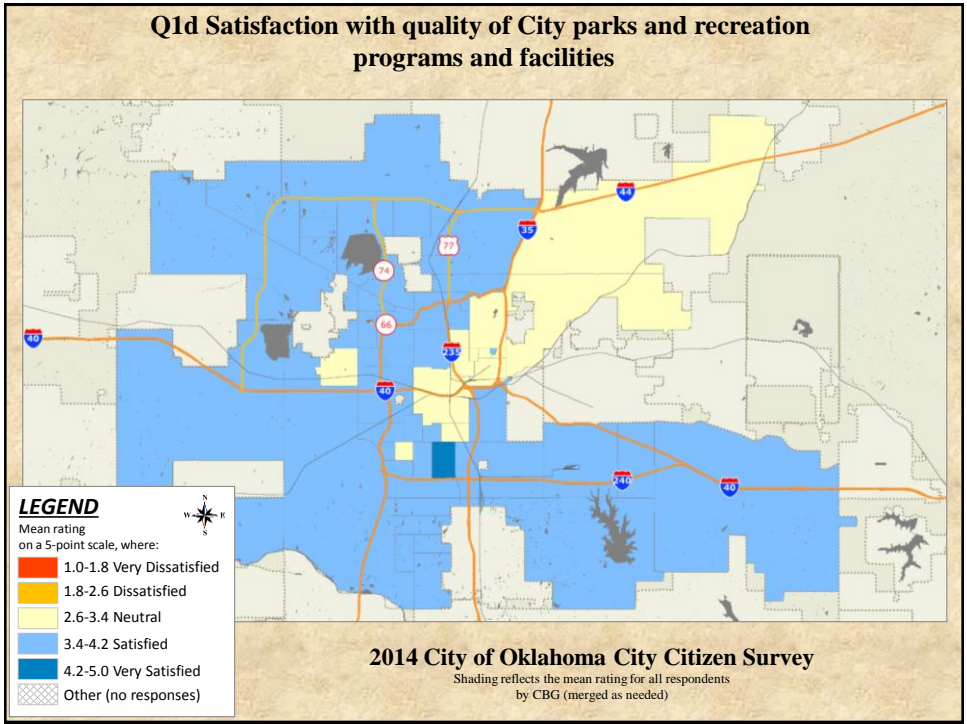

The maps on the following pages show the mean ratings for several questions on the survey by Census Block Group. If all areas on a map are the same color, then residents generally feel the same about that issue regardless of the location of their home.

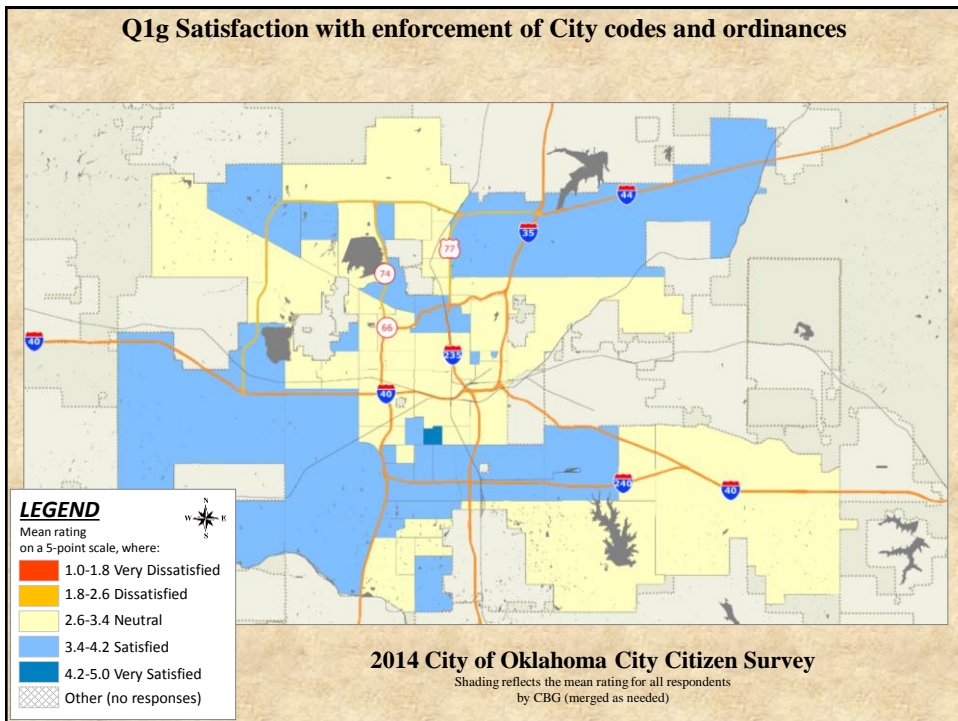

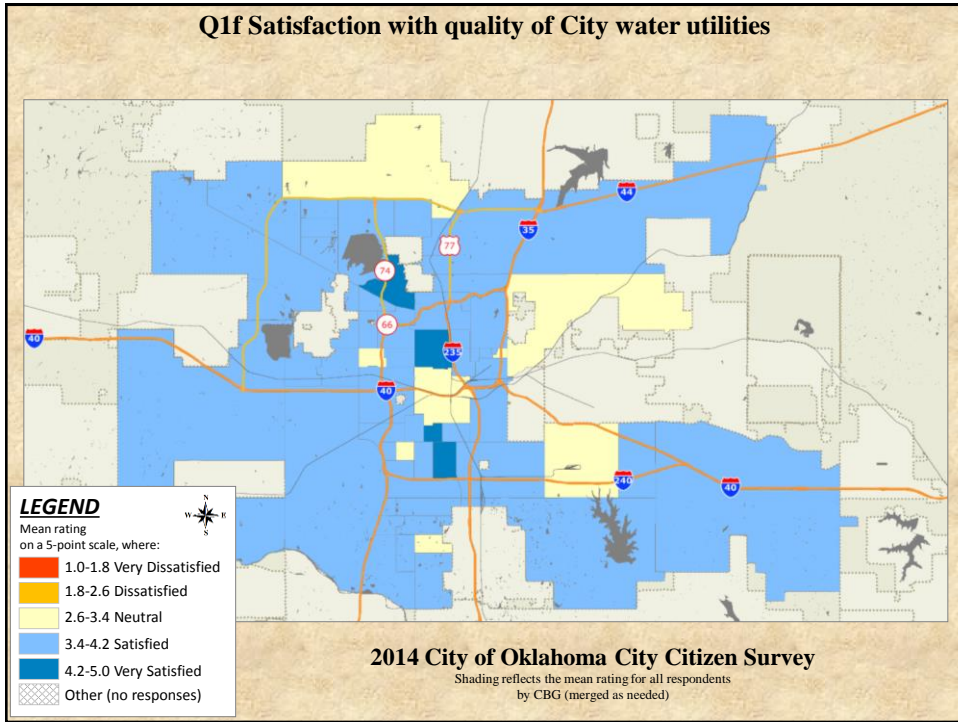

When reading the maps, please use the following color scheme as a guide:

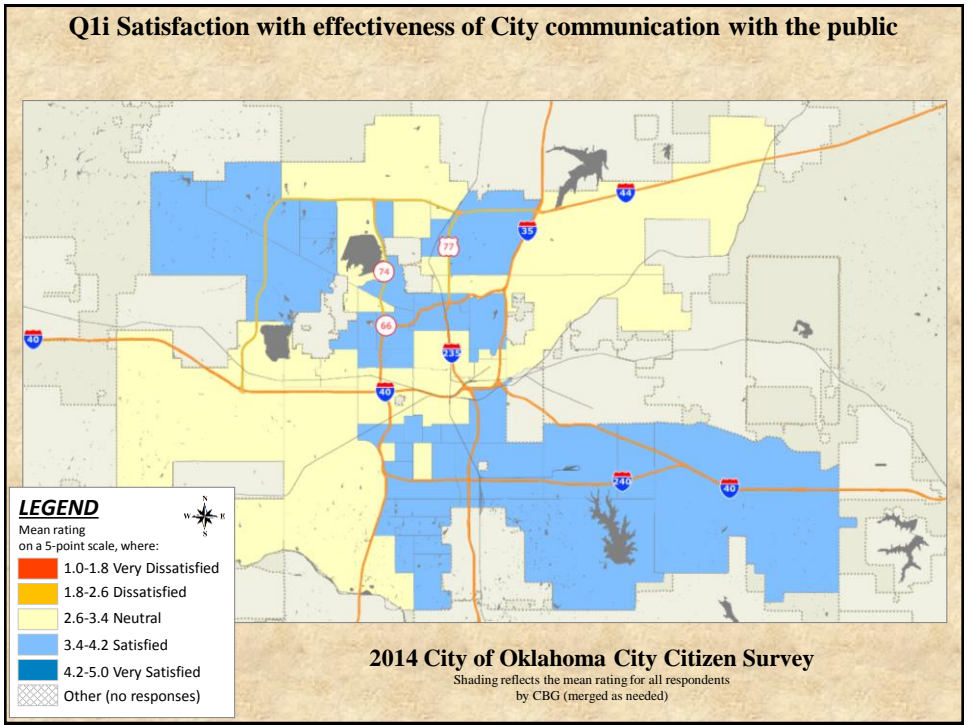

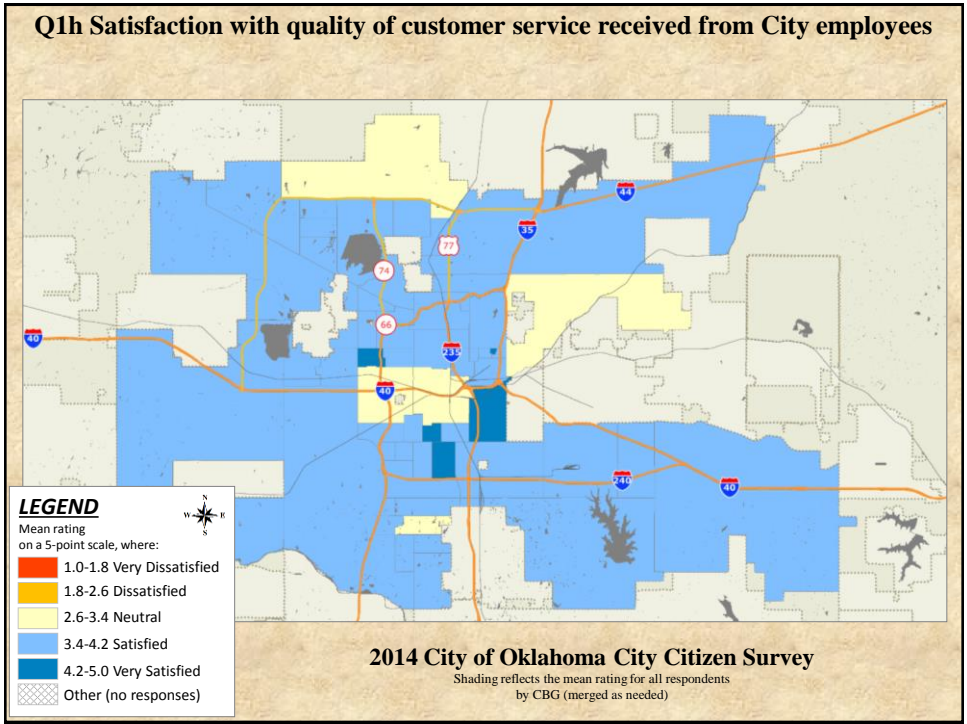

- **DARK/LIGHT BLUE** shades indicate POSITIVE ratings. Shades of blue generally indicate satisfaction with a service, ratings of “excellent” or “good” and ratings of “very safe” or “safe.”
- **OFF-WHITE** shades indicate NEUTRAL ratings. Shades of neutral generally indicate that residents thought the quality of service delivery is adequate.
- **ORANGE/RED** shades indicate NEGATIVE ratings. Shades of orange/red generally indicate dissatisfaction with a service, ratings of “below average” or “poor” and ratings of “unsafe” or “very unsafe.”

