

SC-1099, Wastewater Lift Station No. 36 Improvements, 6012 SW 119th Street

Questions and Answers

April 5, 2022

Are we able to visit and/or get drawings of the lift station?

A one-time site visit has been scheduled for April 6th @ 3pm. Contact Will Huggins at will.huggins@okc.gov to request the record drawings.

If we cannot visit and/or get drawings of the lift station, can you tell us the inlet and outlet line sizes at the lift station?

A one-time site visit has been scheduled for April 6th @ 3pm. Contact Will Huggins at will.huggins@okc.gov to request the record drawings.

What type of lift station is No. 36? Wet-well/dry-well, wet-well w/submersible pump, wet-well w/ suction above ground pumps, etc.?

A one-time site visit has been scheduled for April 6th @ 3pm. Contact Will Huggins at will.huggins@okc.gov to request the record drawings.

What is your preference for the design regarding the type of lift station?

To be evaluated during design.

Are there previous studies that were used to design the existing lift station? If so, can you provide them?

None available.

Are there I & I studies of the sanitary sewer system feeding the lift station? If so, can you provide them?

None available.
