Project Title: Sanitary Sewer Rehabilitation

Project Location: NW 23rd Street to NW 30th Street from Shartel Avenue to Hudson Avenue

Project Number: SC-1097

Estimated Construction Cost: \$2,000,000

Background: The Oklahoma City Water Utilities Trust operates and maintains its wastewater treatment and collection system. This project will rehabilitate 11,515 linear feet of 6-inch and 8-inch sanitary sewer mains vitrified clay mains. This area of sanitary sewer mains has been identified through the condition assessment efforts as having a high likelihood of failure and risk that can lead to increased inflow and infiltration (I&I), backups, or sanitary sewer overflows (SSO). Rehabilitation of these mains and manholes will ensure the collection system continues to operate efficiently.

Project Intent: The consultant for this project will provide final design, bidding, construction administration and management, inspection, and as-built drawing services necessary to complete the project. Preliminary engineering or an engineering report will not be required for this project.