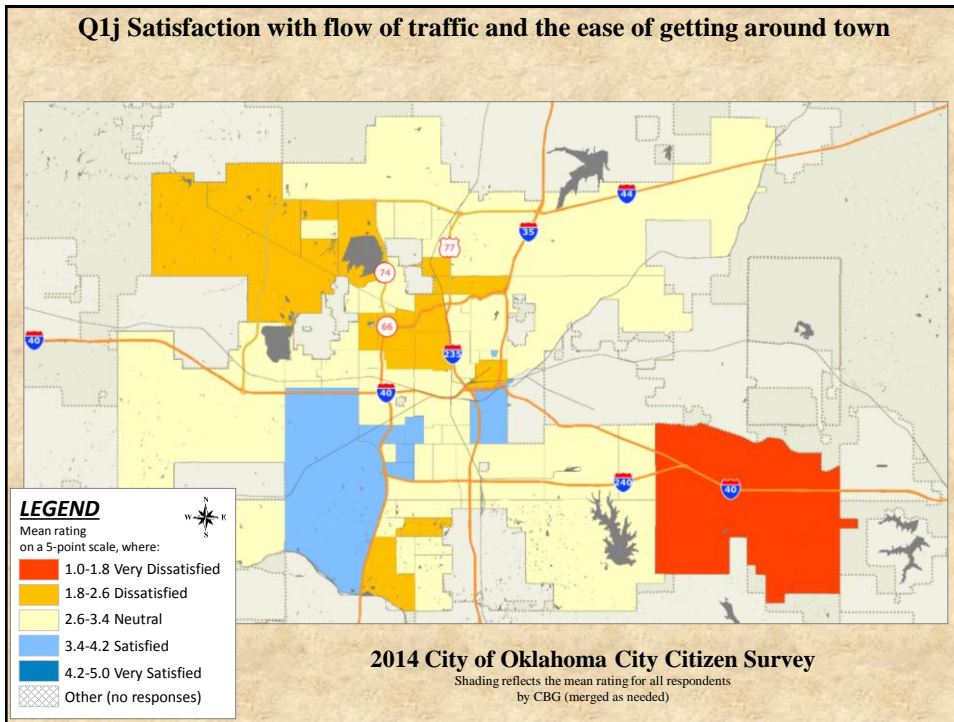

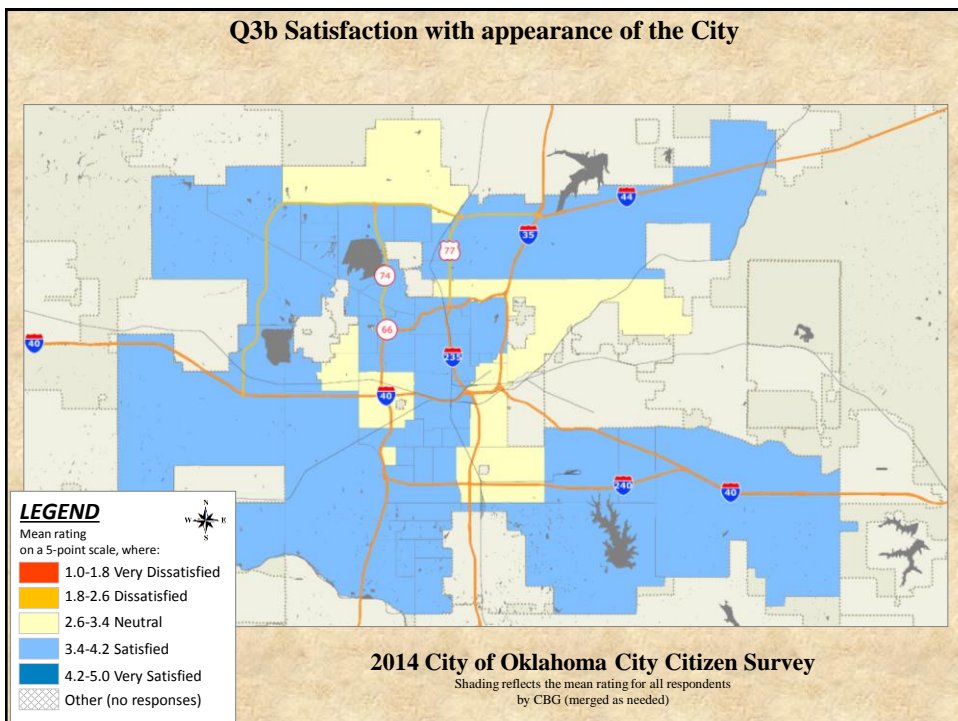

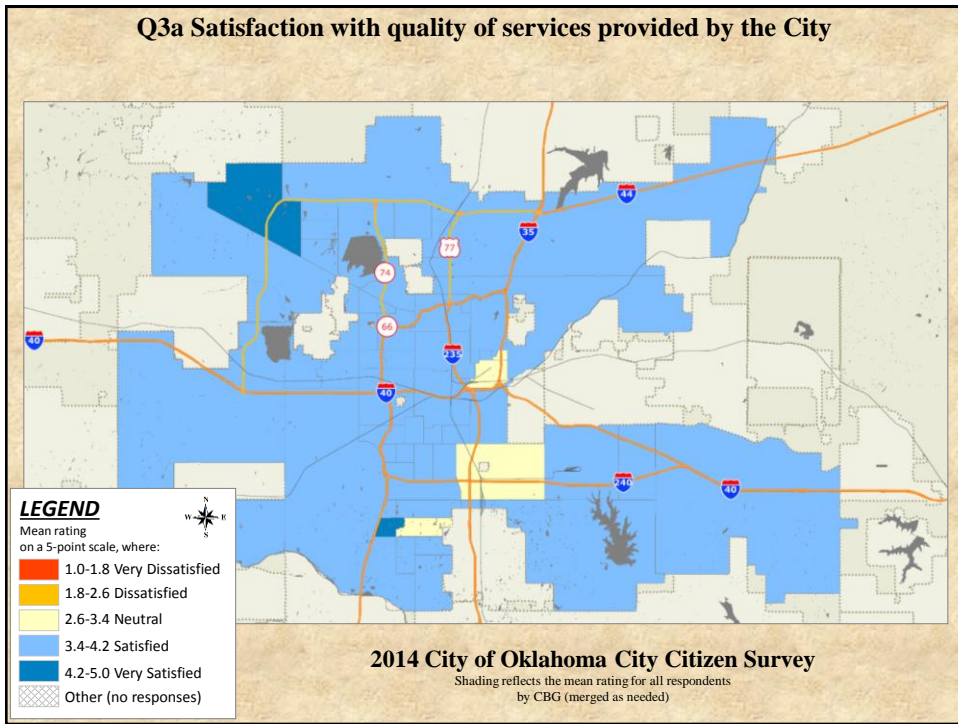

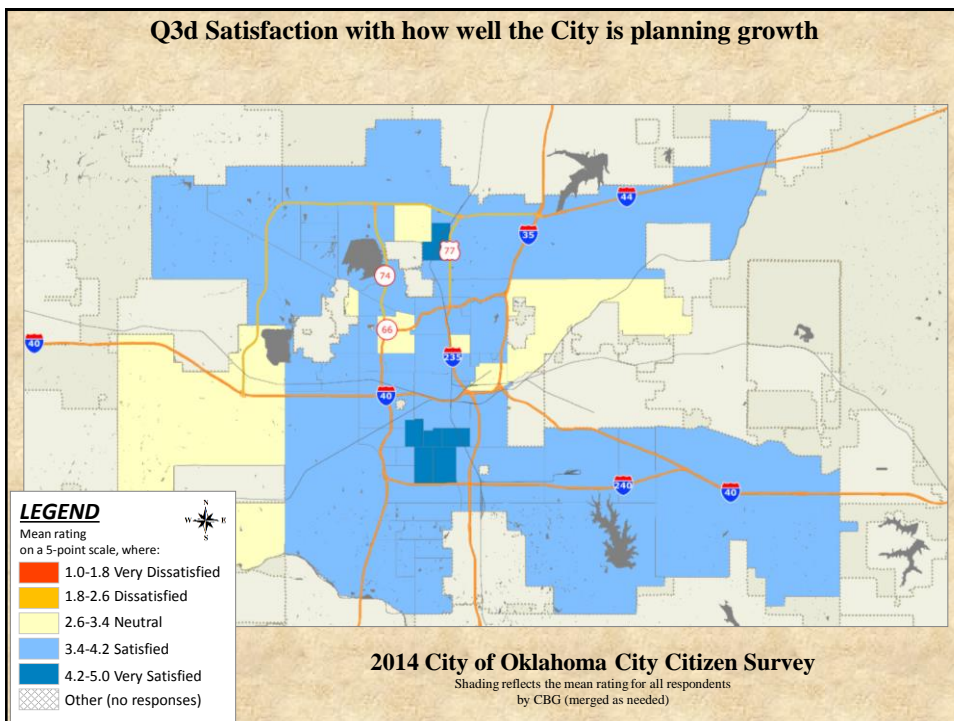

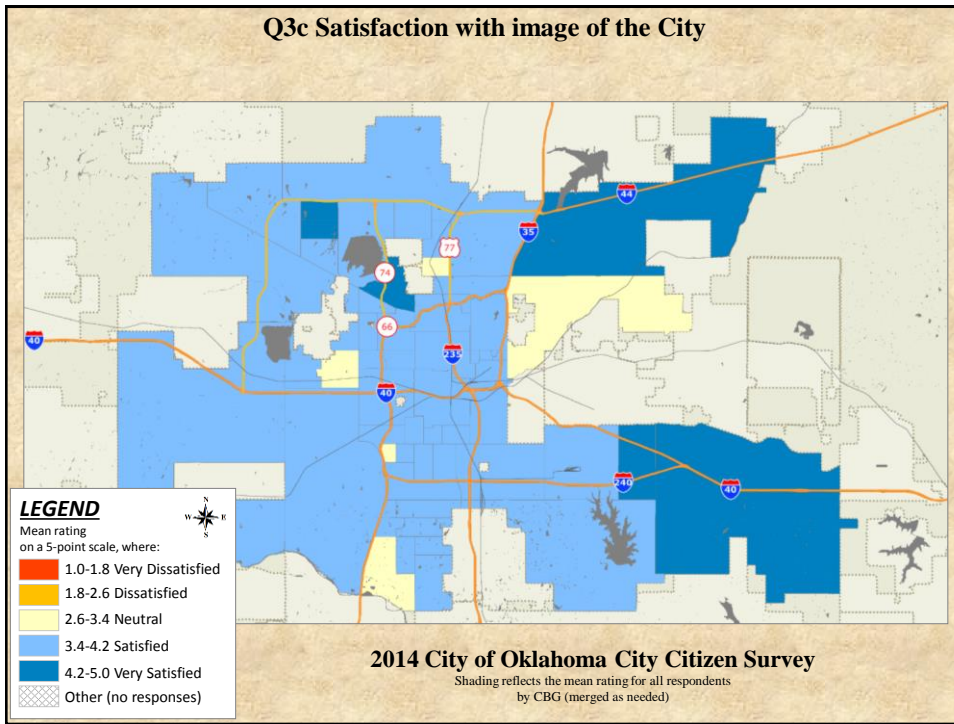

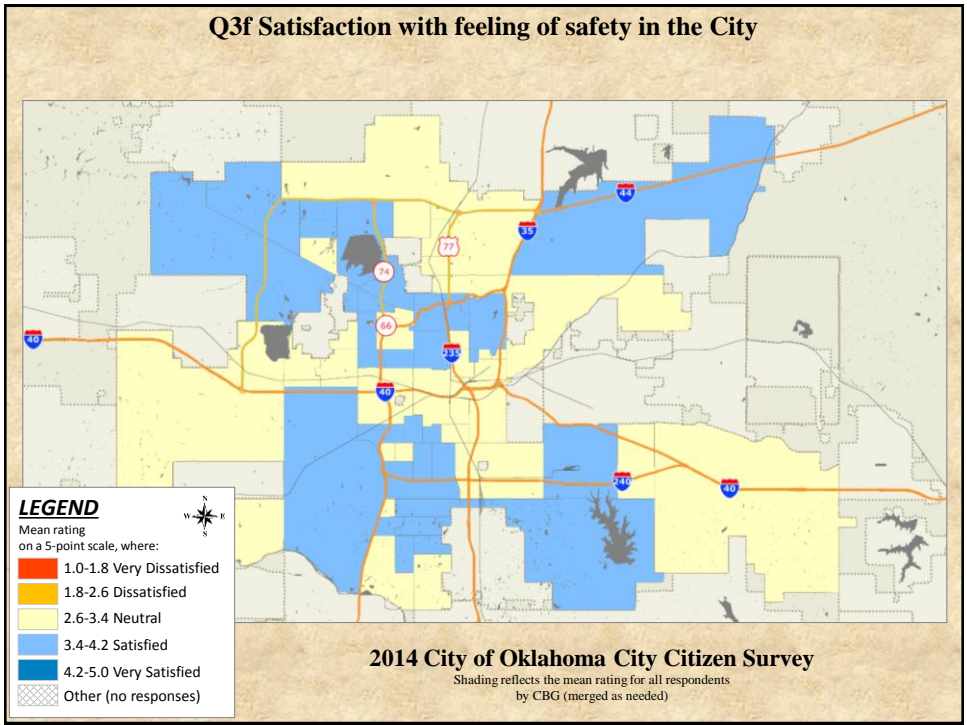

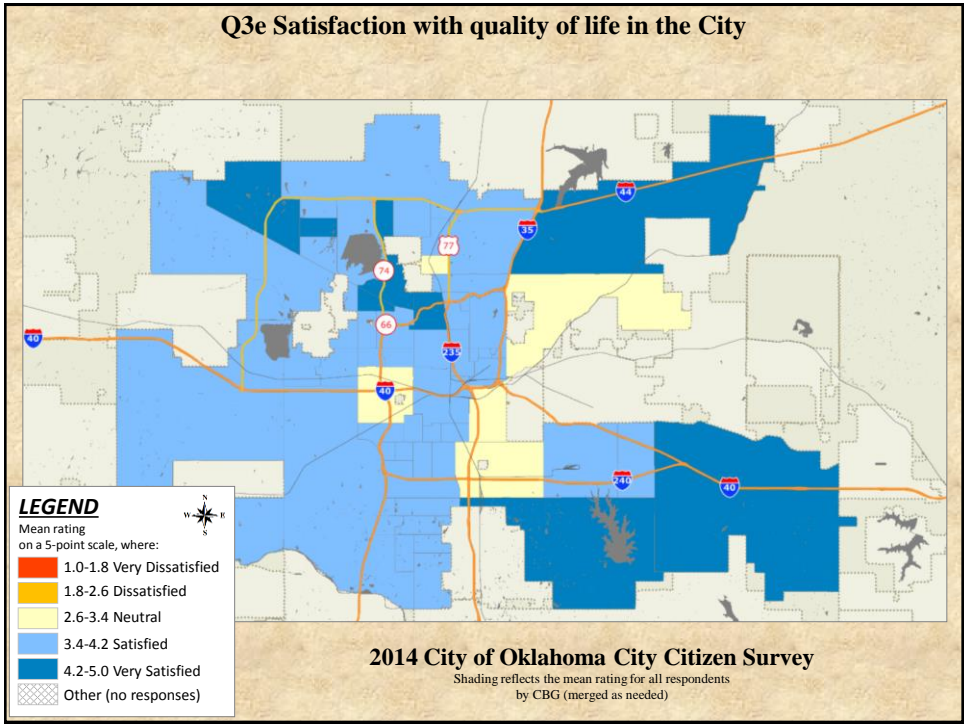

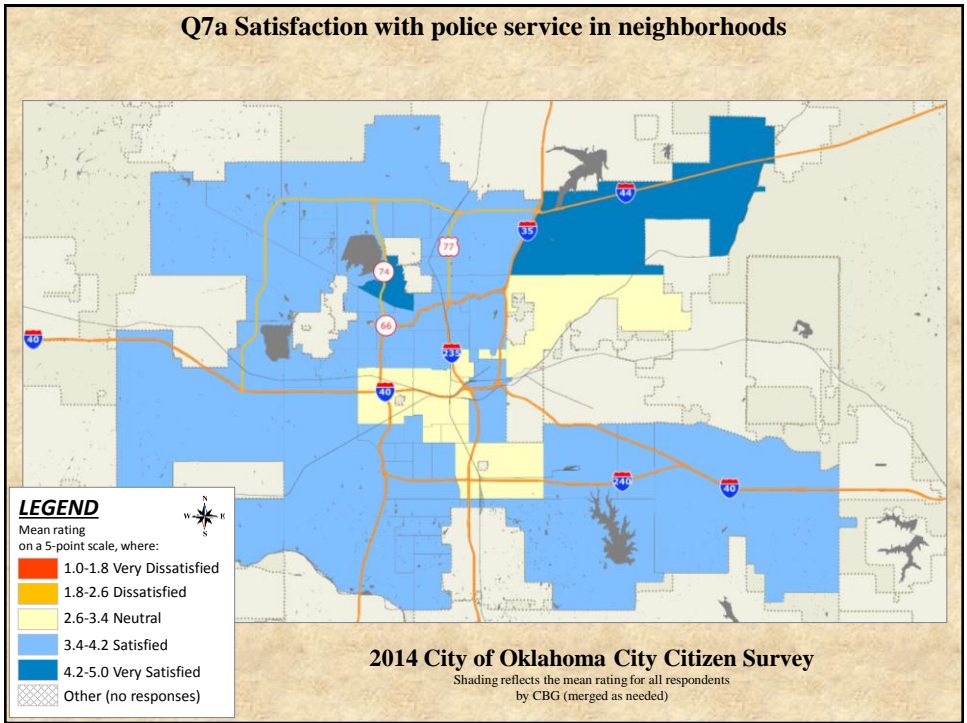

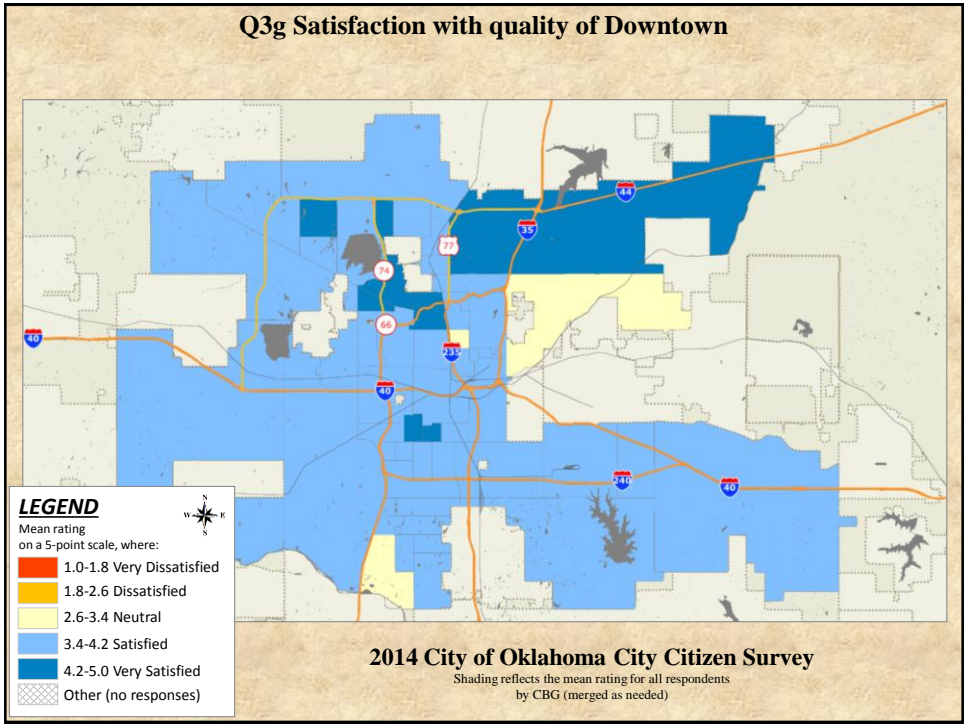

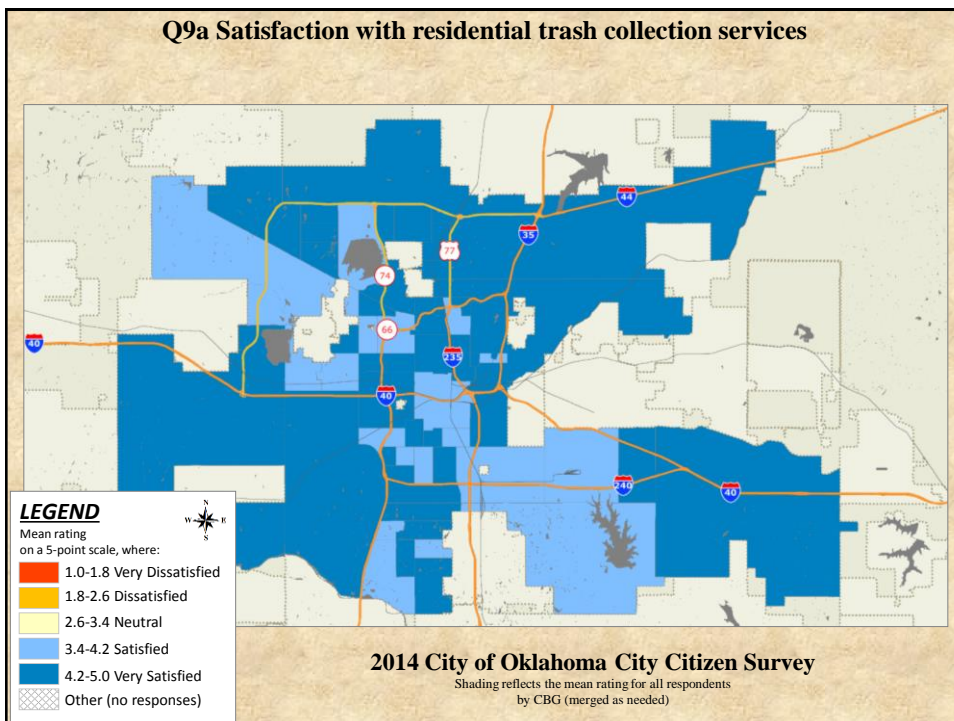

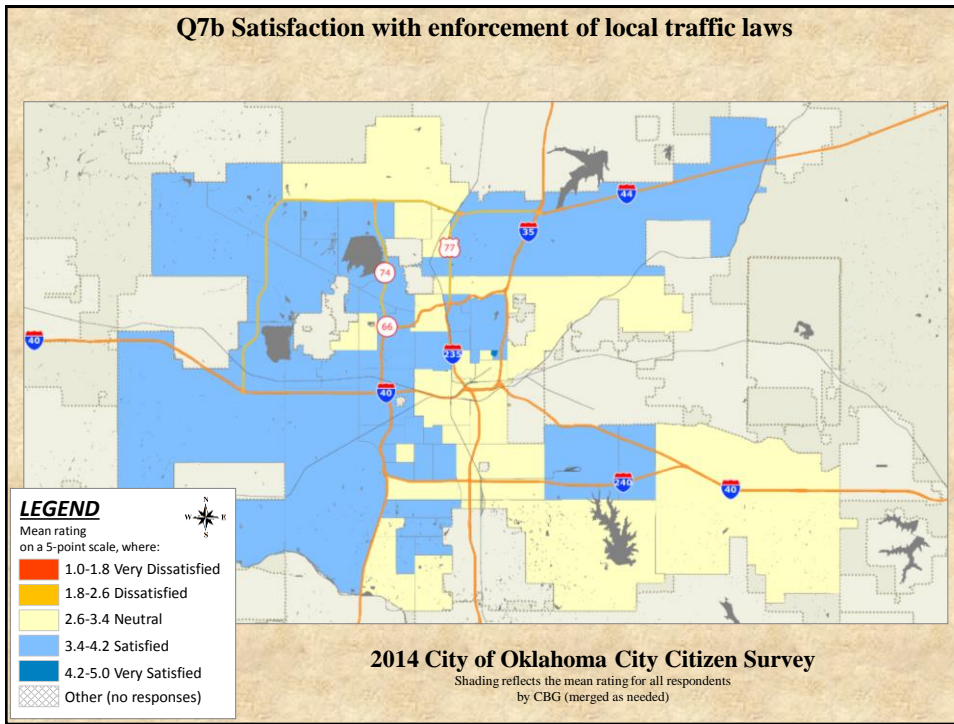

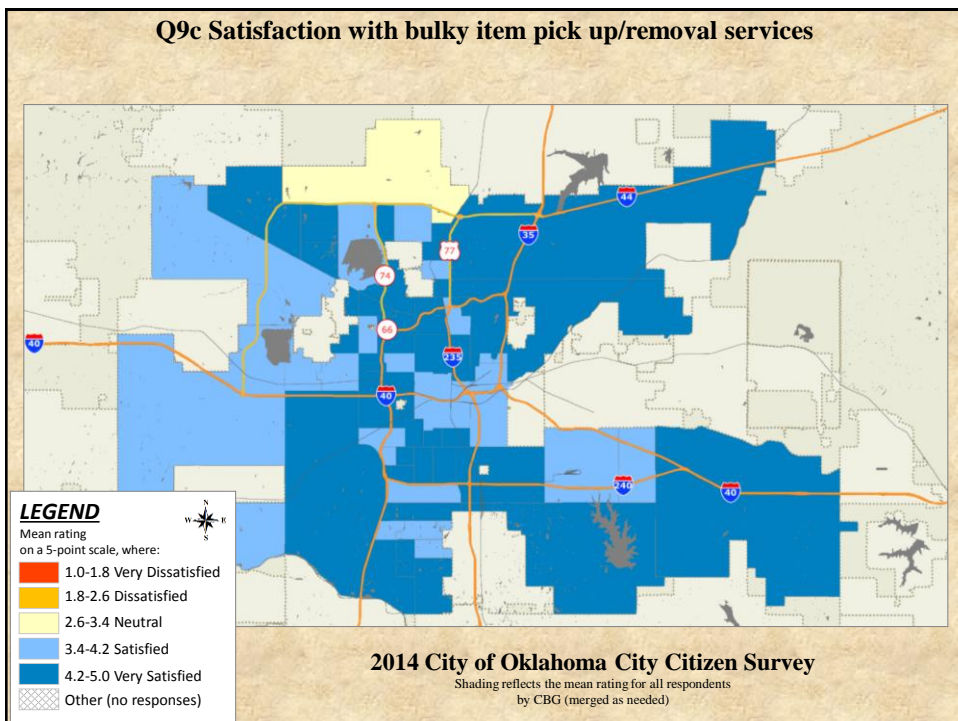

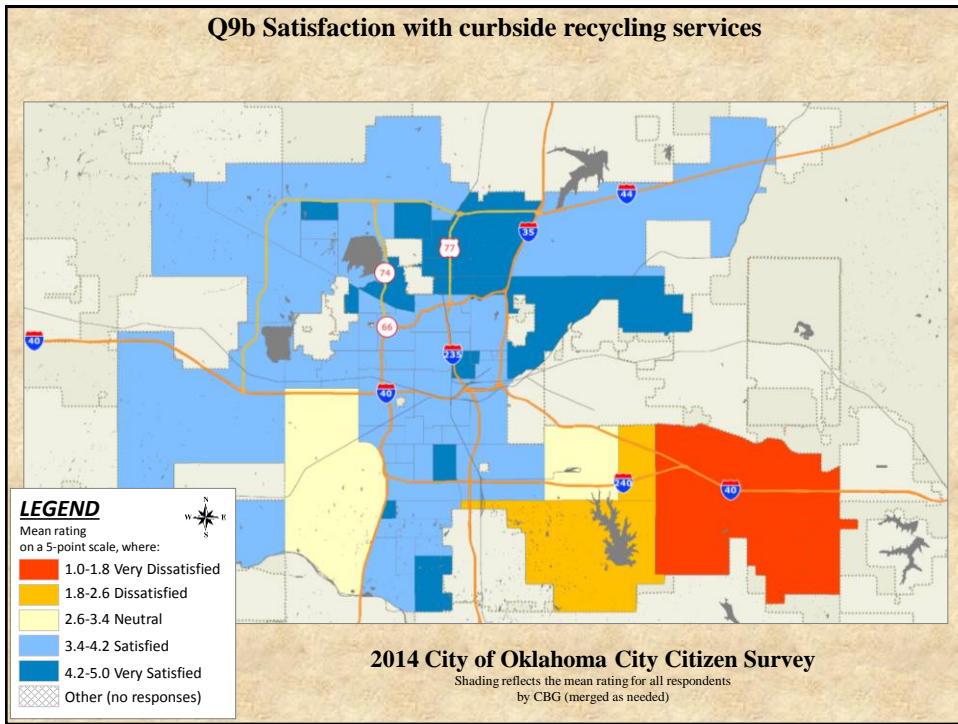

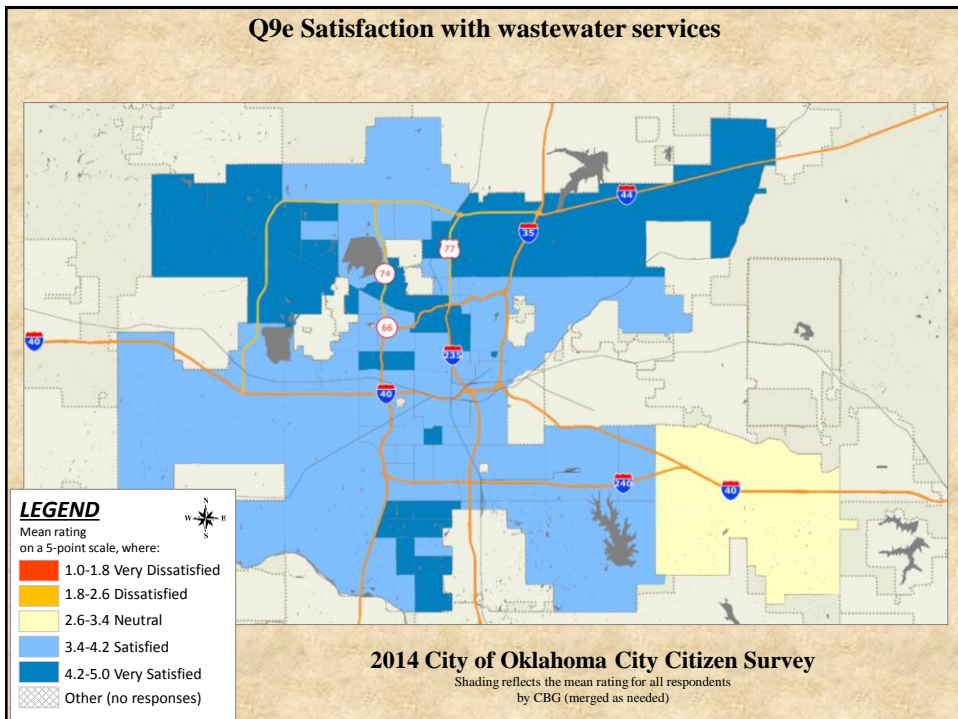

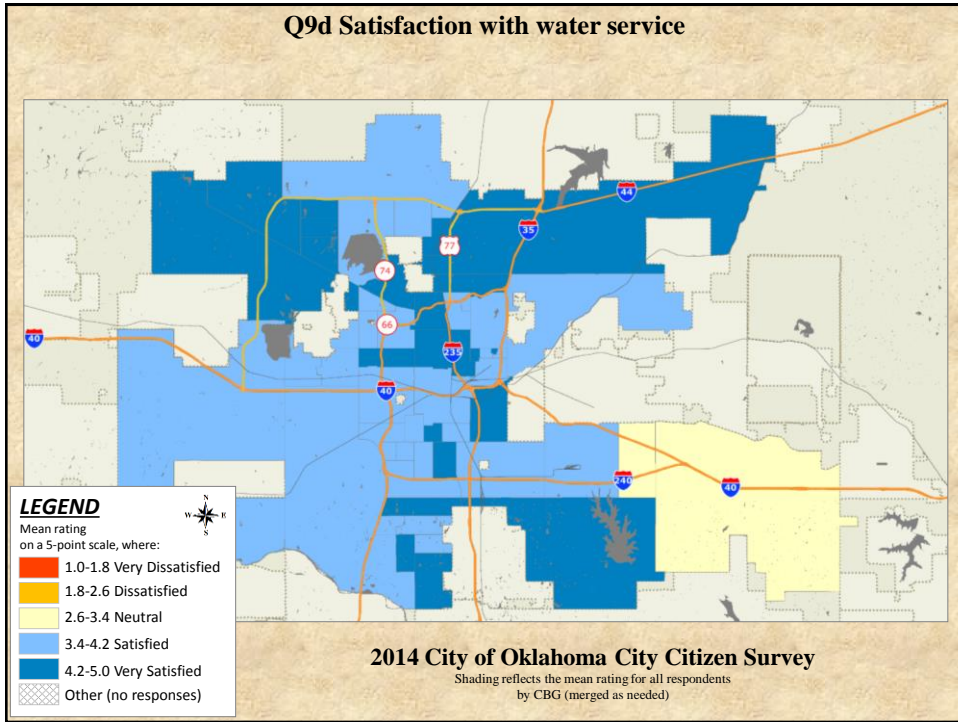

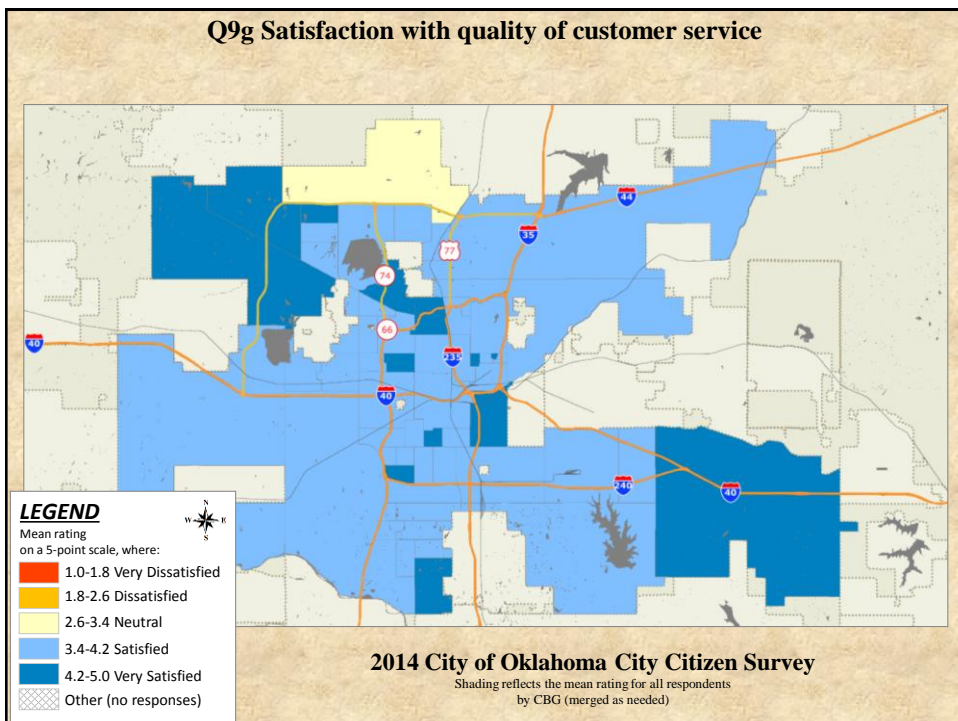

