Planning

FY22 Actual FY23 Actual FY24 Projection FY24 Target FY25 Target

Long-Term Issue - Community Development

Poverty, homelessness, lack of quality affordable housing, concerns about the quality of education, decreasing community involvement in neighborhood schools, and declining community vitality, if not adequately addressed, will result in:

- Increased crime and decreased perception of public safety;
- Decline in public health;
- Reduced ability to meet demand for public services;
- Decreased property values and neighborhood decline;
- Reduced ability to attract economic development;
- Reduced ability to improve education outcomes;
- Increased cost burden for low and moderate-income households; and
- Decreased satisfaction in community appearance.

Strategies to address the Long-Term Issue

- Stabilize neighborhoods through the Strong Neighborhoods Initiative and Historic Perservation efforts.
- Strengthen at-risk neighborhoods through the use of community development and social services programs.
- Strengthen relationships with partners, including the Public School Districts and the Oklahoma Department of Mental Health and Substance Abuse Services, to develop programs and strategies targeted to the specific needs of the community.
- Enhance community appearance through improving design and development regulations and facilitating public art projects.
- Seek additional partners and resources to increase permanent supportive housing and emergency shelters for homeless families and individuals.
- Concentrate community development resources in target revitalization areas for economic development, housing activities and public facilities for low and moderate-income populations.
- Increase the availability of safe, quality affordable housing by securing funding to build new units and rehabilitate existing units.

FY22 Actual FY23 Actual FY24 Projection FY24 Target FY25 Target

Long-Term Issue - Urban Revitalization

If not addressed, older districts and neighborhoods will continue to experience increased vulnerability and decline, resulting in:

- Vacant or underutilized properties and lack of new investment;
- Higher costs to the City to provide services for residents and businesses;
- The inability to generate optimal tax revenue to pay for essential City services;
- Continued deterioration of aging commercial districts and neighborhoods;
- Inadequate number of quality, affordable residential products;
- Underutilization of existing properties and infrastructure;
- A lack of transportation options; and
- Lost opportunities for economic development.

Strategies to address the Long-Term Issue

- Guide the allocation of resources including grant funds and capital expenditures as stated in planokc.
- Focus Planning Department capacity and technical assistance on revitalization areas in need of revitalization.
- Guide appropriate infill development and revitalization through appropriate zoning and design review tools.
- Promote neighborhood stability and the rehabilitation and the adaptive reuse of historic properties as stated in preserveokc.
- Strengthen capacity of commercial districts to deliver more meaningful social, economic, and aesthetic results through the Commercial District Revitalization Program.

Planning

Strategically concentrate neighborhood revitalization efforts in the Strong Neighborhoods Initiative areas to reverse decline and leverage private investment and support.

Strategic Result(s) to measure annual progress on Long-Term Issue

Annually, the Planning Department will influence revitalization and redevelopment within the urbanized areas of the city as evidenced by:

• 100% of participating Commercial District Revitalization Program districts will maintain or increase total property value.

\$

 65% of citizens surveyed will be satisfied with each attribute in response to the following question: Please rate your satisfaction with the following attributes of your neighborhood: - Safety - Appearance - Property Maintenance - Sense of Community - Amenities (parks, sidewalks, street trees) - Overall Quality

Long-Term Issue - Sustainable Growth

Failure to guide the city's growth in a way that promotes quality of life, efficient service provision, and human, environmental, and economic health will result in:

- Increased costs to provide public services;
- Lower level of City services;
- Diminished neighborhood stability and durability;
- Exacerbation of public health issues;
- Continued stress on capacity of public schools to improve educational outcomes;
- Reduced functionality of the multi-modal transportation system and capacity to support it;
- Reduction in quality, accessibility, and availability of natural resources (air, water, natural areas);
- Increased number of vacant, abandoned and dilapidated buildings and properties;
- Diminished options for access to community services and employment opportunities;
- Increased infrastructure construction and maintenance costs for taxpayers;
- Failure to meet federal air quality standards will impact federal funding, efficiency of transportation infrastructure projects, and the ability to support new or expanding industry;
- Diminished attractiveness for economic development;
- Increased economic and social disparity; and
- Diminished ability to meet community demand for quality of life services and amenities.

Strategies to address the Long-Term Issue

- Implement Comprehensive Plan (planokc);
- Implement the Sustainability Plan (adaptokc) with increased focus on air quality, energy, and climate resilience programs.
- Develop policies, strategies, and incentives to increase the variety of housing types and affordability.
- Modify codes, regulations and policies to ensure consistency with the comprehensive plan (planokc).
- Promote the implementation of a multi-modal transportation system and continue to implement bikewalkokc.
