

Did you know?

Plastic bags are bad for the recycling process.

- They clog up our sorting equipment, causing breakdowns that cost time and money.
- They contaminate good recycling materials, which often end up back in our landfills.
- Bagged recyclables are sent to landfills since crews can't see what's inside.

DO YOUR PART.

**Keep all bags out of
your BIG GREEN cart.**

Overwhelmed by what to recycle?

Don't go by the numbers. Stick with the basics.

Help us fight contamination by recycling *only* what's shown below.

Aluminum and
Steel Cans/
Aluminio y Latas

Paper and
Cardboard/
Papel y Cartón

Plastic Bottles and
containers
Botellas de Plástico

Paperboard Cartons
Cartones

Glass Bottles
and Jars
Botellas de Vidrio

- ✓ Make sure all items are **empty, clean and dry**. *Todos los materiales reciclables deben estar vacíos, limpios y secos.*
- ✓ Keep ALL plastic bags out of your recycling cart. *No incluya bolsas de plástico en el carrito verde.*
- ✓ When in doubt, throw it out (into your **Big Blue** cart). *Si no estás segura, póngalo en su carrito azul.*