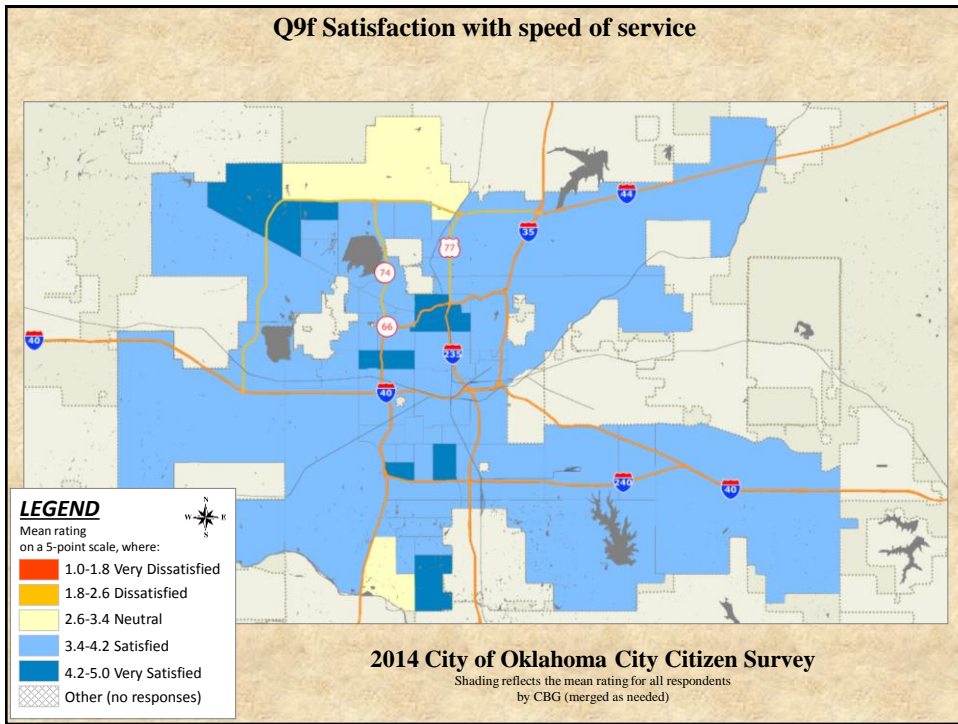

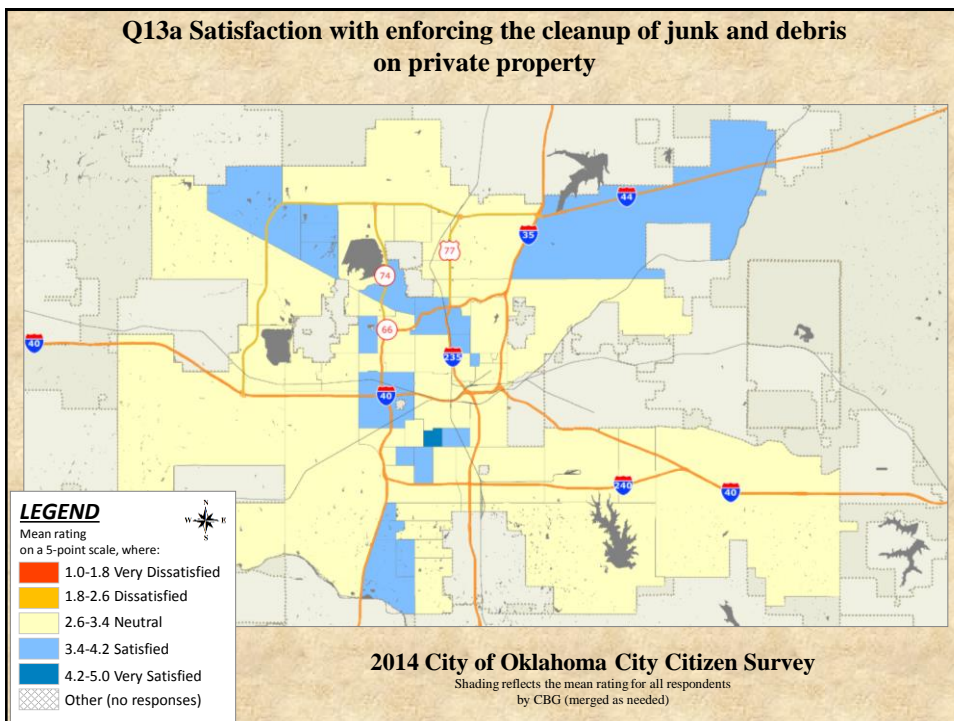

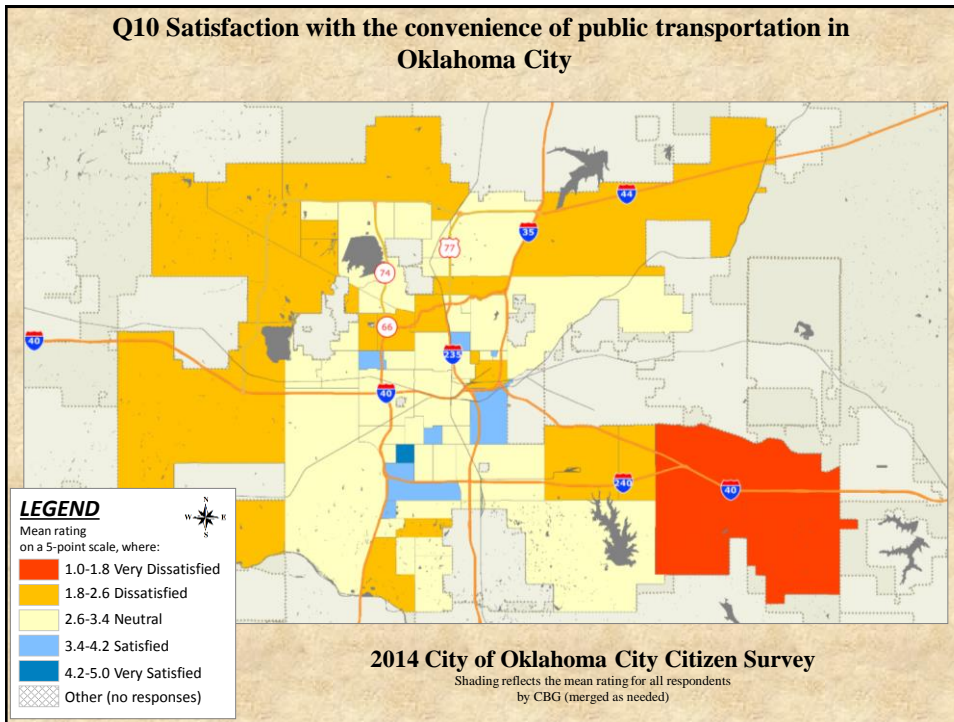

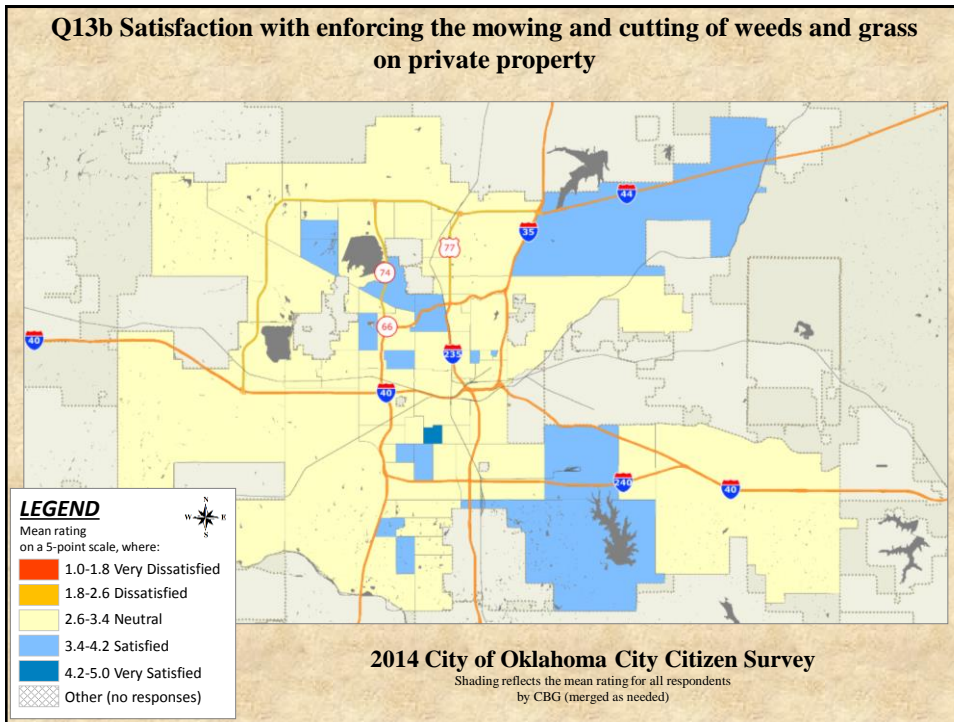

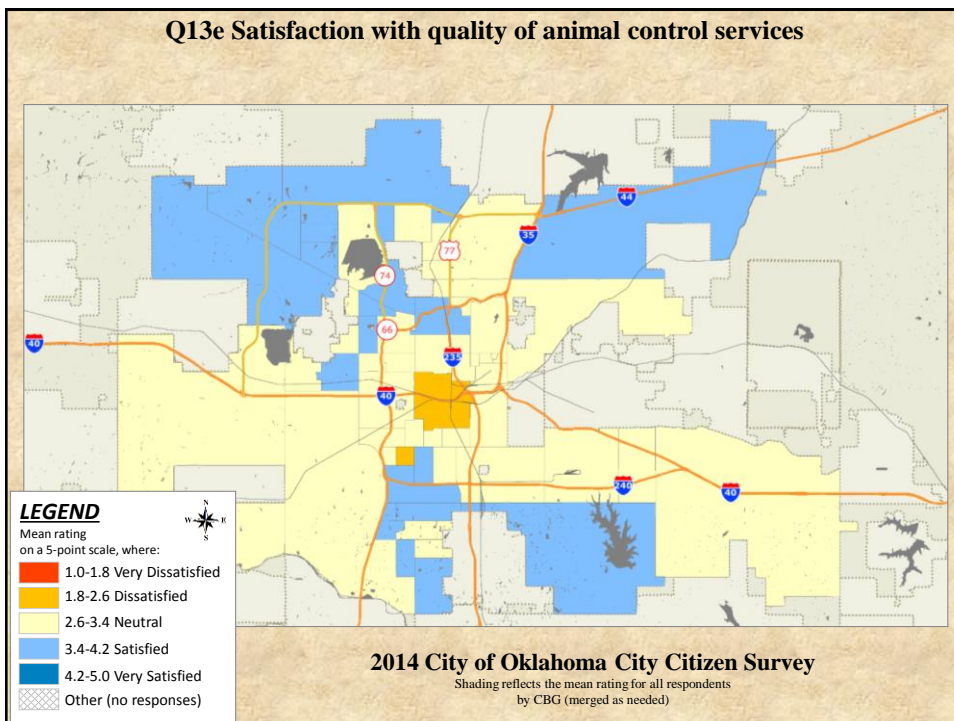

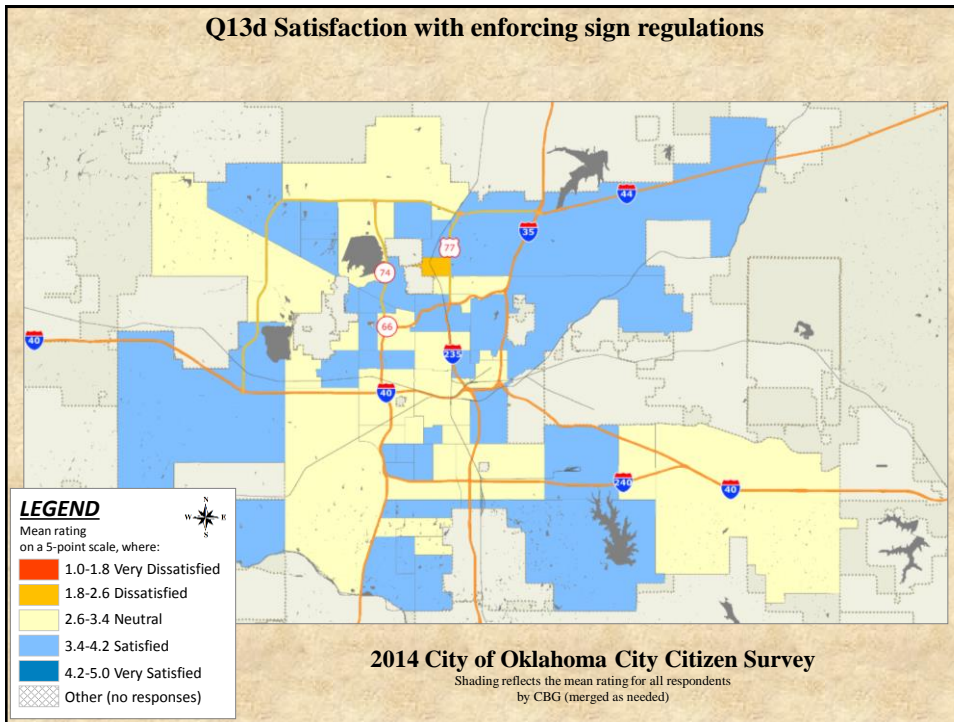

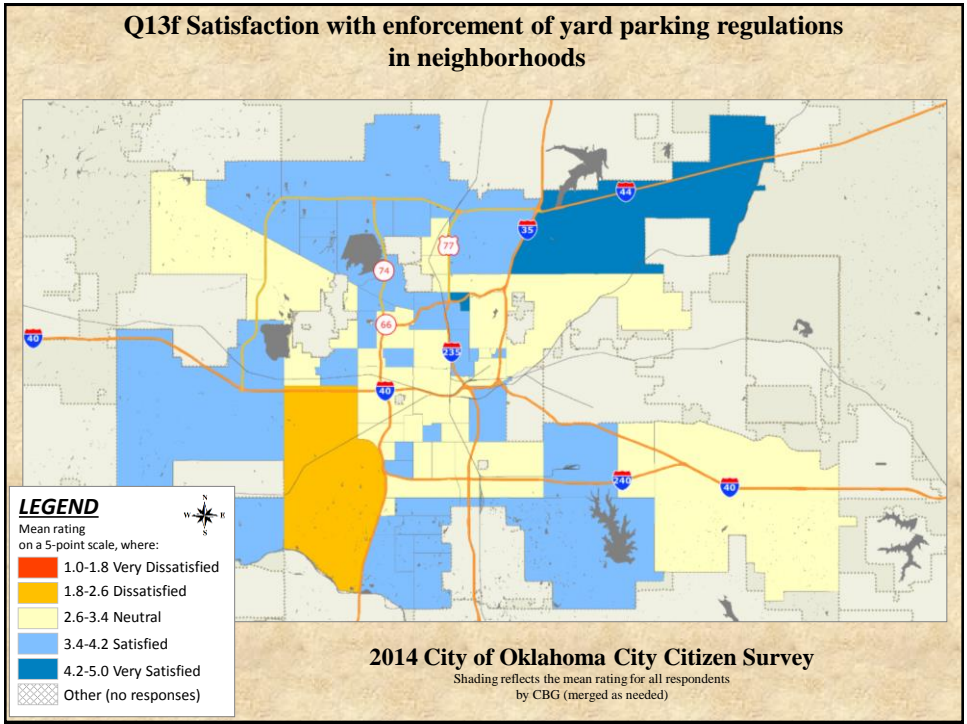

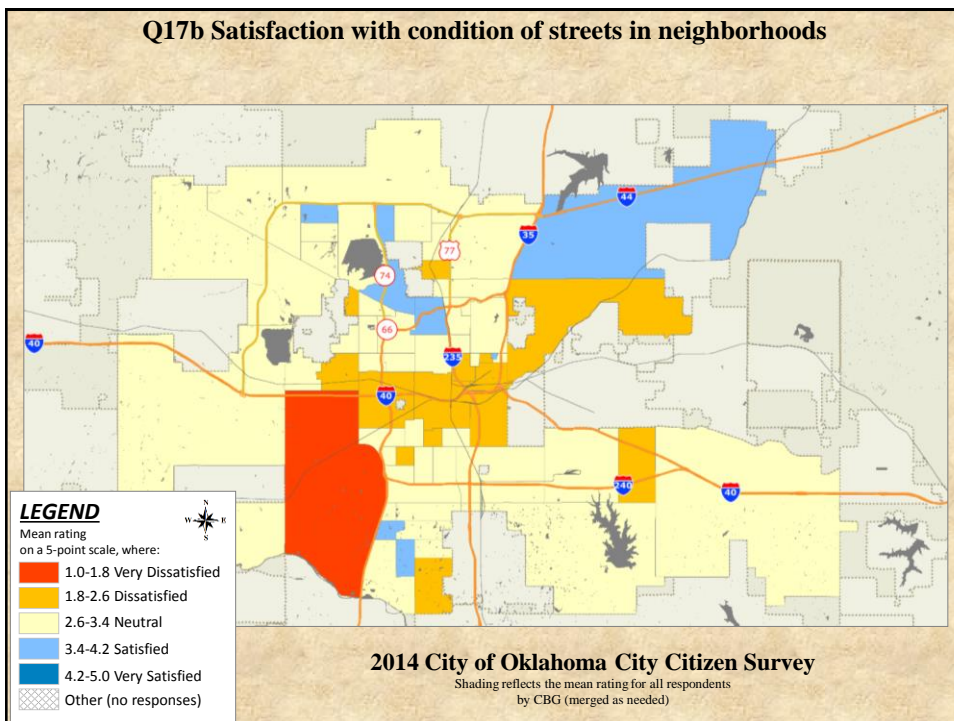

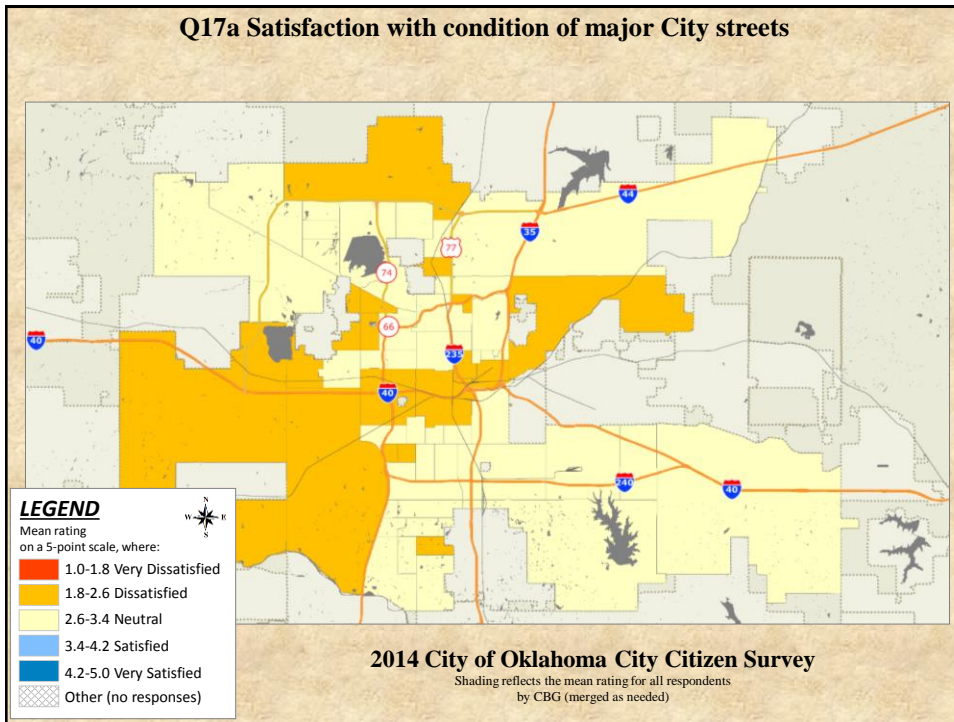

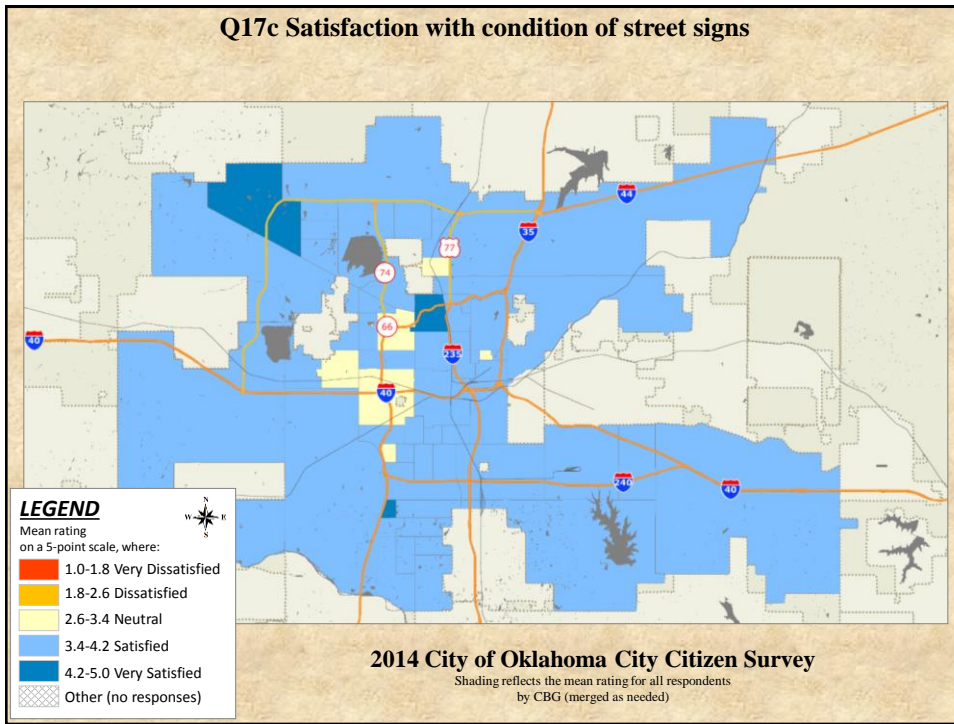

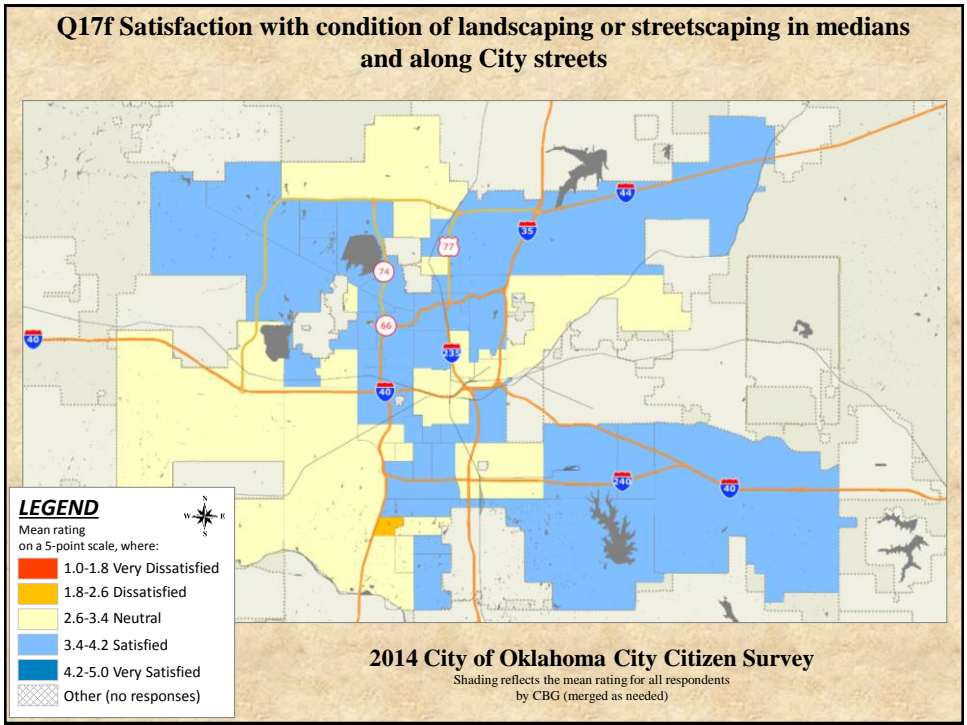

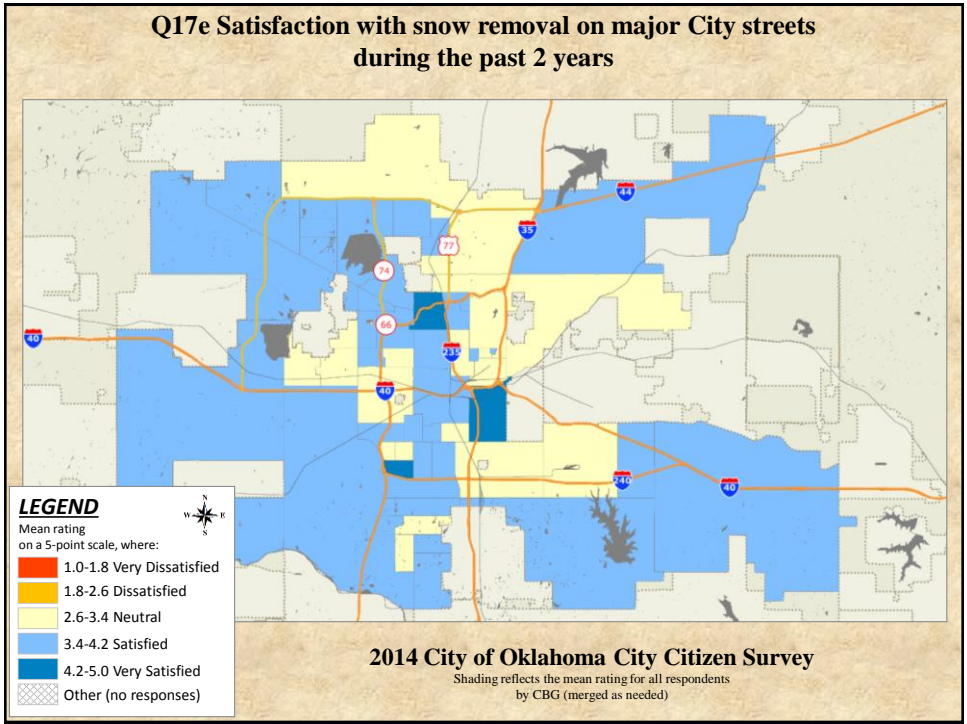

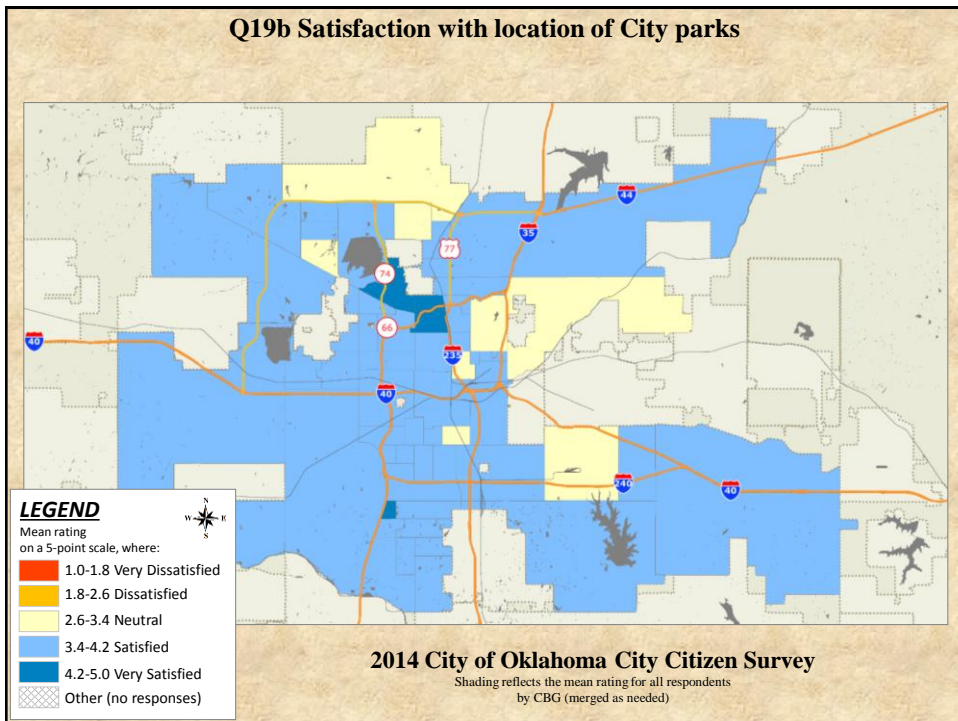

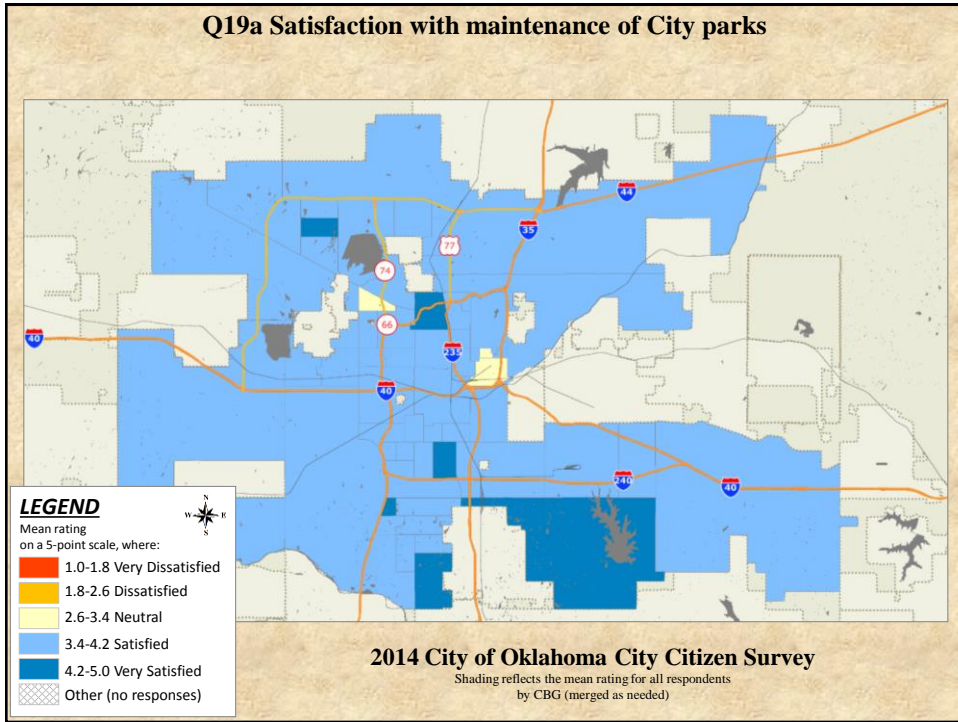

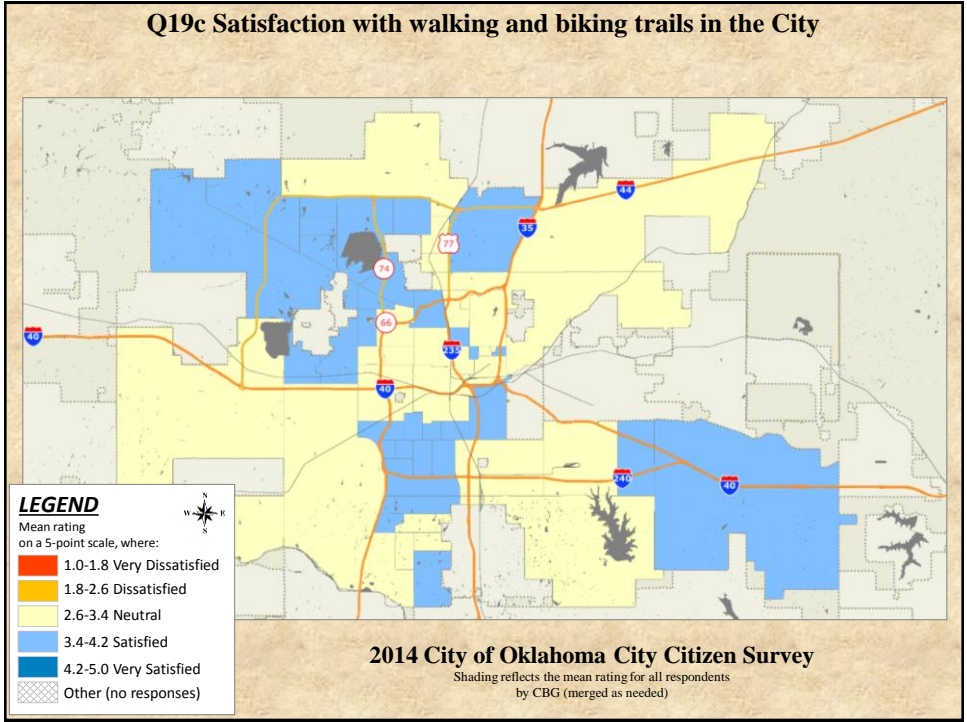

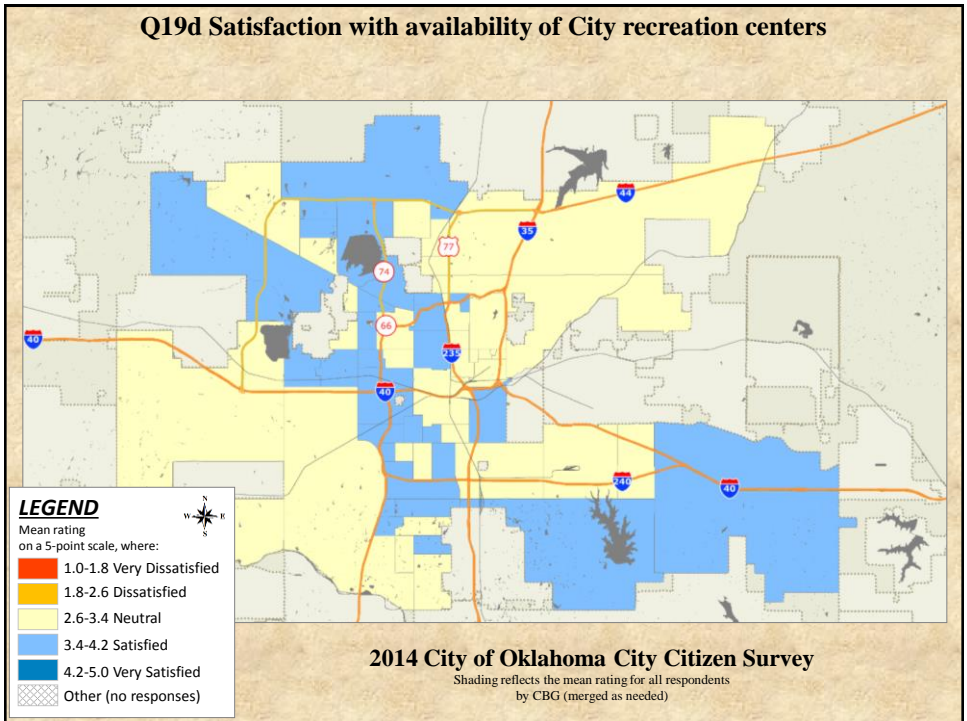

