

STRESSED BY YOUR SPRINKLERS? WE CAN HELP!

Did you know that July is Smart Irrigation Month? Leaking sprinkler heads and incorrect programming can waste thousands of gallons of water and result in high water bills. Join us for our Sprinkler Basics Workshop and learn how to make your sprinkler system work for you!

- Hands-on demonstrations of sprinkler components
- How to perform an irrigation system efficiency assessment
- Introductory terminology and concepts

Saturday, July 13th

10 A.M. - 2 P.M.

Will Rogers Gardens Exhibition Hall

3400 NW 36th St.

Native Plants Save Water and Promote Pollinators!

- Native plantings can save over 50% more water than traditional turf grass.
- Native plants provide food and habitat for wildlife, including pollinators.
- Finding native plants is easy with local plant nurseries and farmers markets.
- Using tools like the plant database on Squeeze Every Drops website can help you find the plants right for you.