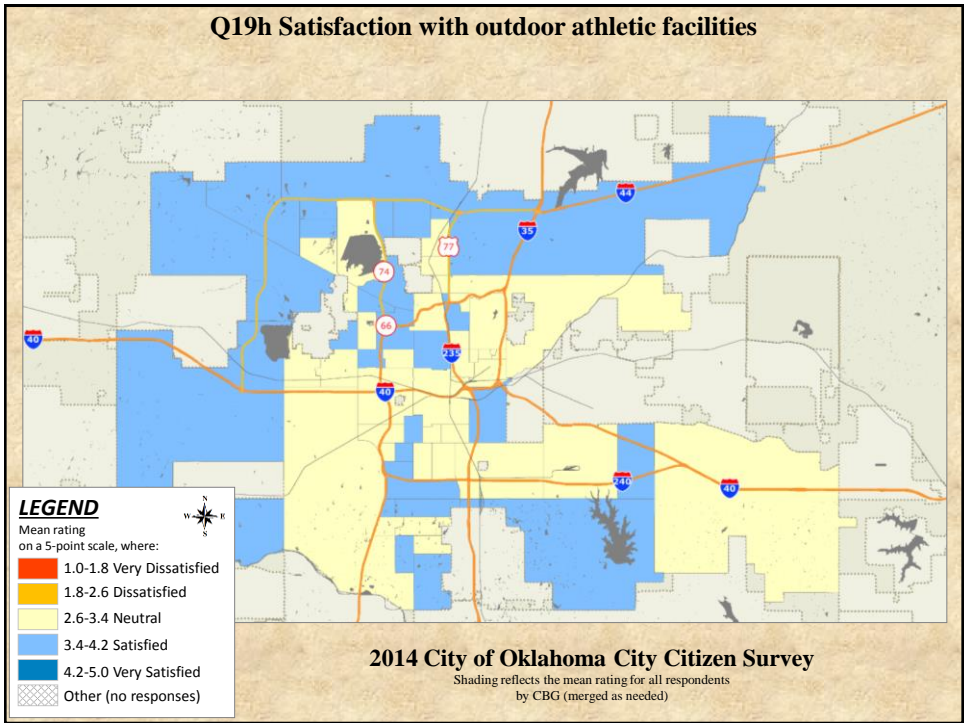

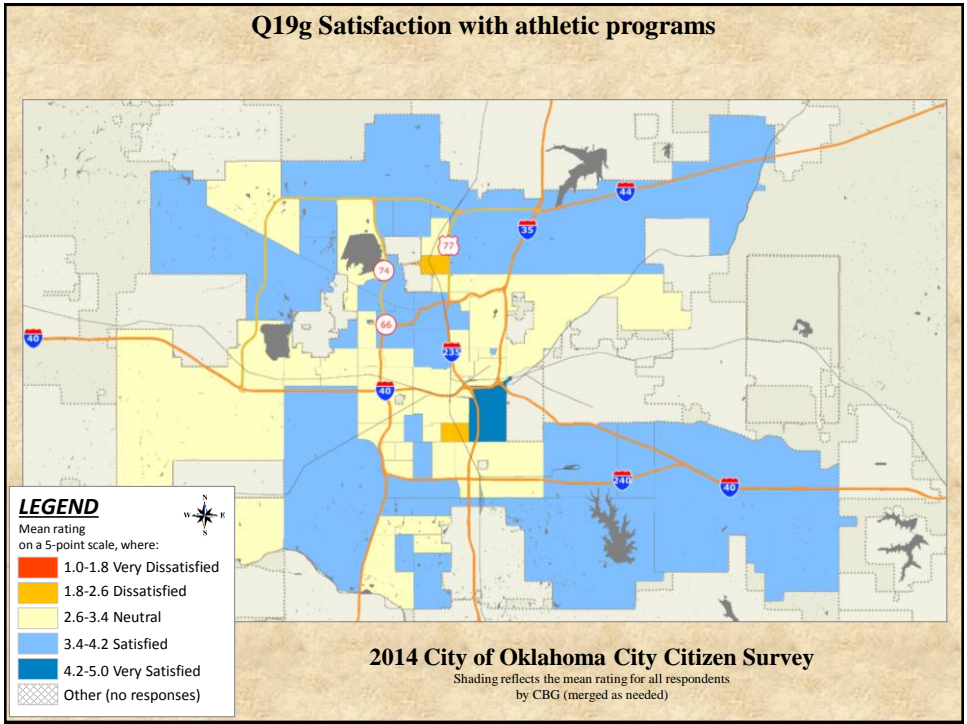

Q19c Satisfaction with walking and biking trails in the City

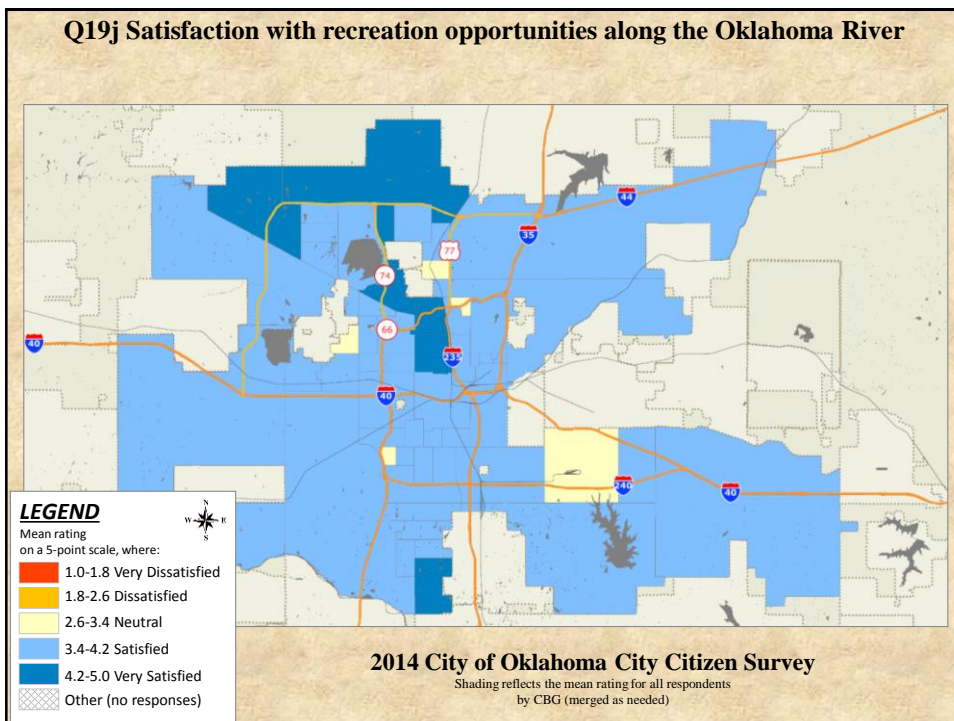

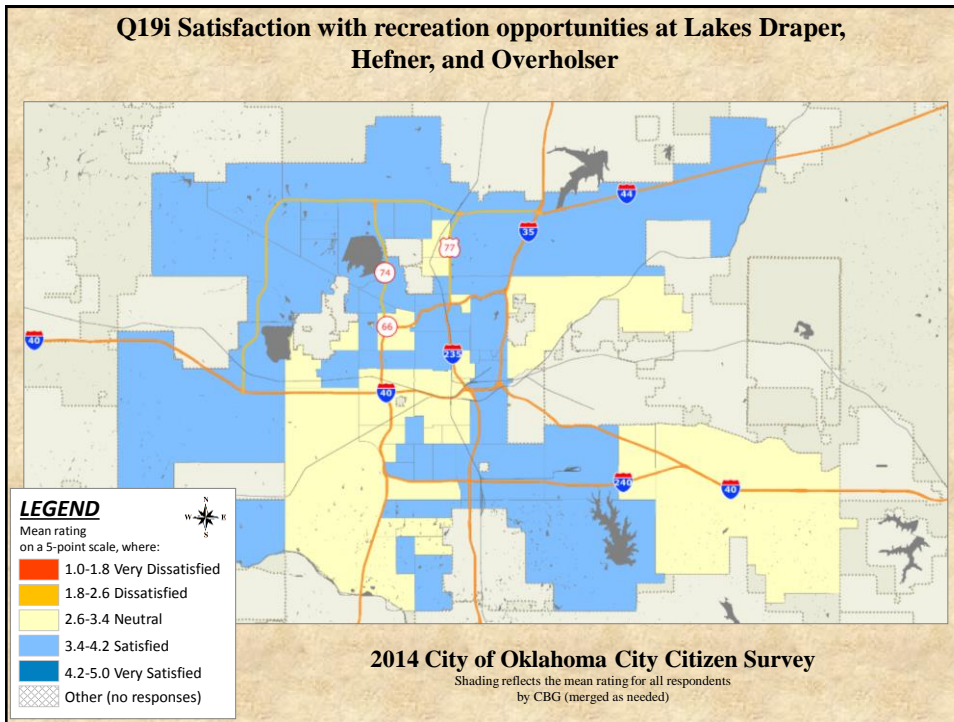

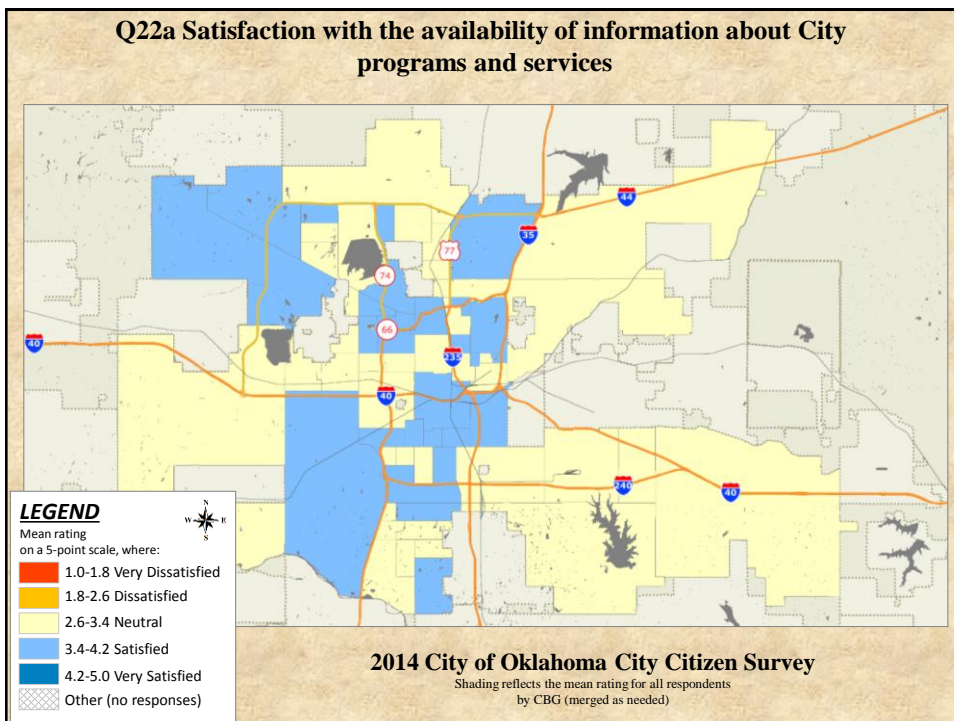

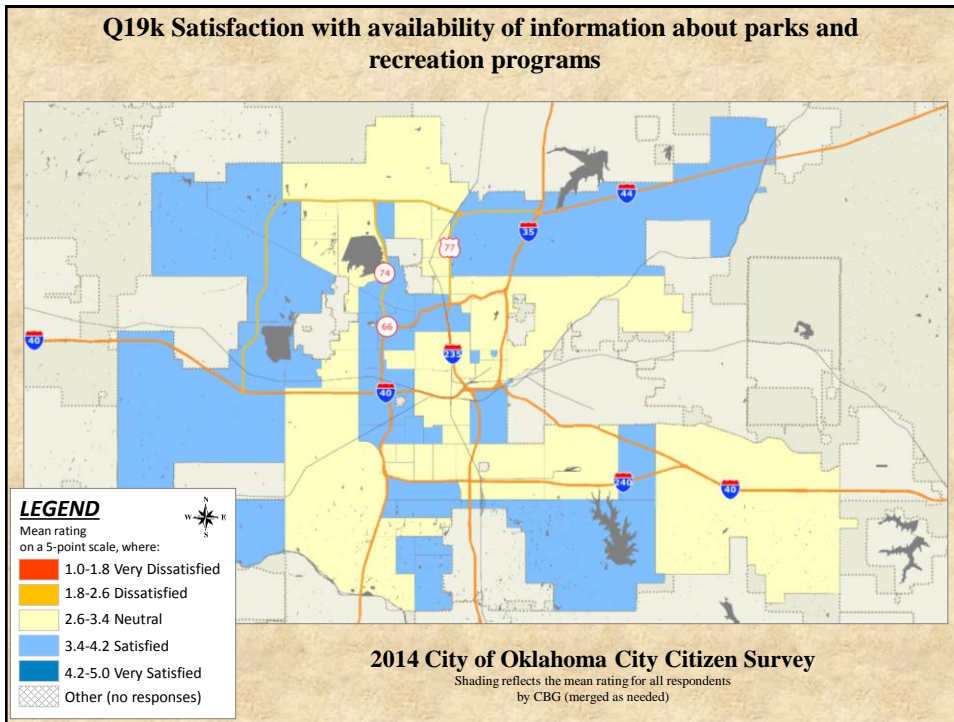

Q19d Satisfaction with availability of City recreation centers

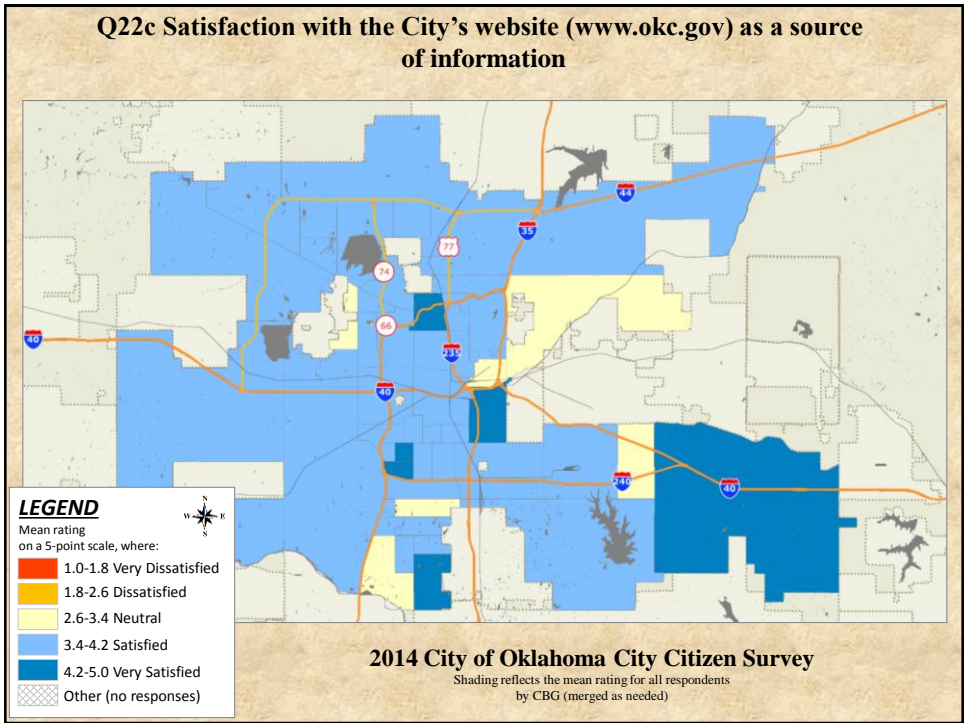

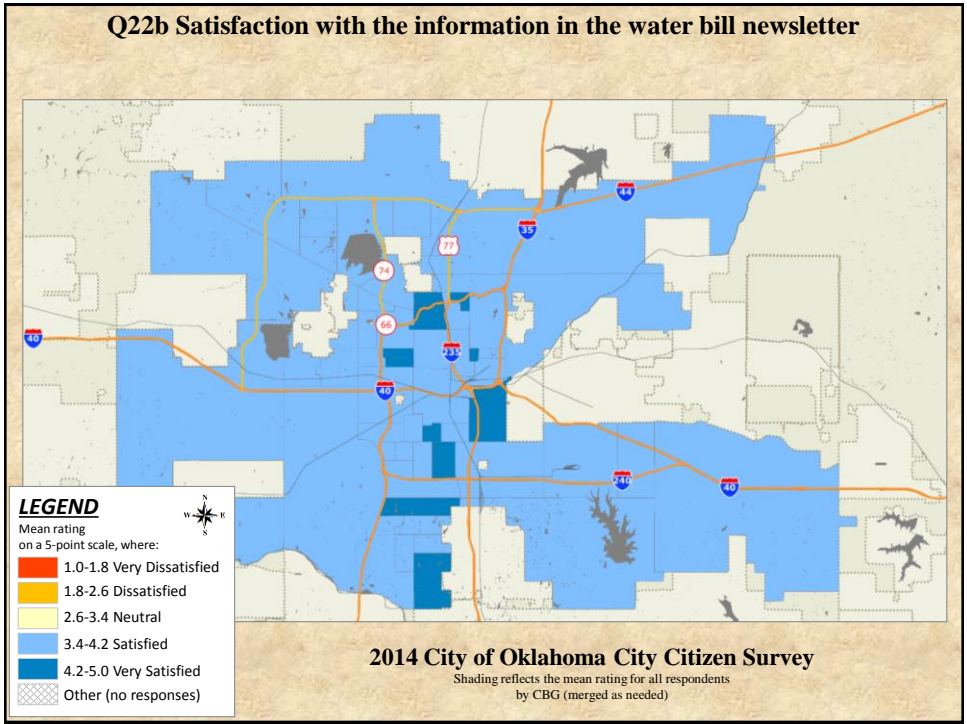

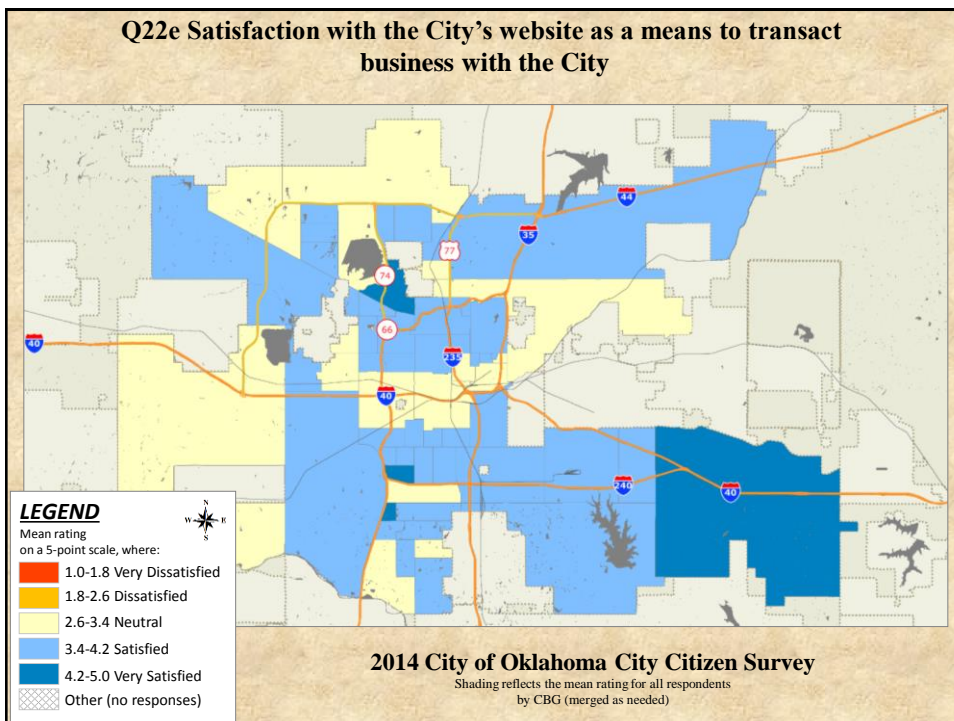

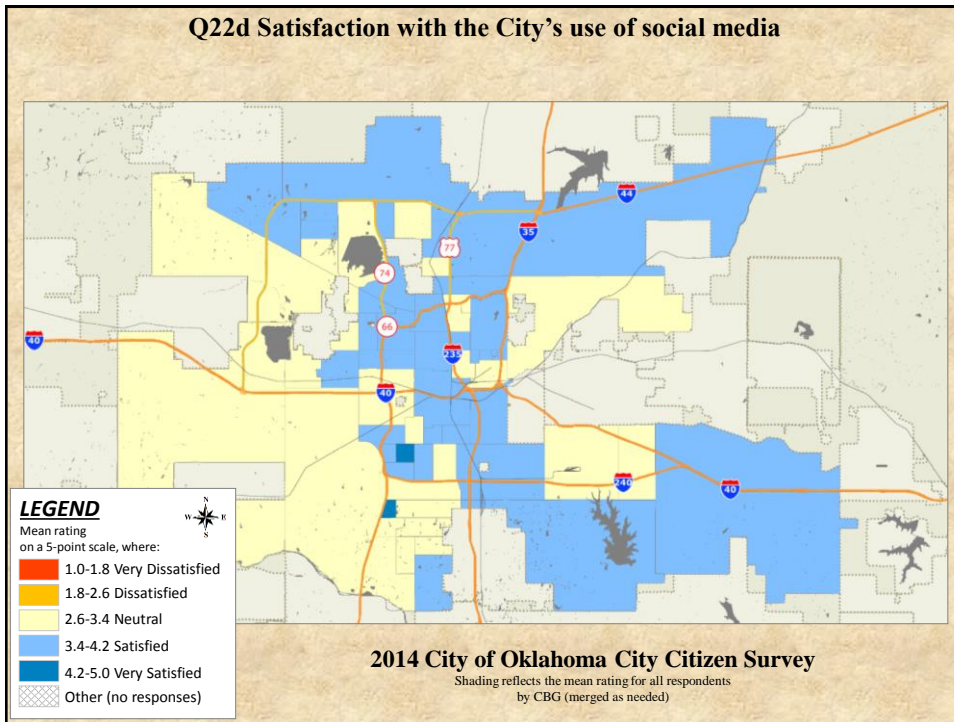

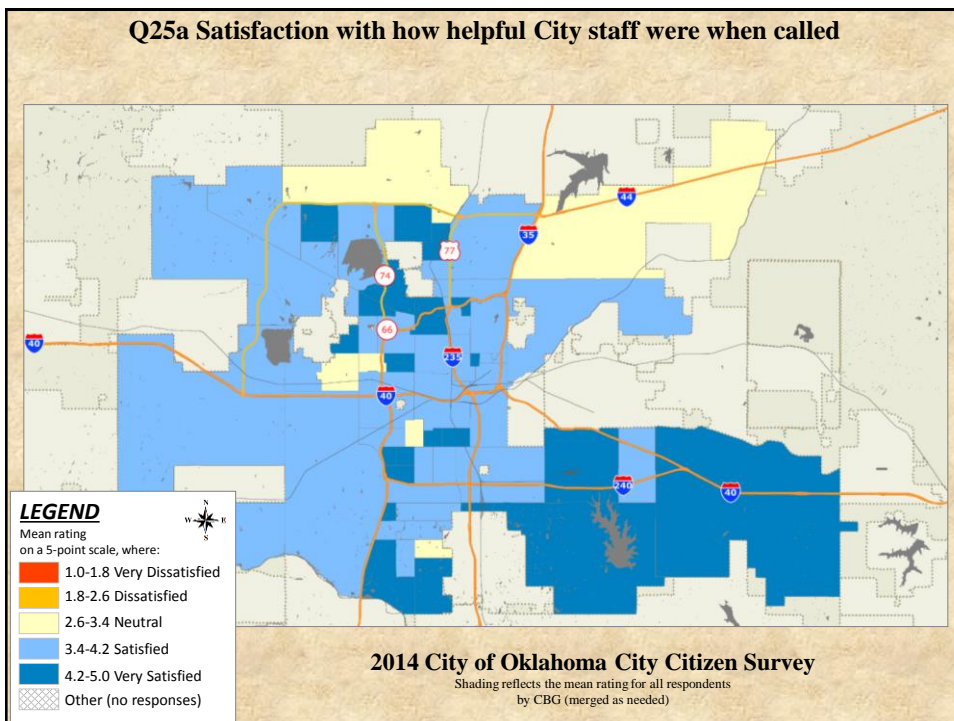

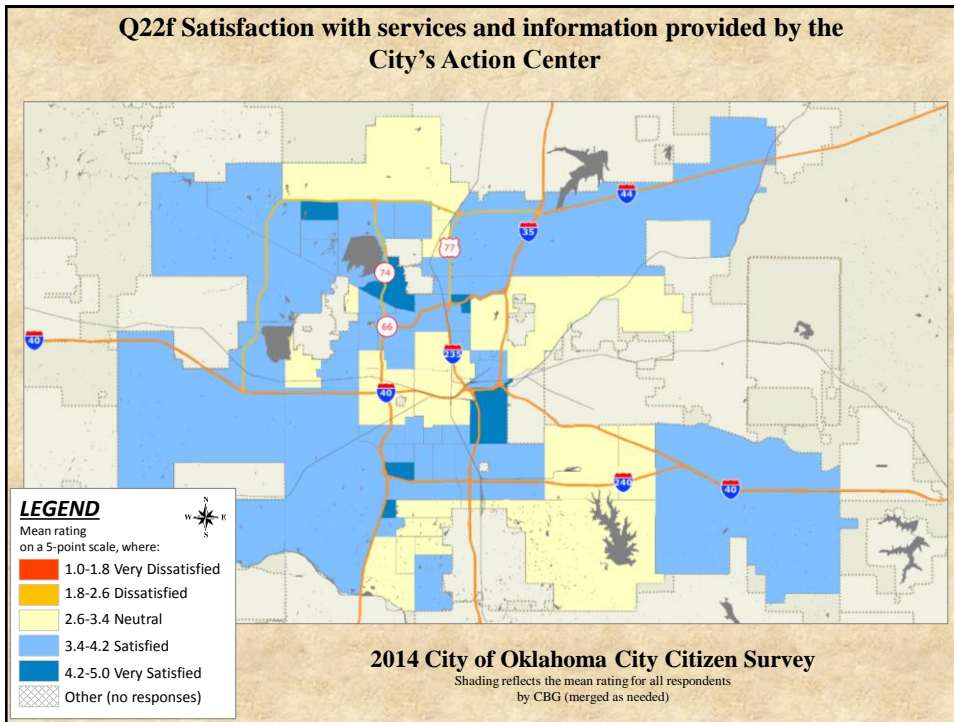

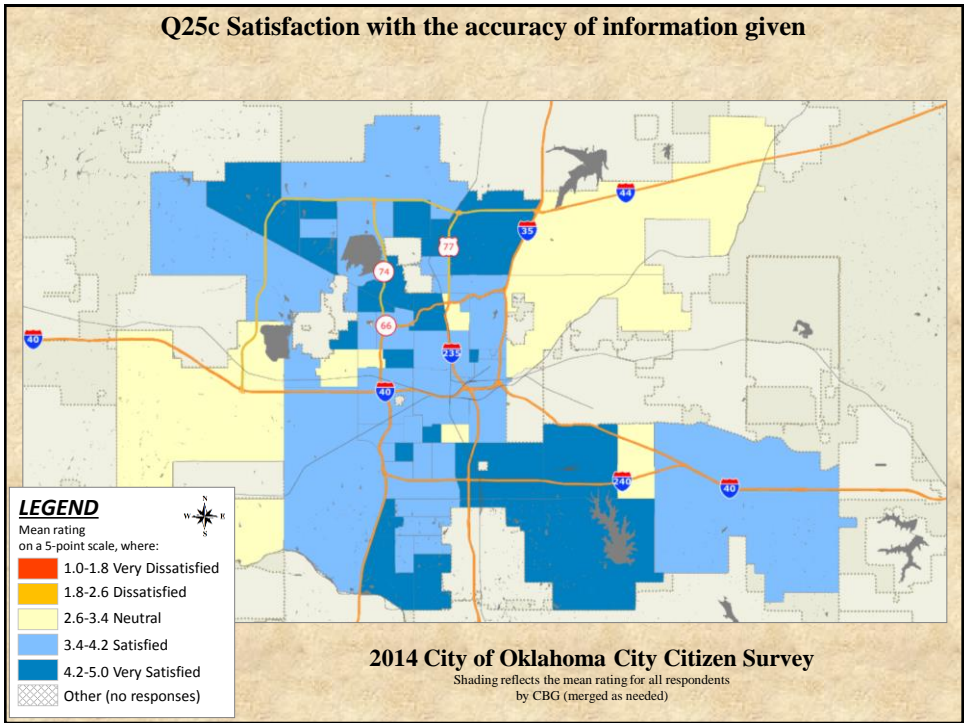

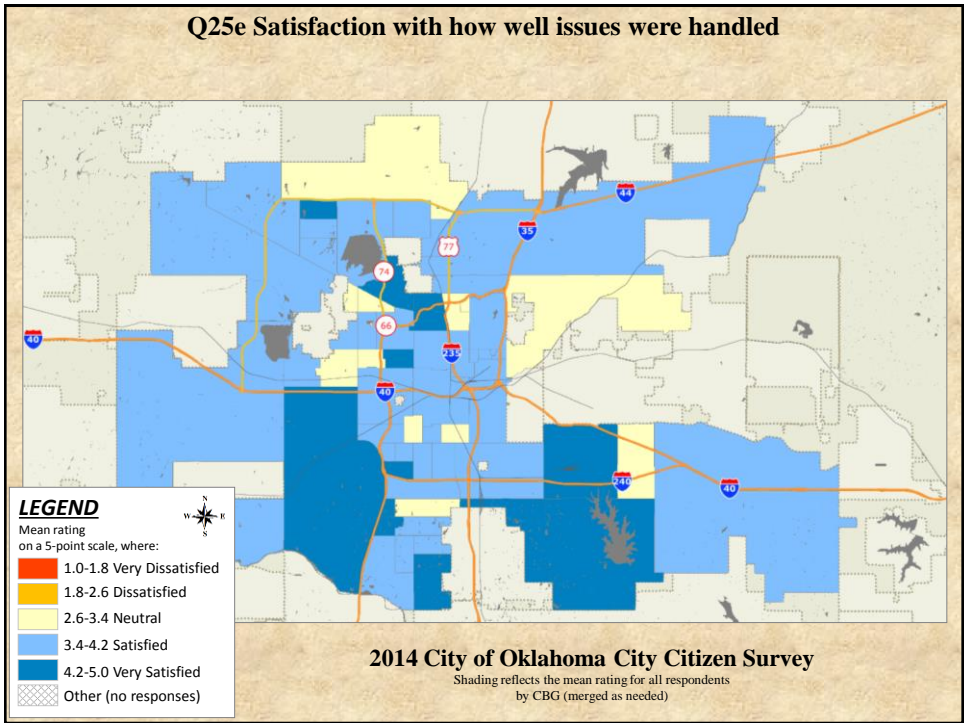

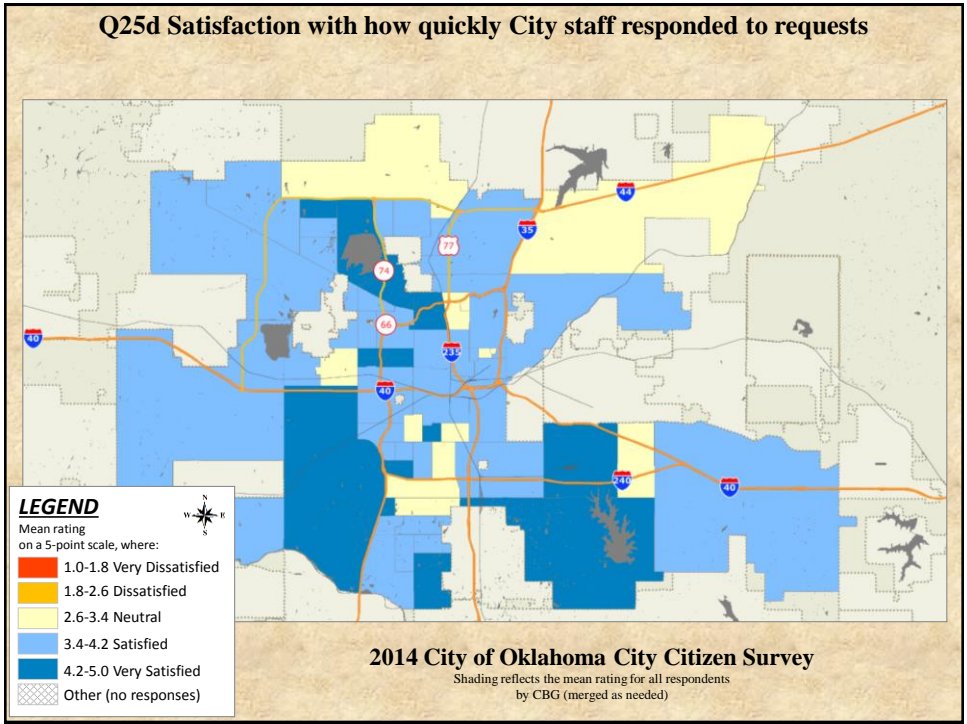

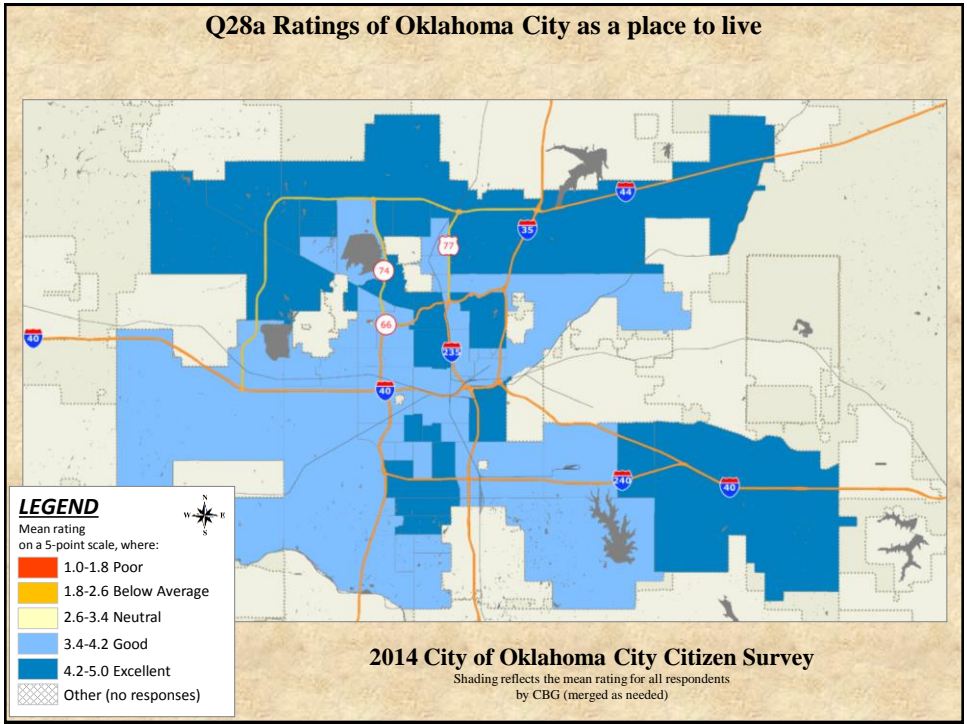

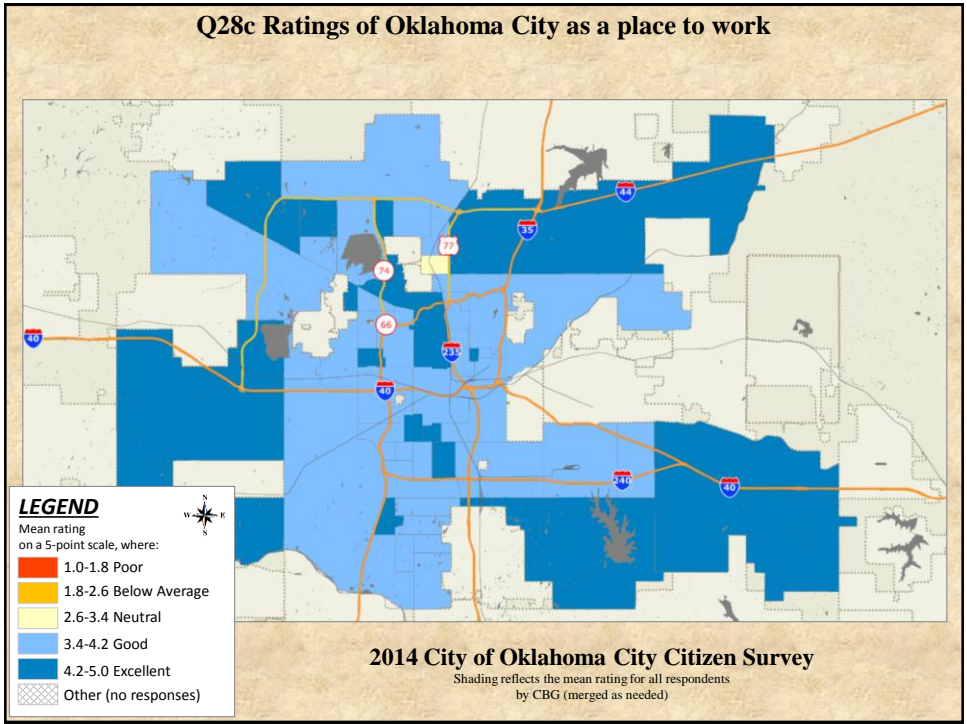

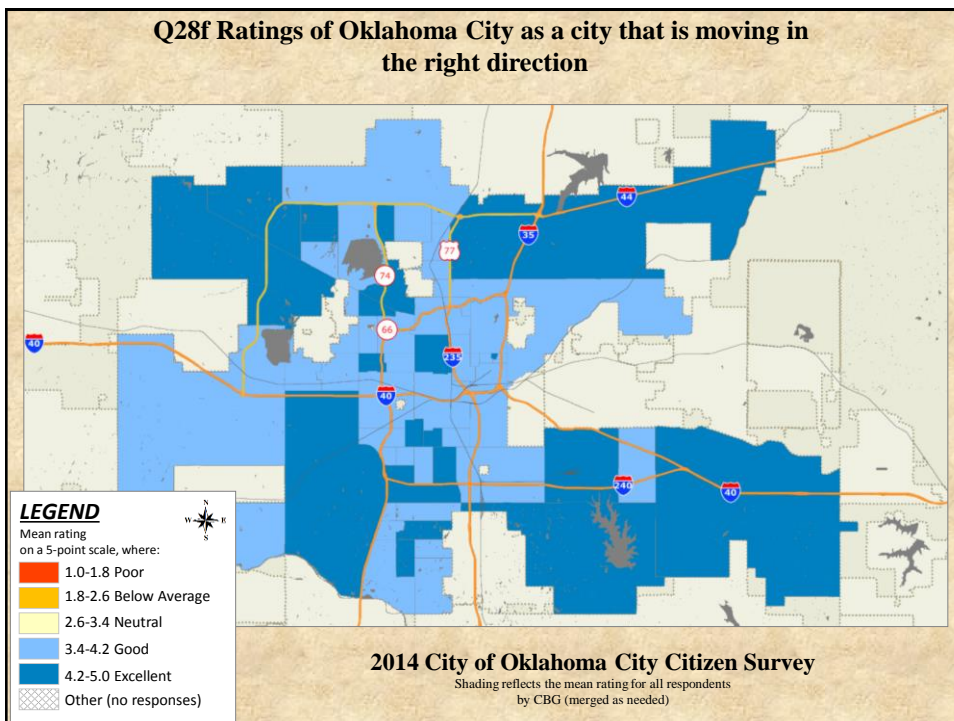

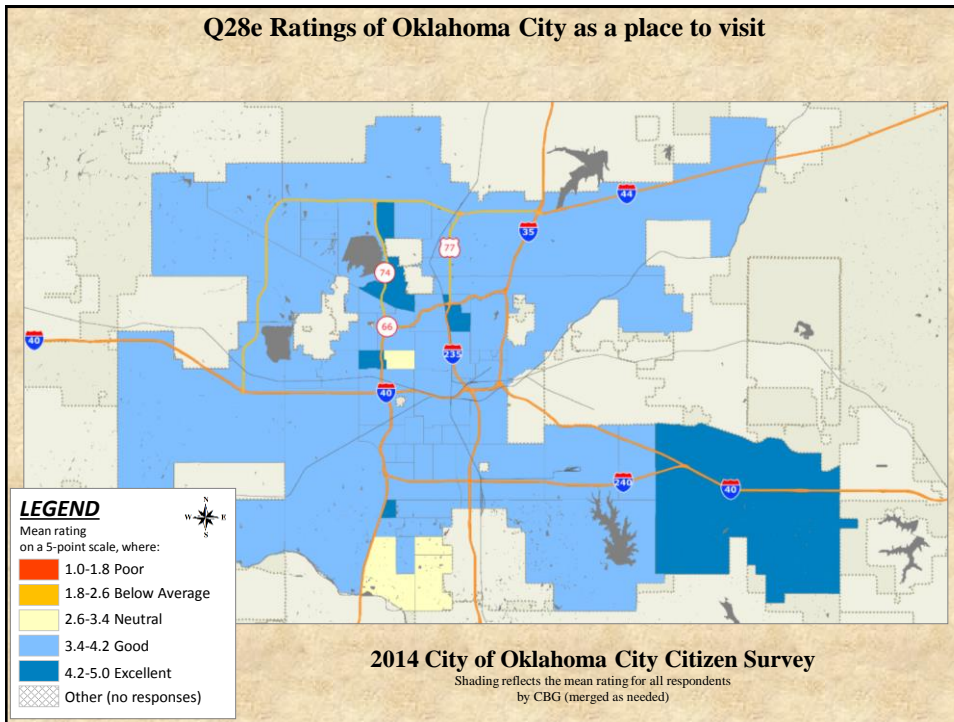

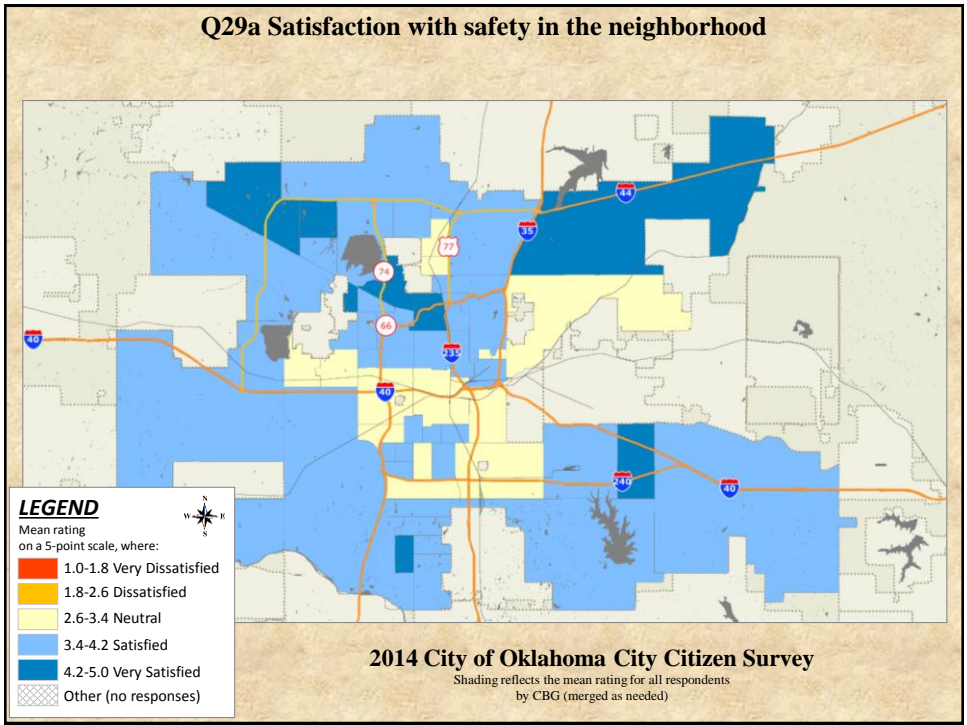

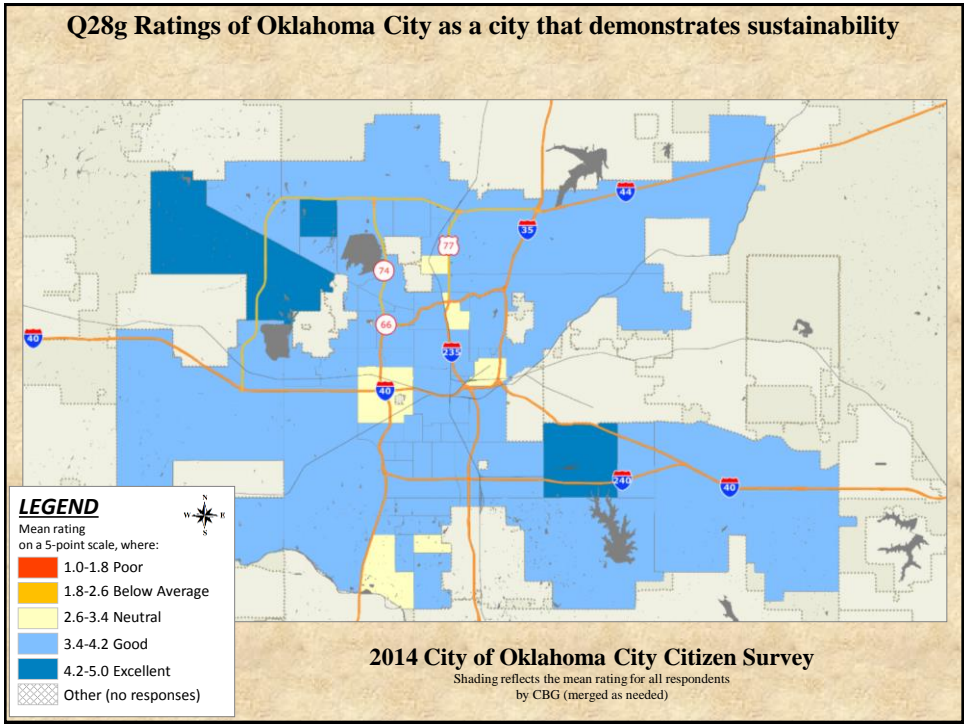

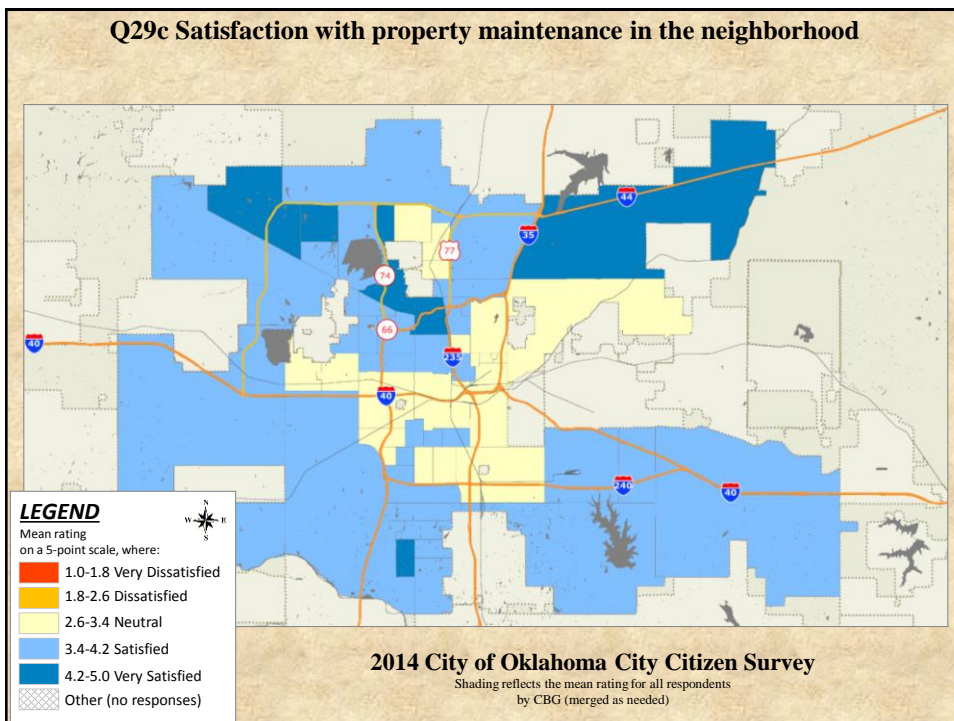

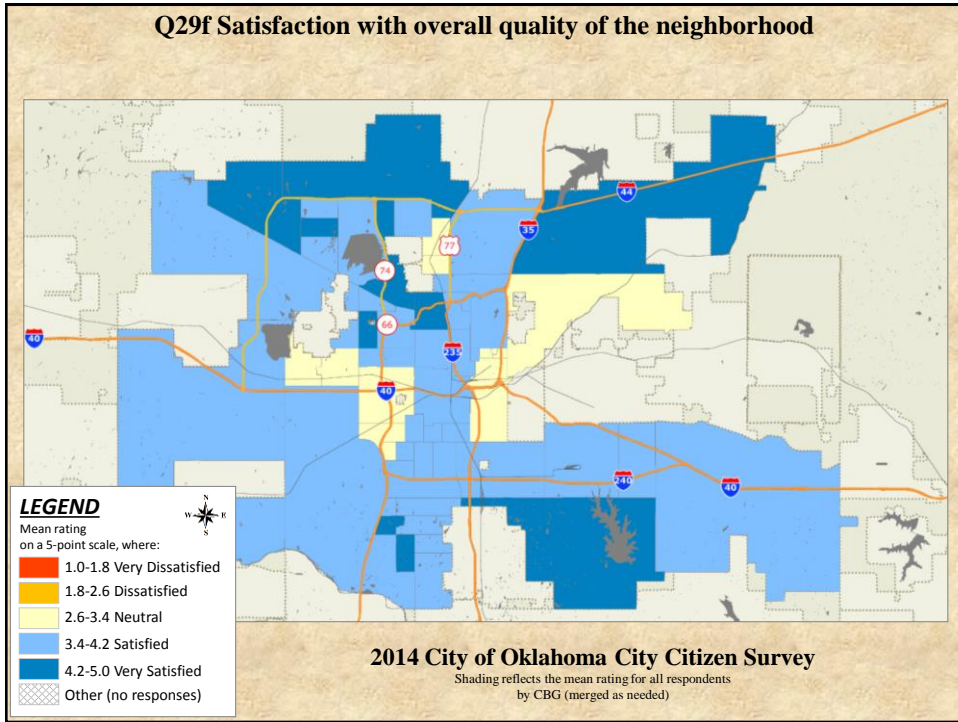

***Section 5:
Tabular Data***

Q1. Major categories of services provided by the City of Oklahoma City are listed below. Please rate each item on a scale of 1 to 5, where 5 means "very satisfied" and 1 means "very dissatisfied."

(N=1201)

	Very Satisfied	Satisfied	Neutral	Dissatisfied	Very Dissatisfied	Don't know
Q1a. Quality of police service	26.0%	38.8%	21.0%	5.7%	2.8%	5.7%

***Section 6:
Survey Instrument***

The City of
OKLAHOMA CITY

June 2014

Dear Oklahoma City Resident:

Your input on the enclosed survey is extremely important.

During the next few months, we will be making decisions that affect a wide range of City services, including public safety, parks and recreation, code enforcement, and others. To ensure that the City's priorities are aligned with the needs of our residents, **we need to know what YOU think.**

We appreciate your time. We realize this survey takes some time to complete, but every question is important. The time you invest in this survey will influence dozens of decisions that will be made about the City's future. Your responses will also allow City leaders to identify and address the many opportunities and challenges facing the community.

Please return your survey sometime during the next week. Your responses will remain confidential. Please return your survey in the enclosed postage-paid envelope.

If you have any questions, please call the City's Action Center at 297-2535. Thanks again for taking the time to better our community.

Sincerely,

A handwritten signature in cursive script that reads "Mick Cornett".

Mick Cornett
Mayor

2014 City of Oklahoma City Citizen Survey

Please take a few minutes to complete this survey. Your input is an important part of the City's ongoing effort to identify and respond to citizen concerns. If you have questions, please call the City's Action Center at 297-2535.

1. Major categories of services provided by the City of Oklahoma City are listed below. Please rate each item on a scale of 1 to 5, where 5 means "very satisfied" and 1 means "very dissatisfied."

<i>How Satisfied are you with:</i>	<i>Very Satisfied</i>	<i>Satisfied</i>	<i>Neutral</i>	<i>Dissatisfied</i>	<i>Very Dissatisfied</i>	<i>Don't Know</i>
A. Quality of police service	5	4	3	2	1	9
